

Cartographic World War II Records Guide

This guide was compiled from various descriptions from our online catalog at catalog.archives.gov. The following description fields are included:

Series Title

Dates - Some dates include both when the series was compiled or maintained as well as the time period that the records cover.

NAID (National Archives Identifier) - This is a unique identifier that allows us locate materials in our holdings.

A series description (scope and content) is included for each series entry.

Type of archival materials - This field describes what type of records the series includes.

Arrangement - This field provides you with information on how the records have been arranged and organized. This may help you understand what kind of information is needed to pull the records.

Finding aid - If there is another finding that we can provide you to help locate specific folders, boxes or individual records, it will be listed here. All of these finding aids will be available as a paper copy and/or as a digital file in our research room.

Access and use restrictions - If there are any access or use restrictions on the records, they will be listed and explained here.

Extent - This notes how many items or folders are included in the series.

Digitized - This field will tell you if any of the records in the series are digitized and available in our catalog. Any digitized records are available at catalog.archives.gov by entering the provided NAID in the search bar.

Selection note: The selected series were chosen to be included based on their research value pertaining to World War II and the particular time period of 1939 - 1945. While some of the series have a larger coverage range, each series will have relevant records during this specific time period.

How to request records: If you are interested in viewing any of the records listed, please provide the Series Title, NAID and any specific records of interest on a pull slip. If there is a finding listed as available, please consult it to identify specific records of interest or discuss with the consultant on duty before submitting a pull slip.

Donated Materials (Formerly RG 200) - Page 223

RG 16: Records of the Office of the Secretary of Agriculture, 1794 - ca. 2003

16.1: Maps of Post-World War II Regional Planning

Dates: 1941 - 1945

NAID: 1635413

This series consists of published maps, with related graphs and tables, for the Northeast, Southeast, Appalachian, Northern Great Plains, Southwest, Inter-Mountain, Pacific Northwest, and California-Nevada regions, showing soils, climate, crops, population, transportation, and market areas.

Type of archival materials: Maps and Charts

Arrangement: Arranged geographically by region.

Finding aid: None

Extent: 359 maps

Digitized: No

RG 18: Records of the Army Air Forces, ca. 1902 - 1964

18.1: Aerial Photography of the Normandy Invasion

Dates: 6/6/1944

NAID: 305400

This series consists of 17 large scale aerial photographs showing 8th Air Force operations, relating to the Normandy Invasion, on June 6, 8, and 10, 1944.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged alphabetically from "A" to "Q".

Finding aid: None

Extent: 17 aerial photographs

Digitized: No

18.2: Aeronautic Chart Specifications

Dates: 1942 - 1945

NAID: 27023461

This series consists of product specifications for aeronautical charts and related products produced by the Army Air Forces.

Type of archival materials: Textual Records

Arrangement: Arranged alphabetically by name of chart.

Finding aid: None

Extent: 1 box

Digitized: No

18.3: Air Atlas of North Africa, 1945

NAID: 18519379

This series consists of an unpublished draft volume describing aeronautical information and conditions in North Africa during World War II. Containing mostly written information with some maps and charts, the volume includes route descriptions, aerial photographs showing examples of different terrain features, a summary of radio navigation aids, weather information, and airport facility diagrams for certain significant airfield facilities. Location information, accompanied by runway and facility descriptions are included for supplemental airfields and major seaplane anchorages. Also included is a section on survival, including emergency landing procedures, emergency air rescue services, and survival summaries.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged by subject.

Finding aid: None

Extent: 1 volume

Digitized: No

18.4: Air Intelligence Service Maps

Dates: 1941 - 1947

NAID: 3386213

This series consists of maps collected and created by the Assistant Chief of the Air Staff, A-2 (Intelligence). These include maps of the Mediterranean, North Africa, Japan, Manchuria, Taiwan, and Southwest Pacific Islands.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 117 maps

Digitized: No

18.5: Air Navigation Charts Covering Japan

Dates: 7/1942

NAID: 12276381

This series consists of published aeronautical charts covering areas of Japan during World War II. Also included are transparency overlays.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number.

Finding aid: Index

Extent: 70 charts and 280 overlays

Digitized: No

18.6: Air Objective Folders

Dates: 1942 - 1945

NAID: 6050528

This series consists of air objective dossiers containing information on U.S. Army Air Force bombing targets in parts of Asia during World War II. Each dossier contains text, photo and map sections. The text section includes a summary and evaluation of the target area, including terrain and weather analysis; target tabulations and descriptions; and information on target charts. The photo section contains photographs of intended targets, such as harbors, railroad marshalling yards, fuel storage facilities, and industrial areas. Some of the photographs have been annotated. The map section contains maps at various scales to aid in target identification. Geographic coverage in this series focuses primarily on areas of Japan, but also includes coverage for the Hainan area of China, Borneo, Burma, Taiwan, Indonesia, The Philippines, and Thailand.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged numerically by agency assigned number.

Finding aid: Folder List

Extent: 92 objective folders

Digitized: No

18.7: Airport Directories

Dates: 1943 - 1951

NAID: 18396927

This series consists of publications listing airport facilities in the United States. Information for each facility includes name of the facility; geographic location, including latitude and longitude coordinates; type and extent of facilities; available radio facilities; and a description of typical weather conditions and terrain. The 1945 volumes include an oblique aerial photograph or site plan for most of the facilities showing the layout of runways and buildings.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged chronologically, thereunder alphabetically by state, and thereunder alphabetically by name of facility.

Finding aid: Container List

Extent: 23 volumes

Digitized: No

18.8: Airways Guides

Dates: 1945 - 1948

NAID: 1871470

This series consists of publications listing aeronautical information for radio and radar navigational facilities and airfields in the Western Pacific and China. Included are runway diagrams showing the layout for each facility.

Type of archival materials: Maps and Charts; Textual Records

Arrangement: Arranged geographically (Western Pacific and China), thereunder chronologically and thereunder by air facility.

Finding aid: None

Extent: 13 volumes

Digitized: No

18.9: Atlases of Climatic Conditions

Dates: 1943 - 1945

NAID: 642970

This series consists of information about the strategic aspects of climates in parts of the world. The atlases contain reports on weather conditions in different parts of the world. Conditions such as wind patterns, precipitation, and topography are noted.

Type of archival materials: Maps and Charts

Arrangement: Arranged chronologically by month.

Finding aid: None

Extent: 7 atlases

Digitized: No

18.10: Celestial Navigation Recording Charts

Dates: 1943 -1944

NAID: 6277284

This series consists of published aeronautical charts showing degrees and minutes of latitude and longitude. No additional aeronautical, topographic, or cultural information is printed on the charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number.

Finding aid: None

Extent: 18 charts

Digitized: No

18.11: Cloth Aeronautical Charts

NAID: 12273730

Dates: 1942 - 1959

This series consists of printed aeronautical charts. The charts are cloth and cover such areas as the southwest and west Pacific, Asia, Africa, the Middle East, and Eastern Europe at a variety of scales.

Type of archival materials: Maps and Charts

Arrangement: Arranged by geographic region and thereunder by agency assigned chart number.

Finding aid: Item List

Extent: 91 Charts

Digitized: No

18.12: Enroute Charts Pertaining to Australia, New Zealand and Antarctica

Dates: 1941 - 1947

NAID: 3393122

This series consists of enroute charts of Australia, New Zealand and Antarctica, created by the Army Air Forces and the Navy.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 5 charts

Digitized: No

18.13: **Flight Charts**

Dates: 1941 - 1947

NAID: 643988

This series consists of maps and charts of the globe. Each map shows major cities and highways as well as secondary roads. They also display wind and ocean currents.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 39 maps

Digitized: No

18.14: **General Maps**

Date: 1943 - 1955

NAID: 649837

This series consists of maps and charts of general subject matter during the World War II era.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 9 maps

Digitized: No

18.15: Instrument Flying Trainer charts

Dates: This series was compiled or maintained 1945 - 1946. It documents the time period 1944 - 1946.

