Psychiatrists give drugs to we sick patients but we do not get nutrients & added help such as niacine & thiamene. Many nervously ill patients need extra help with fortified yeast & minerals which National Assistance rates do not allow us to buy. I do think more thought should be given by all Doctors as to whether a patients diet is correct & sufficient. Truly our Doctors need re-education to take them from the Communist backed plan in training them to hand out, willy nilly millions of pounds worth of synthetic drugs with harmful side-effects. I am willing to elaborate on this nutrients theory; if you ask me.

People are bored & I think that if mass

10th April, 1966.

Dear Robert,

I must say at first that I loved your late Brother very much, more than his wife ever could or did, she just is not capable of any deep emotion also she has not the inate breeding which comes from a long line of people, she has gloss and finish but nothing inwardly to sustain these outward glamour. Still you seem to prefer to spend time and money on her rather than me who is of much more use in the world. I deplore your attitude towards me and am deeply hurt that you consult Pyschiatrists and turn my letters over to them, I dothink that you should have been able to read them your self albeit we speak English differently. I regret that I have not had the respect and affection from your family that I deserve. I do wish too that you would call off any watch dogs interfering in my letters. You must know by now that most of what I say is intrinsically true and that I can help turn the tide of Communist subversive activity in this Country.

I was very upset that the Labour Party got in and we would have to work hard to turn Mr Wilsons trends to the technological futuristic world that he is being urged to perpetrate on us. I can only think that if President Johnson help us financially then he can tell Mr Wilson when he is going too much towards the left. You may know that I believe that the Russians intend to take us over within fifteen years say twelve, this is not madness on my part, why all this emphasis upon the young ones? it is they who are being brainwashed to a certain standard of life.

The rot is basically in our Training Colleges, e.g. Teachers Schools at Birmingham, Police Training School at Hendon B.M.A. Medical Training Schools. I can see all which is wrong in their approach to us the long suffering Public. It will take many letters for me to explain the ins and outs of this training and its applied psychology.

My main concern in this letter is about food, as you may guess, in my opinion, our food has been interfered with by the Jews and this is part of the plan to bring us low.

For a start I suggest that we abolish all improvers in bread as our bread is poisonous containing improvers and agene.

I think bread should be whole-meal or whole wheat. It may even be responsible for mass mental deterioration!

plots & allotments were made available to us all then we could lose boredom, improve our health & grow compost soil vegetables for our own use. All our vegetables & fruit farms are under subversive activity with chemical sprays & insecticides. The Lord above knows whether Russian agents have taken over many of our farms? my mind is very disturbed at our food & its deterioration.

Manufacturers get away with dying & perverting food under the guise of being clean & hygenic; actually the goodness is taken out of the food & then it is sold in hygenic wrappings to attract customers

anded. In fact the war may just e out as the Viet Cong guerrillas nd the North Vietnamese Com- unists become convinced they annot win, he declared.

At the height of the Vietnam ebate, Senate Democratic leader Mike Mansfield of Montana label- d Sen. Aiken the "owl . . . the vise man."

Two months ago, Sen. Aiken was leading critic of the conduct of he war, even though it was his party's policy to support Mr. John- son. Sen. Aiken feared escalation o the point of involving the Unit- ed States in a war with Commu- nist China, or even the Soviet Union, and possibly at the nuclear weapons level.

Today, he feels somewhat con- fident the fighting can be confined to its present geographical limits.

When he returned from Vietnam last year, Sen. Aiken said in an in- terview today, there was "an open- ended possibility of war. Nobody knew where it might go. It might even go to a nuclear war. I was afraid that the pressures on the administration were such that they would extend the war into other countries, intensify it.

## Kennedy Dixie Trip: Story of Dimes

By Andrew J. Glass

*Special to the Herald Tribune*

TUSCALOOSA, Ala., March 20. —The first confrontation between Sen. Robert Kennedy, D., N.Y., and the students of Alabama and Mississippi might be called "The Story of Two Dimes."

One dime was used by Nicholas deB. Katzenbach, the present at- torney general, to telephone Pres- ident John F. Kennedy from a pay station on the campus of the Uni- versity of Mississippi after an elaborate military communications system broke down on the night of Sept. 3, 1962.

As a result of that call, the President ordered 16,000 federal troops and National Guardsmen to the Ole Miss campus before dawn to quell a bloody desegrega- tion riot precipitated by the en- trance of the first Negro student, James Meredith.

Sen. Kennedy, then attorney general, was at his brother's side in the White House cabinet room while the line to the Oxford cam- pus was kept open all night. By morning, two men were dead and