NAID: 47889772

This series consists of aeronautical charts showing runway approach and takeoff information for selected airports throughout the world.

Arrangement: Unarranged.

Finding aid: None

Extent: 60 charts

Digitized: No

18.16: Maps of Cities in Japan, Manchuria and China

Dates: 1944 - 1945

NAID: 4662630

This series consists of maps of selected cities for the Air Objective File.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 30 maps

Digitized: No

18.17: Maps of Military Bases

Dates: 1942 - 1945

NAID: 642936

This series consists of manuscripts and annotated maps of the world that depict strategic places for the Army Air Forces. The legends on the maps contain icons that represent military bases, barracks, encampments, airdromes, squadrons, and forts.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 6 maps

Digitized: No

18.18: **Objective Files**

Dates: 1943 - 1944

NAID: 112751001

This series consists of United States Air Force objective files which include maps and coastline photographs of New Britain and the Admiralty Islands in Papua New Guinea. Each file includes a key map. The coastal photographs include notes on reefs, vegetation and landing beaches.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials

Arrangement: Arranged numerically by agency assigned objective folder number.

Finding aid: Folder List

Extent: 2 folders

Digitized: No

18.19: **Outline Maps of World Regions**

Dates: 1941 - 1947

NAID: 644090

This series consists of grid maps that outline which territory belongs to a certain nation. The maps define boundaries, claims, and sectors.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by region.

Finding aid: None

Extent: 43 maps

Digitized: No

18.20: Photo Interpretation Maps Pertaining to Taiwan

Dates: 1941 - 1947

NAID: 3401307

This series consists of three thematic maps of Taiwan (Formosa) produced by the 18th Photo Intelligence Detachment, Headquarters 14th Air Force, using aerial photographs. These maps pertain to ports, industrial sites and air facilities, respectively.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 3 maps

Digitized: No

18.21: Regional Aeronautical Charts

Dates: 1941 - 1947

NAID: 649170

This series consists of aeronautical charts that display wind and ocean currents as well as radio beacons and reception.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 353 maps

Digitized: No

18.22: Special Air Navigation Maps

Dates: 1943 - 1946

NAID: 644049

This series consists of published aeronautical charts. The charts include topographic and cultural information, such as principal cities, towns, railroads, and international boundaries. Aeronautical information is overprinted on the charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number and thereunder chronologically.

Finding aid: Item List

Extent: 125 charts

Digitized: No

18.23: Strategic Aerial Photographs and Charts

Dates: 1941 - 1947

NAID: 783951

This series consists of charts and aerial photographs from different Air Service Commands. The Far East Air Force Command records contains maps that defines key points in Asian countries. Some include an air target map of the Philippines that include railroads, factories, Japanese air facilities in Korea, and a map of the Japanese Islands with a glossary of common Japanese terms. Records from the North West African Air Service command contain two maps that display an airdrome recognition map of the Telergma area and a location map of the Selif-Bougie-Djidjelli area. The 21st Bomber command records contain approach and target charts of Japan. One such chart is of Nagasaki, Japan made in March 1945. The aeronautical charts from the 14th Air Force command indicate points of interest in China, Formosa, and Korea. The 7th Bomber Command charts detail military encampments on the Gilbert Islands. Aeronautical charts of the 13th Air Force Southern Pacific Command show areas in the Southern Pacific that are covered by a mapping project.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials

Arrangement: Arranged numerically by Air Command number.

Finding aid: None

Extent: 1,000 charts and 391 prints

Digitized: No

18.24: Strategic Planning Charts

Dates: 1941 - 1947

NAIDL 644025

This series consists of planning charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned identifier.

Finding aid: None

Extent: 19 maps

Digitized: No

18.25: Target Area Base Charts

Dates: 1944 - 1945

NAID: 6094676

This series consists of base charts of areas in Japan, Korea, and Manchuria. The charts show the locations of rivers and waterways, urban areas, highways, railroads, power lines, radio and other prominent towers, and spot elevations. Target information consists of references to corresponding Air Objective files and some charts show the location of U.S. Army Air Force bombing targets.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned number. Indexes are filed at the beginning of the series.

Finding aid: Folder List

Extent: 330 charts and 8 indexes

Digitized: No

18.26: **Target Charts**

Dates: 1942 - 1944

NAID: 783948

This series consists of charts of areas in Albania, Atlantic Islands, British Pacific Islands, Bulgaria, Burma, China, Chosen, Finland, France, Indo-China, Italy, Japan, Japanese Pacific Islands, Jugoslavia (Yugoslavia), Korea, Malay States, Manckukuo, Netherlands, Philippine Islands, Portugal, Rumania, Spain, Sweden, Thailand, and Turkey. The charts show the locations of rivers and waterways, urban areas, highways, railroads, power lines, radio and other prominent towers, and spot elevations. Target information consists of references to corresponding Air Objective files and the location of U.S. Army Air Force bombing targets.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by country name and thereunder numerically by agency assigned chart number.

Finding aid: Folder List; Indexes (filed with the records)

Extent: 1,500 charts

Digitized: No

18.27: **World Aeronautical Charts**

Dates: 1943 - 1947

NAID: 649649

This series consists of published aeronautical charts covering most land masses in the world. Topographical information includes cities, principal roads, railroads, distinctive landmarks, drainage patterns and relief. Aeronautical information includes visual and radio aids to navigation, airports, airways, restricted areas, obstructions and other pertinent data.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned identifier and thereunder numerically by edition number.

Finding aid: None

Extent: 5,000 charts

Digitized: No

18.28: **World War II Target Charts**

Dates: 1942 - 1945

NAID: 12620244

This series consists of charts showing military targets such as military defenses, barracks, and airfields as well as factories, railroads, sea ports, power plants, and other infrastructure. Each chart typically covers a city or town and includes waterways and cultural information, but not topography. A list of potential targets is sometimes printed on the charts as well. Coverage includes China, Formosa, French Indo China, Hainan Island, Japan, Korea, Manchuria, Pescadores Island, and Thailand (Siam).

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by country or region of geographic coverage and thereunder numerically by agency assigned chart number.

Finding aid: None

Extent: Approximately 500 charts

Digitized: None

RG 19: Records of the Bureau of Ships, 1940 - 1966

19.1: **Alphabetical Series of Ship Engineering Drawings (Alpha)**

Dates: 1919 - 1940 (includes later drawings)

NAID: 559623

This series consists of measured engineering drawings. They are almost always a part of or make up the entire "Booklet of General Plans". The booklet includes inboard and outboard profiles sections and deck plans. The ships included are a wide variety of vessels constructed after the range of the "dash file" (post 1909) and before the universal use of the engineering drawing categories. Hull construction, mechanical and electrical drawings are rarely included.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by ship name.

Extent: Approximately 12,405 drawings

Finding aid: Master Ship List; Database

Digitized: Partially

19.2: Captured Japanese Ship Plans and Design Data

Dates: This series was compiled or maintained 1946 - 1947. It documents the time period 1932 - 1945.

NAID: 584288

This series consists of captured drawings and technical manuals for Japanese World War II battleships, cruisers, destroyers and aircraft carriers. The plans are in Japanese with some English translation annotations.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by agency assigned folder numbers (enclosure numbers).

Finding aid: Folder List

Extent: 465 drawings

Digitized: Partially

19.3: General Records of Non-Vessels

Dates: This series was compiled or maintained 1940 - 1947. It documents the time period 1916 - 1945.

NAID: 55159878

This series consists of safety and maritime articles, surveys, bound volumes, charts, and general records (non-vessel).

Type of archival materials: Maps and Charts; Textual Records

Arrangement: Unarranged.

Finding aid: None

Extent: 50 drawings, 3 bound volumes

Digitized: No

19.4: German Battleship Plans

Dates: This series was compiled or maintained ca. 1945 - ca. 1947. It documents the time period ca. 1937 - ca. 1942.

NAID: 561140

This series consists of ship engineering drawings of German Navy battleships built or under contract during the World War II period. Many of these drawings illustrate the locations and operations of the ships' onboard ventilation and water systems.

The series includes plans for the German battleship Bismarck, the battleship Tirpitz, the "H" class battleship (construction not completed), the planned "O" class battleship and one plan of the heavy cruiser Admiral Hipper.

Type of archival materials: Architectural and Engineering Drawings

Finding aid: Item List

Extent: 67 items

Digitized: No

19.5: German Naval Drawings

Dates: 1944

NAID: 7433173

This series consists of German Navy engineering drawings relating to unidentified mechanical and electrical systems.

Type of archival materials: Architectural and Engineering Drawings

19.6: Microfilm of Ship Engineering Drawings

Dates: This series was compiled or maintained 1945 - 1955. It documents the time period 1895 - 1955.

NAID: 559593

These 35mm Microfilms are copies of measured engineering drawings showing the basic hull and deck construction as well as mechanical and electrical systems of commissioned U.S. Navy ships. The ships documented range from battleships to auxiliary craft. Ships built after 1925 are often filmed in U.S. Navy Ships Material Group number order.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by Bureau of Ships microfilm box number.

Finding aid: Master Ship List; Item List

Extent: 1555 microfilm rolls

19.7: Plans for Aircraft Rescue Boats

Dates: 1942 - 1945

NAID: 3033354

This series consists of engineering drawings for 63 foot, 100 foot, and 104 foot aircraft rescue boats.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by vessel length.

Finding aid: None

Extent: 13 drawings

Digitized: No

19.8: Preliminary Design Drawings

Dates: This series was compiled or maintained 1929 - 1964. It documents the time period 1924 - 1964.

NAID: 7348513

This series consists of manuscript and annotated copies of design sketches and drawing studies for a wide range of U.S. Navy ships. Many of the drawings are original pencil on paper or ink on linen concept sketches of proposed ships or alterations to designs. Types of ships include battleships, aircraft carriers, destroyers and frigates, cruisers, submarines, minelayers, amphibious, and auxiliary ships. Significant ships include, but are not limited to, the Montana Class (BB-67) battleships, a 1935 battleship, a 45,000 ton aircraft carrier, ocean escort destroyers, various length attack submarines, the proposed troop transport LAFAYETTE (AP-53), and the USS UNITED STATES (CVA-58). A small amount of drawings relating to assumed or actual battle damage during WWII are also included.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by preliminary design (PD) number.

19.10: Ship Damage Control Diagrams

Dates: 1944 - 1961

NAID: 636007

This series consists of deck and compartment diagram drawings for surface ships. These ships include battleships, cruisers and destroyers.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by ship designation and thereunder numerically by hull number.

Finding aid: Database

Digitized: No

19.11: Ship Engineering Drawings (Hull)

Dates: ca. 1940 - ca. 1966

NAID: 559597

This series consists of ship construction and modification engineering drawings. These drawings often include booklets of general plans, ship profiles, basic hull and deck construction, mechanical and electrical systems of commissioned U.S. Navy ships. These records include plans for aircraft carriers, auxiliary ships, battleships, cruisers, destroyers, frigates, landing craft, patrol craft, submarines, and transports.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by ship designation, thereunder numerically by hull number, thereunder numerically by ship engineering group number.

Finding aid: Master Ship List; Database

19.13: **Spring Style Preliminary Design Drawings, 1939 - 1945**

NAID: 1696046

Dates: Dates: This series was compiled or maintained 1929 - 1955. It documents the time period 1911 - 1955.

This series consists of manuscript engineering concept ship design drawings. The ships include cruisers, aircraft carriers, destroyers, battleships, mine sweepers and transports.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged chronologically.

Extent: 310 drawings

Digitized: Partially

19.14: **Turbine Design Drawings**

Dates: 1943 - 1946

NAID: 2125513

This series consists of technical drawings of turbine systems for use in German U-Boats type 17 and 26. These Hellmuth Walter designs include sections, shafting, water, fuel, and oil systems. The drawings are the product of the Blohm and Voss works in German with English annotated translations.

Type of archival materials: Architectural and Engineering Drawings

RG 23: Records of the Coast and Geodetic Survey, 1806 - 1981

23.1: Aeronautical Charts Covering Alaska and the Philippines

Dates: 1938 - ca. 1944

NAID: 2637953

This series consists of aeronautical charts covering areas in Alaska and the Philippines. The charts include topographic features and the location of towns and villages, roads, and railroads. Aeronautical information includes the location of navigation lights and beacons, radio stations, airports, and seaplane bases and anchorages.

Type of archival materials: Maps and Charts

Arrangement: Arranged geographically and thereunder chronologically.

Finding aid: None

Extent: 65 charts

Digitized: No

23.2: Flight Charts

Dates: 1943 - 1953

NAID: 2635466

This series consists of aeronautical strip charts showing the principal air routes within the United States and the connecting routes to Alaska. Some international coverage is also included. The charts consist of topographic and cultural base maps overprinted to show the location of aeronautical data such as airports, beacon lights, and radio navigation facilities. Each chart covers an area approximately 100 miles on either side of the airway and 50 miles beyond terminal points.

Type of archival materials: Maps and Charts

23.5: Ship Engineering Drawing

Dates: 1941 - 1942

NAID: 65817131

This series consists of outboard profile and deck plan for the 66' Wire Drag Boat Hilgard.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Unarranged.

Extent: 1 drawing

23.6: World War II History Publication

Dates: This series was compiled or maintained in 1951. It documents the time period 1940 - 1945.

NAID: 2535196

This series consists of a publication detailing the work of the Coast and Geodetic Survey during World War II. Major sections consist of legislation and regulations governing war duties; transfers, recruiting and training of personnel; transfer of ships to Navy; field and office operations; and chart and map production.

Type of archival materials: Textual Records

RG 26: Records of the U.S. Coast Guard, 1785 - 2005

26.1: Coast Guard Vessel and Craft Engineering Plans

Dates: 1885 - 1994

NAID: 305418

This series consists of engineering plans for U.S. Coast Guard and predecessor agency vessels, including cutters, dories, dinghies, utility boats, and barges. The number and type of plans for each vessel varies. Plans may include inboard profiles, outboard profiles, deck plans, and engineering details.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by hull length in feet.

Finding aid: Master Ship List; Database

Extent: Approximately 10,165 drawings

Digitized: No

26.2: Cutter Ship Plans

Dates: 1915 - 1987

NAID: 598805

This series consists of plans for U.S. Coast Guard cutters built after 1915. The number and type of plans for each vessel varies. Plans may include inboard profiles, outboard profiles, deck plans, and engineering details.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphanumerically by hull designation and length of vessel and thereunder numerically by ship engineering subject category number.

Extent: 26,850 plans

Digitized: No

26.3: Drawings, Maps and Charts

Dates: This series was compiled or maintained 1972 - 1990. It documents the time period ca. 1790 - 1944.

NAID: 1068236

This series consists of maps and charts of Coast Guard installations, coastal areas, ports, and sea routes collected by the US Coast Guard Historian's Office. Also included are drawings of installations and plans of small boats.

Type of archival materials: Maps and Charts; Architectural and Engineering Drawings

Arrangement: Arranged geographically by general area and thereunder chronologically by date.

Finding aid: Folder List

Extent: 60 maps and plans

Digitized: No

26.4: Specifications for Vessels

Dates: 1939 - 1950

NAID: 627836

This series consists of written engineering specifications for vessel construction. These booklets include specifications for light vessels, side-wheel steamers and screw steamers.

Type of archival materials: Textual Records

Arrangement: Arranged by vessel type (light vessel, steamers).

Finding aid: Folder List

Extent: 1 box

RG 37: Records of the Hydrographic Office, 1754 - 1973

37.1: Air Navigation Charts

Dates: 1926 - 1969

NAID: 1518659

This series consists of published aeronautical charts which include topographic features, visual and radio navigational aids, locations of airfields and aviation related facilities. Early charts of the series, commonly known as strip charts, only covered the specific flight paths between departure and arrival airfields.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by a letter prefix and numerically by chart number.

Finding aid: Index

Extent: 2,050 charts

Digitized: No

37.2: Aircraft Plotting Sheets

Dates: 1928 - 1959

NAID: 1518695

This series consists of aeronautical position plotting sheets which span different 11 degree latitude bands at any selected longitude. Also included are aviation plotting charts which show coastlines for specific geographic areas.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphanumerically by the prefix VP, thereunder by chart number.

Finding aid: Index

Extent: 450 charts

Digitized: No

37.3: Airways Plotting Charts

Dates: 1944 - 1970

NAID: 1518697

This series consists of aeronautical charts of areas in the Atlantic and Pacific Oceans that include principal air routes. Later editions of the charts incorporated overprinted lines of position relating to the Long Range Aid to Navigation (LORAN) radio navigation system.

Type of archival materials: Maps and charts

Arrangement: Arranged alphanumerically by prefix VR, thereunder by chart number.

Finding aid: Index

Extent: 450 charts

37.4: Asian Wreck Charts

Dates: This series was compiled or maintained 1953 - 1954. It covers the time period 1901 - 1954.

NAID: 639453

This series consists of nautical charts of coastal areas in western Asia that have been overprinted to show known or suspected locations of numbered shipwrecks. Many of the wrecks shown on the charts are from the period of World War II, 1941 to 1945, and some date from as early as 1901. Included is known information on each wreck, including ship name, coordinates, flag of registry, type of vessel, tonnage, and date sunk. The base charts used for these overprints are from the Hydrographic Office (H.O.) Published, Miscellaneous, and British Admiralty (B.A.) series of charts printed by the Hydrographic Office.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number, followed by the suffix W.

Finding aid: Item List

Extent: 33 charts

Digitized: No

37.5: Bottom Sediment (BS) Charts

Dates: 1943 - 1952

NAID: 639735

This series consists of nautical charts of various coastal areas around the world including China, France, Gambia, India, Japan, Korea, Morocco, Panama, Portugal, Senegal, Spain, and the United States. The charts are overprinted to show the predominant ocean bottom sediment in a given such as sand, mud, or rock.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number followed by the suffix BS.

Finding aid: Item List

Extent: 64 charts

Digitized: No

37.6: Enclosures to General Correspondence

Dates: 1918 - 1945

NAID: 640186

This series consists of oversize enclosures to the series "General Correspondence, 1907-1924" (ARC Identifier 2125111) and "General Correspondence, 1924-1945" (ARC Identifier 2125133). The enclosures include published, annotated, and manuscript nautical charts of various coastal areas around the world, many identified with the specific ships engaged in the related survey and data collecting activity. Also included are anchorage charts, weather charts, pilot charts, sketch maps and coastal views of land areas, graphs and textual charts, as well as a few architectural and engineering plans and photographs. Many of the records relate to World War II and include beach studies of Kiska Island and Guam, and target maps of the Solomon Islands. Some records relate to World War I including a chart of the activities of U-151 in 1918, and charts of the German naval blockades of 1917 in the North Atlantic and the Mediterranean.

Type of archival materials: Architectural and Engineering Drawings; Maps and Charts; Photographs and other Graphic Materials

Arrangement: Arranged numerically, according to the classification scheme of the Navy Filing Manual.

Finding aid: Index

Extent: 2,600 maps and charts

Digitized: Partially

37.7: Field Charts

Dates: 1943 - 1969

NAID: 1519633

This series consists of provisional coastal nautical charts primarily covering Pacific Island areas and Southeast Asia. Many of these charts were issued from survey ships in war zones to support invasion plans in the southwest Pacific in World War II.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number.

Finding aid: Index

Extent: 300 charts

Digitized: No

37.8: Foreign Nautical Charts and Surveys

Dates: 1883 - 1953

NAID: 1518929

This series consists of images of survey charts and nautical charts prepared by the governments of France and Japan providing coverage of the coasts of France, French North Africa, including Algeria, Tunisia, and Morocco, and Japan and Japanese-controlled islands in the Pacific Ocean. The majority of the charts are in the French language. Some in the charts in the Japanese language include English translations.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials

Arrangement: Arranged by the country of origin, thereunder numerically by assigned number.

Finding aid: Partial List

Extent: 900 negatives

Digitized: No

37.9: Japanese Printed Charts

Dates: ca. 1900 - 1945

NAID: 640296

The series consists of blue-line prints of Japanese nautical charts and topographic maps of coastal areas of Japan, Korea, and China. Most are printed in Japanese only, although a few have English title blocks as well.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by area numbers, thereunder numerically by agency-assigned sheet numbers.

Finding aid: Index

Extent: 271 charts

Digitized: No

37.10: Long Range Aid to Navigation (LORAN) Charts

Dates: 1943 - 1973

NAID: 1518676

This series consists of published aeronautical navigation charts overprinted with lines of position related to the LORAN electronic navigation system. The charts include topographic and aeronautical information. The series includes charts for both the LORAN-A and LORAN-C navigation systems.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphanumerically by chart number prefixed by the letters VL.

Finding aid: Index

Extent: 540 charts

Digitized: No

37.11: Long Range Aid to Navigation (LORAN) Charts

Dates: 1943 - 1953

NAID: 1518734

This series consists of LORAN charts of the North Pacific Ocean.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphanumerically by chart number, followed by the suffix N.

Finding aid: Index

Extent: 58 charts

Digitized: No

37.12: Long Range Aid to Navigation (LORAN) Charts

Dates: 1943 - 1952

NAID: 1518736

This series consists of LORAN charts of the North Atlantic Ocean.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number, followed by the suffix NW.

Finding aid: Index

Extent: 125 charts

Digitized: No

37.13: Nautical and Aeronautical Publications

Dates: 1938 - 1966

NAID: 640297

This series consists of nautical, aeronautical, and administrative published works of the agency other than individual charts and periodical publications. Included are "Sailing Directions" which supplement nautical charts, gazetteers, manuals, oceanographic publications, and atlases. The manuals provided training on such subjects as hydrographic and geodetic surveying, aircraft navigation, ice seamanship, and aerial photogrammetry. Oceanographic publications cover such subjects as ocean currents and the forecasting of breakers and surf. The atlases relate to sea and swell charts, ocean surface currents, and sea surface temperatures around the world, and to ice conditions in the northern hemisphere. Included among the publications is a navigation dictionary and a glossary of cartographic terms.

Type of archival materials: Textual Records

Arrangement: Arranged numerically, prefixed by Hydrographic Office Publication (H.O. Pub.) or Hydrographic Office Number (H.O. No.). Unnumbered publications are filed at the beginning of the series.

Finding aid: Index; Item List

Extent: 16 boxes

37.14: Operating Area (OA) and Area (A) Charts

Dates: 1933 - 1970

NAID: 640007

This series consists of published nautical charts of coastal areas adjacent to the United States and its overseas naval stations, including Hawaii, the Philippine Islands, the Mariana Islands, Cuba, Bermuda, and Puerto Rico, that are overprinted to show areas designated for naval exercises and operations, restricted areas, submarine transit lanes and areas, weapons ranges, explosives dumping areas, controlled airspaces, airspace warning areas, air defense identification zones (ADIZ), and other information of importance to naval vessels.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number, with the suffix A or OA.

Finding aid: Index; Item List

Extent: 225 charts

Digitized: No

37.15: Pilot Charts of the World's Oceans

Dates: ca. 1883 - ca. 1967

NAID: 577327

This series consists of published volumes containing monthly charts for the world's oceans. Each monthly ocean chart shows the probability of wind direction and strength in a grid pattern comprised of five degrees of latitude by five degrees of longitude. The charts also show sea temperature, air temperature, and probability of gales, ice limits, calms, and wave heights. Contents vary by ocean and time. Also included are cloud diagrams and flag charts as well as articles and tabular information relating to meteorology and navigation.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by ocean name and thereunder chronologically.

Finding aid: Index

Extent: 333 volumes

Digitized: No

37.16: Printed Anchorage Charts

Date: 1907 - 1965

NAID: 1518920

This series consists of Hydrographic Office and Coast and Geodetic Survey nautical charts that have been overprinted to show designated anchorage areas for ships in the harbors of the United States and its possessions and in some foreign areas, primarily in the Pacific Ocean, eastern Asia, and the West Indies.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by letter designating the geographic area, thereunder chronologically by year of printing.

Finding aid: Index

Extent: 1,325 charts

Digitized: No

37.17: Published Nautical Charts

Dates: 1867 - 1962

NAID: 589120

This series consists of published nautical charts of foreign waters showing navigational data, sailing directions and coastal topography. In addition to the standard nautical charts, this series includes special purpose charts, such as pilot charts, plotting charts, bathymetric charts, great circle distance charts, magnetic field charts and world star charts. Numerous additions exist for many of these charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by Hydrographic Office (HO) number; thereunder chronologically by printing date.

Finding aid: Index

Extent: 90,000 maps and charts

Digitized: Partially

37.18: Reproductions of British Admiralty and Other Foreign Charts

Dates: 1939 - 1971

NAID: 1518927

This series consists of nautical charts originally produced by foreign government agencies that cover areas of the world not well surveyed and charted by the United States at the time they were acquired. Nearly 85 percent of these charts were produced from charts provided by the British Admiralty to the United States during World War II. The British charts cover the waters of Australia, China, Denmark, France, Greece, Iceland, India, Indonesia, Ireland, Italy, Norway, Spain, Sweden, Turkey, the United Kingdom, the USSR, and Yugoslavia. Some charts relate to surveys in Antarctica. Also included are charts published by Argentina, Canada, Denmark, France, the Netherlands, Spain, and the USSR.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by country of origin, thereunder numerically by chart number.

Finding aid: Database

Extent: 3,400 charts

37.19: **Smooth Sheets**

Dates: ca. 1910 - 1945

NAID: 1519119

This series consists of manuscript smooth sheets and boat sheets compiled by the Imperial Japanese Navy that show nautical data collected in the waters near Japan, Siberia, China, Taiwan, the Malay Peninsula, the Netherlands East Indies (Indonesia), the Philippine Islands, the Aleutian Islands, and various island groups in the Pacific Ocean. Although most are nautical charts, some are identified as aeronautical sheets and charts for determination of radio bearings. The information is in Japanese, although a few charts include partial English translations.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number.

Finding aid: Item List

Extent: 720 charts

Digitized: No

37.20: **Sound - Ranging Charts**

Dates: 5/1942 - 9/1943

NAID: 640059

The series consists of printed charts of ocean areas that show average sound-ranging conditions in the Atlantic, Pacific, and Indian Oceans during different seasons. The charts are in an atlas entitled, "Sound Ranging Charts of the World, Vol. 1, 1942-1943".

Type of archival materials: Maps and Charts

Arrangement: Arranged geographically by ocean area (North Atlantic, South Atlantic, North Pacific, South Pacific, and Indian Ocean), thereunder chronologically by date printed.

Finding aid: None

Extent: 20 charts

Digitized: No

37.21: Special Aeronautical Charts

Dates: 1943 - 1973

NAID: 1518704

This series consists of published aeronautical charts showing air facilities, distances, and Air Traffic Control Areas in the Atlantic and Pacific Ocean areas. Some include Long Range Aid to Navigation (LORAN) information in the Pacific.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number prefixed by the letters VS.

Finding aid: Index

Extent: 65 charts

Digitized: No

37.22: Special Purpose Printed Maps and Charts

Dates: This series was compiled or maintained 1930 - 1968. It documents the time period 1851 - 1968.

NAID: 639906

This series consists of charts and other publications that were printed for timely internal Government use and for special purposes, before being made available for general dissemination to the public. Included are preliminary charts, nautical charts, current charts, sea and swell charts, plotting charts, and pictorial diagrams and other illustrations used for training, as well as some aeronautical charts and sketch maps of land areas throughout the world, but primarily for areas of interest to the United States Navy. Charts in this series frequently appear later as

editions of published charts. Conversely, already published charts appear as base charts in this series with additional information overprinted on them. Included are reproductions of Matthew Fontaine Maury's 1851 whale chart, charts of lobster grounds off the northeastern United States, maps of U.S. Naval facilities in Guam (1931-1934), charts showing air facilities in the western Pacific and in Iceland (1941-1943), charts showing locations of shipwrecks along the Atlantic and Gulf coasts of North and South America (1942-1944), and reprints of Coast Guard and foreign nautical charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by chart number, prefixed by the letters H.O.

Finding aid: Index

Extent: 2,500 maps and charts

Digitized: No

37.23: Survey Charts

Dates: 1932 - 1945

NAID: 2842738

This series consists of hydrographic survey material gathered during the course of producing published nautical charts. Included are manuscript plotting sheets, annotated charts, boat sheets, depth sounding information and worksheets, and smooth sheets. Data includes legends identifying the survey and the personnel involved, locations of aids and hazards to navigation, bottom characteristics, triangulation tables, and coastal topography.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by survey number.

Finding aid: Indexes

Extent: 2,300 charts

Digitized: No

37.24: Survival Charts

Dates: ca. 1942 - 1945

NAID: 640323

This series consists of charts of portions of the Pacific Ocean printed on durable cloth such as silk or rayon. The charts aided downed aviators and show the direction and force of prevailing winds and the direction and velocity of the ocean current from May to September, as well as visual information and a grid of coordinates.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: Index; Item List

Extent: 18 charts

Digitized: No

37.25: Target Charts and Aerial Photographs

Dates: 1942 - 1945

NAID: 640325

This series consists of small aeronautical charts and overprinted aerial photographic prints of islands and coastal areas, showing locations of airfields, seaplane landing areas, targets, anti-aircraft defenses, and other useful visual information for Navy aviators during World War II, particularly in the Pacific Ocean area, but also in western Asia, North and South America, and the Caribbean Sea. Coverage includes the Bismarck Archipelago, Caroline Islands, Hawaiian Islands, Mariana Islands, Marshall Islands, Solomon Islands, Philippine Islands, Japan, China, West Indies, Alaska, United States, and Panama Canal Zone.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials

Arrangement: Arranged numerically.

Finding aid: Folder List

Extent: 900 charts and aerial prints

RG 38: Records of the Office of the Chief of Naval Operations, 1875 - 2006

38.1: Daily Convoy Plotting Charts

Dates: 10/15/1941 - ca. 11/28/1945

NAID: 17364125

This series consists of reduced photographs of the Navy's Chart Room daily convoy plotting charts. The charts show the daily position of Allied merchant convoys in the Atlantic, Pacific, and Indian Oceans during the majority of World War II.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged by media type and thereunder chronologically

Finding aid: Container List

Extent: Approx. 11,000 photographs

38.2: Maps Relating to Naval Attache Reports

Dates: 1885 - 1945

NAID: 921245

This series consists of manuscript, published, and annotated maps relating to foreign trade between the United States and foreign countries, naval facilities throughout the world, and maps depicting naval engagements in which the United States participated and wars between foreign powers. Also included are maps of individual countries throughout Europe, Asia, and North, Central and South America showing cities, transportation and communication facilities, and political boundaries. Additional maps show information on trade routes, population, wealth, and investments of foreign countries.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by NARA assigned number.

Finding aid: Item List

Extent: 500 maps

Digitized: Partially

38.3: Photographs of the Navy's Chart Room Main Board, War Maps and Accompanying Report

Dates: This series was compiled or maintained 1941 - ca. 1947. It documents the time period 1934 - 1942.

NAID: 916431

This series consists of reduced photographs of the Navy's Chart Room War Maps relating to World War II. The maps show the daily position of Navy ships and submarines throughout the world during 1941 and 1942. Included on the maps are types of Navy vessels and aircraft; the number of ships at port, at sea and under construction or repair; the location of naval hot spots; naval and submarine bases; and the locations of convoys, commercial ships and Army ships. Included is a key to the map symbols. Also included is an accompanying report listing ships laid down between 1934 and 1942. Information includes yearly ship production and ship construction location and dates.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged by media type and thereunder chronologically.

38.4: Records Relating to Naval Strategy

Dates: 1915 - 1985

NAID: 1488132

The series consists of charts and maps as well as some aerial photographs and textual records pertaining to the Navy's role in World War II and the post-war period. Nearly half of the records are published nautical charts and almost two-thirds relate to the Pacific Ocean area. Virtually three-fourths of them are from the World War II period. Included are maps, charts, and aerial mosaics relating to the Battle of Okinawa, charts and maps relating to the Aleutian campaign and to the Battle of Iwo Jima, maps and photomosaics relating to the Normandy landings, and track charts of the Battle of Midway and of the Battle of Leyte Gulf. Strategic History Plot charts document the military events in the Pacific from December 1941 to February 1946. Among the records are World War II situation maps of North Africa and of the air operations in the European and Mediterranean military theaters; Air and Gunnery Target Maps of various Pacific

islands; military intelligence reports, logs, and charts relating to the Pacific during the War; Strategic Engineering Studies of Italy; charts relating to minefields and mine laying and sweeping operations in the Pacific; and anchorage charts, field charts, World Aeronautical Charts, Loran charts, Bottom Contour charts, beach studies, and maps showing defenses. Maps of United States military bases exist for Tutuila, Samoa and New Caledonia during the War, and for Guam and Subic Bay in the Philippine Islands after the War. A few early textual documents and maps relate to the establishment of Navy Yards in the eastern United States, including those at Portsmouth, New Hampshire, Brooklyn, New York, and Philadelphia, Pennsylvania.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged alphabetically by region, thereunder alphabetically by country, island group, or ocean area, and thereunder numerically by numbers assigned by NARA.

38.5: Ship Engineering Drawings of French Ships

Dates: This series was compiled or maintained 1942 - 2008. It documents the time period 1928 - 1942.

NAID: 4506436

The series consists of ship engineering drawings for the World War II era French Nationale cruiser Emile Bertin, the submarines Archimede and Persée and the Diane class submarines Antiope, Amazone, Oréade, and La Sibylle. These drawings include hull lines, profiles, deck plans, and mechanical and electrical system diagrams. The annotations and descriptions on the drawings are in French.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by ship type and thereunder numerically by plate number.

Finding aid: Item List

Extent: 556 drawings

Digitized: No

38.6: Ship Trial Curve Charts

Dates: 1901 - 1951

NAID: 12451237

This series contains trial curve charts (graphs) for engine and outputs and performance during trial cruises for U.S. Navy vessels. Of particular note are graphs for U.S. aircraft carriers, battleships, destroyers, cruisers, submarines, cargo ships, the U.S. Navy's first dedicated hospital ship (USS Relief) and other ships that participated in World Wars I and II. Included are trial curve charts for the USS Coral Sea, USS Lexington, USS Yorktown, USS Alabama and the USS Indianapolis. Of note is one trial curve chart for the USS Monterey (BM-6, built in 1893), a Monterey-class monitor ship. Also included are trial curve charts for captured WWII-era German U-boats, and one German Destroyer (Z-39/1936-A).

Type of archival materials: Maps and Charts

Arrangement: Arranged in two parts. The first part is arranged numerically by trial number. The second part is arranged alphabetically by type of ship and thereunder alphabetically by name of ship.

RG 57: Records of the U.S. Geological Survey, 1839 - 2008

57.1: German Language Geologic Maps

Dates: This series was compiled or maintained ca. 1945 - ca. 1968. It documents the time period ca. 1917 - ca. 1945.

NAID: 616365

This series consists of German-language published, photoprocessed, and manuscript maps generally concerning military geology. Specific subjects include economic geology; topography; vegetation and soil types; mineral resources; industrial infrastructure; ground and surface water; canals, coastlines, and river deltas; and highway and railroad systems. Many of the maps are in color and many are annotated. Some maps are in booklet form with accompanying text, photographs, and illustrations.

The geographic focus is on European countries including the western part of the Soviet Union. Also included are maps relating to countries and regions in the Middle East, Africa, and Asia.

Type of archival materials: Maps and Charts

Arrangement: Arranged by format (loose maps and booklets) and thereunder by country or region and sometimes thereunder by subject.

Finding aid: Folder List

Extent: Approximately 8,000 maps

Digitized: No

RG 59: General Records of the Department of State, 1763 - 2002

59.1: Maps Detailing Food and Industrial Production in Central Europe

Dates: This series was compiled or maintained in 1949. It documents the time period 1944 - 1949.

NAID: 2669058

This series consists of maps detailing food and industrial production in Central Europe.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 3 maps

Digitized: No

59.2: Maps of Foreign Areas

Dates: 1941 - 1944

NAID: 4700561

This series consists of maps relating to international boundaries and territorial problems; World War II zones of occupation; population, ethnic groups, religions, and industries in Europe, Asia, and the Middle East; and locations of U.S. Foreign Service posts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned number.

Finding aid: None

Extent: 2,042 maps

Digitized: Partially

59.3: Maps Showing Economic Activities

Dates: 1943 - 1949

NAID: 4700537

This series consists of maps of foreign cities showing natural resources, mining, and other economic activities.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by municipality name.

Finding aid: None

Extent: 220 maps

Digitized: No

59.4: Maps and Gazetteer of Japan

Dates: 1945 - 1946

NAID: 4708301

This series consists of prefectural maps relating to the administrative divisions and subdivisions of Japan with a gazetteer of place names and populations.

Type of archival materials: Maps and Charts; Textual Records

Finding aid: None

Extent: 47 maps and 652 pages

Digitized: No

59.5: Maps Showing Economic Activities

Dates: 1943 - 1949

NAID: 4700537

This series consists of maps of foreign cities showing natural resources, mining, and other economic activities.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by municipality name.

Extent: 220 maps

Digitized: No

59.6: Maps Showing Post-World War II Areas of Concern

Dates: 1945 - 1946

NAID: 4700628

This series consists of maps of Germany, Austria, Japan, Korea, Manchuria, and the World compiled by a study commission chaired by Edwin W. Pauley.

Type of archival materials: Maps and Charts

Arrangement: Arranged alphabetically by country or area name.

Finding aid: None

Extent: 326 maps

72.1: Aircraft Engineering Plans on Microfilm

Dates: 1936 - 1959

NAID: 23925147

This series consists of microfilm copies of engineering plans of most production aircraft in the Navy's inventory during World War II and the immediate post-war era, as well as plans of aircraft engines (propeller & jet), aircraft equipment (radar & radio), nonrigid airships, aircraft gun turrets, and aviation fire control equipment. Aircraft equipment represented in the series include the Link Trainer. Of special interest are numerous microfilm reels of reports and memos relating to German air intelligence, including those of Office of Naval Intelligence (ONI) & United States Strategic Air Forces in Europe (US STAF) and many in the German language from sources such as Peenemunde Research and Development station.

Type of archival materials: Architectural and Engineering Drawings

RG 72.2: Aircraft Plans of the Naval Air Development Center

Dates: 1944 - 1962

NAID: 613594

The series consists of engineering plans of aircraft and aeronautical equipment in the inventory of the United States Navy. The plans are those provided to the Navy by the aircraft and equipment manufacturers under contract. Included are plans of propeller-driven aircraft, jet aircraft, airships, balloons, gliders, drones, guided missiles, aircraft engines, floats, propellers, turrets, and electronic equipment, including radio, radar, and sonar. Manufacturers include Boeing, Consolidated/Convair, Curtiss-Wright, Douglas, Goodyear, Grumman, Lockheed, Martin, McDonnell, North American, Sikorsky, Vought, Westinghouse, and Wright.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by the name of the manufacturer, thereunder alphabetically by the aircraft or model designation, thereunder numerically by the plan number.

Finding aid: Database

Access Restriction(s): Restricted - Possibly

Specific Access Restriction: Other

Note: Proprietary rights restrictions may apply. Generally, the researcher must supply written permission from the manufacturer before the records will be made available for viewing or reproduction. Contact the Cartographic Section staff for additional information.

72.3.: Enclosures to Technical Reports regarding Aircraft, Airships and Missiles

Dates: 1921 - 1959

NAID: 23924507

This series consists of plans relating to proposed aircraft, airships, engines, ordnance and equipment, that were separated from the textual records series Technical Records Relating to the Structure and Performance of Airplanes, Airships, Helicopters and Some Guided Missiles, 1921-1963 (NAID 7694728). The aircraft designs include plans for aircraft that reached production, modifications of existing aircraft designs, and designs that never got past the proposal or prototype stage. The latter include proposal plans for the Martin Model 190 (B-33), the Goodyear GA-13, and a "Flying Wing Helicopter" proposed by Charles. H. Zimmerman. Ordnance plans include the Grumman XSSM-N-6 Rigel guided missile.

72.4: Lakehurst Naval Air Station Engineering Plans

Dates: 1919 - 1945

NAID: 24267205

This series consists of engineering plans created at Lakehurst Naval Air Station relating to airships, balloons, helicopters, radar, radio, sonar, and equipment used at the base, including mooring masts and airship handling equipment. Included are architectural plans and site maps of the base and other Navy lighter than air facilities, such as Naval Air Station Sunnyvale. Of special interest are a map and plan created to document the loss of the airship Hindenburg at the site on May 6, 1937.

Type of archival materials: Maps and Charts; Architectural and Engineering Drawings

Arrangement: Arranged alpha-numerically by Bureau assigned designations and thereunder numerically by plan number.

74.1: Armor Plating Plans for Battleships

Dates: 1914 - ca. 1947

NAID: 785575

This series consists of blueprint plans for battleship armor plating. Types of drawings include general arrangements of armor, barbette systems, belt armor, conning tower arrangements, and turret side armor. Ship plans include the USS Mississippi, USS Idaho, USS California, USS Maryland, and USS West Virginia.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged numerically by drawing number.

74.2: Construction and Design Drawings of Guns, Rocket Launchers, and Related Equipment

Dates: 1886 - ca. 1959

NAID: 630198

This series consists of design and construction drawings for guns, gun directors, rocket launchers, mounts and depth charge projectors. Alteration and modification drawings are included.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged by type (gun, rocket launcher), thereunder numerically by size of gun.

Finding aid: Folder List

Extent: 11,000 drawings

Digitized: No

74.3: Design Drawings of Ammunition Stowage, Gun Mounts and Harbor Nets

Dates: 1936 - 1952

NAID: 2825327

This series consists of design drawings for ammunition containers, gun directors, rocket launchers, gun mounts, fire control systems, and harbor protection nets. The protection net drawings include typical assemblies, mooring and flotation devices, and material lists, as well as specific harbor layout plans.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged by subject.

Finding aid: Item List

Extent: 152 drawings

Digitized: No

74.4: Enclosures to Correspondence

Dates: 1842 - ca. 1947

NAID: 785611

This series consists of maps of the eastern branch of the Potomac River showing channels and a battery at the Washington Navy Yard; the track of the USS Constellation during its summer 1867 cruise from Buzzard's Bay, Massachusetts to Cape Hatteras, North Carolina and an

accompanying chart of Buzzard's Bay; topographic site plans of the naval magazine at Hingham and Weymouth, Massachusetts; plans of cities proposed as sites for a naval armor plant; charts showing the positions of American and British mines during the North Sea Barrage of 1922; and drawings showing war damage to the USS Arizona.

RG 77: Records of the Office of the Chief of Engineers, 1789 - 1999

77.1: Central European Topographic Map Dossiers

Dates: ca. 1931 - ca. 1955

NAID: 895022

This series consists of dossiers related to individual map sheets covering most of Germany and some adjoining areas in Poland, France, Belgium, Luxembourg, the Netherlands, Switzerland, Czechoslovakia, and Italy. Dossier contents are primarily in the German language and include triangulation charts, topographic sketches, and maps created by the German Reich Bureau for Regional Planning (Reichsstelle für Raumordnung) for use by the German Army. Also included are revisions to and resurveys of triangulation points and in a few cases related photographs and correspondence. In addition there are French language triangulation charts of Alsace-Lorraine, Italian language triangulation charts of Italy, sketches of Italian triangulation markers, and Italian and English explanations of geodesy.

Type of archival materials: Textual Records

Arrangement: Arranged numerically by Army Map Service map sheet number and followed by a small amount of unnumbered French- and Italian-language material.

Finding aid: Index

Extent: 193 boxes

77.2: Edible Maps

Dates: 1944 - 1945

NAID: 1112272

This series consists of maps of Germany printed on thin rice paper that can easily be destroyed if necessary.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 8 maps

Digitized: No

77.3: Gazetteers to Maps

Dates: 1944 - 1954

NAID: 1112031

This series consists of gazetteers to Army Map Service (AMS) map series. Names of inhabited places, natural features, and other named places are listed alphabetically as they appear on the map. The designation of the feature named is noted, such as town, village, mountain, or railroad. Other information indicated is the political subdivision, the military grid reference, the AMS map series, and the geographical coordinates (latitude and longitude).

Type of archival materials: Textual Records

Arrangement: Arranged by major geographic area (Asia or Europe) and thereunder alphabetically by country name.

Finding aid: None

Extent: 3 linear feet, 1 linear inch

Digitized: No

77.4: Geodetic Division Files

Dates: 1942 - 1957

NAID: 5988548

This series consists of files relating to research and analysis, and foreign geodetic control. Included are memoranda relating to the use of the Universal Automatic Computer (UNIVAC)

system, correspondence on domestic and foreign mapping and geodetic projects, cartographic specifications files, and technical report files. Occultation is covered in depth. Other subjects covered include a magnetic atlas of Europe, map projections and grids, and captured German mapping materials forwarded by Floyd W. Hough.

Type of archival materials: Textual Records

Arrangement: Unarranged.

Finding aid: Folder List

Extent: 15 boxes

Digitized: No

77.5: German Topographic Relief Maps

Dates: 1945 - 1946

NAID: 1068145

This series consists of a captured World War II German topographic three-dimensional relief map of Northeastern Europe.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 6 maps

77.8: Maps numbered by the Williams Classification and Filing System

Dates: This series was compiled or maintained 1928 - 1957. It documents the time period 1840 - 1957.

NAID: 589230

Type of archival materials: Maps and Charts

Arrangement: Arranged geographically by world geographic divisions, such as continents or ocean areas, thereunder alphabetically by country name or subject, such as the Canadian-U.S. boundary or the Iberian Peninsula, thereunder alphabetically by smaller geographic unit name, such as a state or island name, thereunder numerically by the Williams numbers.

Finding aid: Item List

Extent: 5,941 maps

Digitized: Partially

77.9: Map Overlays for the East Asia Area

Dates: ca. 1945

NAID: 1126578

This series consists of map overlays that show the suitability for tunnels and caves. Rock and soil conditions are noted. Areas covered are Japan and Japanese held islands in World War II.

Type of archival materials: Maps and Charts

Arrangement: Unarranged.

Finding aid: None

Extent: 4 maps

77.10: Maps and Plans of the Canadian Oil Line Project (CANOL)

Dates: 1942 - 1945

NAID: 603511

This series consists of construction drawings, survey maps and site plans covering areas in Alaska and Canada during the World War II CANOL Project. These records include geological surveys and plans for camps, airfields, oil refineries, pipeline construction and pump houses.

Type of archival materials: Maps and Charts; Architectural and Engineering Drawings

Arrangement: Arranged by subject, such as CANOL camp and pumping station, Whitehorse Refinery, pipeline drawings; thereunder arranged numerically by drawing number.

Finding aid: Item List

Extent: 217 maps and plans

Digitized: No

77.11: Photographs of German Map Making Equipment

Dates: 1944 - 1954

NAID: 1112076

This series consists of photographs of German map making equipment used during World War II. The equipment photographed includes cameras, printers, projectors, lenses and other optical equipment.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged by equipment types.

Finding aid: Folder List

Extent: 2,840 photographs

Digitized: No

77.12: Published Maps and Guides to Towns and Countries of Europe and an Atlas of Japan

Dates: 1942-1948

NAID: 1112093

This series consists of an atlas of Japan, plans and photographs of French towns, and notes on maps of Germany, Denmark, France, Belgium, Holland, and Central Europe during World War II.

Type of archival materials: Maps and Charts; Photographs and other Graphic Materials; Textual Records

Arrangement: Unarranged.

Finding aid: None

Extent: 5 linear inches

77.13: Published Topographic Maps

Dates: 1942 - 1972

NAID: 594842

This series consists of published maps at a variety of scales covering most of the world's land area. The maps are overwhelmingly topographic in nature, but some planimetric maps are included. These maps generally portray elevation, surface water, roads, railroads, cities, towns, and other features; they include full title, scale, source information, and a legend of symbols use. Many of these maps are copied from maps produced by other national governments. 165.11: **Situation Maps**

Dates: 12/22/1941 - 5/4/1945

NAID: 1135967

This series consists of daily situation maps showing Allied ground and air operations in various theaters during World War II. Ground operations include the Philippine Islands, North Africa, Sicily, Pantelleria, Southern France, and Italy. These maps include information on Allied and Axis troop dispositions and the location of the front line. Troop locations are identified at the Army, Corps, and Division level. Also included are brief descriptions of key events, such as significant offensive and defensive battles, aerial bombing attacks, and local naval activity. The maps also show the locations of towns, roads, railroads, and rivers.

Additional situation maps detail Allied air operations in the European and Mediterranean theaters. These maps show the daily location of significant activity, mostly bombing operations, and include a brief description detailing the number of bombers and fighter planes involved, the type and degree of enemy opposition encountered, a target description and bombing results, and any losses or damage to aircraft.

Beginning in January 1945, situation maps illustrating European Air Operations were created by Supreme Headquarters Allied Expeditionary Force. These maps can be found in the series "Situation Maps, 12/1/1944-4/30/1945" (ARC Identifier 1136007).

226.10: **Thematic Maps**

Dates: 7/31/1941 - 9/30/1945

NAID: 1142870

This series consists of thematic maps showing topography; transportation systems; waterways; power systems; communications systems; political boundaries; city plans; military activities; and the locations of resources, industries, agricultural products, vegetation zones, climatic zones, and population, ethnic, and religious concentrations in countries in Asia, Europe, Africa, Australia, and the Americas during World War II. There is a geographic emphasis on Allied and Axis countries.

The maps pertaining to military activities include many relating to the North African, European, and Russian fronts and a few relating to the war in China and in the Pacific that show offensive movements and changes in the battle lines at various times.

Among the topics relating to Asia and the Pacific are airfields in the Netherlands East Indies bombed by the Japanese and by the Allies; transportation routes in Australia; the proposed location of the Trans-Jordan pipeline; supply routes to China through the U.S.S.R.; strategic points in and around Calcutta; possible Japanese drives in China and into southeastern Siberia; pre-1931 administrative areas in Manchuria; Japanese puppet administrative districts in north China; areas of food surplus and deficiency in China; city plans of Saigon and Hanoi; the aircraft industry in Japan; political, economic, and military administrative areas of Japan; and plans of hydroelectric and steam electric plants in Japan.

Other subjects covered within this series include transport facilities linking Canada, Alaska, and eastern Siberia; existing and proposed Air Transport Command routes around the world; linguistic areas and German settlements in Guatemala; major strategic resources in central Africa; coal and oil production in the Eastern Hemisphere; and the political status of French colonies during 1942. Other themes covered are locations of attacks on merchant vessels in the Atlantic; German coast defense bases from Norway to France; Office of Strategic Services theaters of operation in Europe and Asia; supply routes to the Russian front; German and Finnish military forces in Norway, Finland, and northern U.S.S.R; air raids over western Europe from July to September 1943; the political divisions of Poland under German rule; civil and military administrative zones in France; the Normandy beaches, and the ports of Dunkirk and Cherbourg. In addition, there are maps depicting the resistance movement in German controlled Italy; the Brenner Pass routes from Italy to Austria; the automotive and aircraft industries in Axis Europe; the Axis occupation zones in Greece and Yugoslavia; and the Allied occupation zones in Germany and Austria.

242.31: German Military Situation Maps of the Northern, Southern, and Western Theaters

Dates: 3/21/1936 - 5/22/1945

NAID: 559737

This series consists of maps which document Germany's military campaigns in the Northern, Southern, Southeastern, Southwestern, Western, and North African Theaters from 1939-1945. Identified on each map are the positions and often movements of German, German-allied, and enemy units. German units are indicated in blue, German allies are indicated in green or brown, and enemy forces are indicated in red. Topographic features are designated by color or standard symbol. Many maps feature handwritten notes on weather conditions and designated boundaries between territories occupied by Germany, Italy, Bulgaria, and other German allies. The map series titles represent a mix of German original designations and English-language translations, particularly for small geographic series. At times Hitler personally reviewed these maps in consultation with his senior advisors. This collection also includes a series of special purpose maps, labeled the 'K' series by Allied intelligence authorities, which deal with various contingency and operational plans for the use of German and German-allied forces from 1936 - 1945.

Type of archival materials: Maps and Charts

Arrangement: Arranged geographically by theater of operation, thereunder numerically by scale, and thereunder chronologically by date. The "K" maps are arranged numerically according to the code imposed by Allied intelligence authorities.

RG 336: Records of the Office of the Chief of Transportation, 1917 - 1966

336.1: Plans of Army Transport Ships

Dates: This series was compiled or maintained 1942 - ca. 1946. It documents the time period 1917 - 1944.

NAID: 1145546

This series consists of engineering plans for United States Army transport ships and hospital ships. Included are plans for ships built specifically for army transport and others that were converted for such service. Types of plans include capacity plans; deck conversion plans for ships converted from civilian use to army transports; plans of special compartments to move ammunition, horses, etc.; engine turbine plans showing details such as bearings, shafts, and evaporators; plans of electrical and ventilation systems; equipment specifications; and statistical charts relating to stability tests. While many of the plans are of details and machinery, there are a

number of general plans, deck plans, capacity plans, inboard and outboard profiles, and section plans included. Also included are a small number of standard plans for ship machinery and related equipment.

342.5: **Flight Charts**

Dates: This series was compiled or maintained 1945 - 1954. It covers the time period 1943 - 1954.

NAID: 22346973

This series consists of published aeronautical charts covering principal U.S. Army Air Force and U.S. Air Force flight paths throughout the world. Coverage includes the United States, Central and South America, Northwest Canada, the Western Pacific, the Middle East, North Africa, and Europe. Base charts show all types of hydrographic and cultural features, including railroads and major roads. Relief is indicated by spot elevations and contours with gradient tints. Also included are navigational aids and the location of airport facilities. Chart specifications are filed at the beginning of the series.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number and thereunder chronologically by date of edition.

Finding aid: Index

Extent: 1,350 charts

342.7: Instrument Approach Procedure Charts

Dates: 1943 - 1964

NAID: 17413017

This series consists of published landing and approach charts for airports with approved instrument approach procedures (IAP). Coverage of foreign airports is limited to those airports used by the United States Air Force. Additional charts document instrument landing system (ILS) procedures, as well as jet instrument approach and landing charts. Also included are amendments and revision notices documenting changes to charts between editions. Terminal route books include charts showing flight paths between cities. Coverage includes domestic and foreign locations.

Beginning in the 1950's the IAP charts were renamed Flight Information Publications. For more recent IAP charts see the record series "NAID 6921681: Flight Information Publications (FLIP), 1958-2010."

Type of archival materials: Maps and Charts

Arrangement: Arranged by geographic area (United States and Foreign), thereunder by bound and loose charts, thereunder by geographic region, thereunder by name of airport facility, thereunder by date of edition.

Finding aid: Box List

Extent: 15,000 charts

342.10: Loran Special Air Navigation Charts

Dates: 1944 - 1959

NAID: 23810912

This series consists of published aeronautical charts covering primarily coastal areas in the northern hemisphere. The charts include topographic and cultural information, such as principal cities, towns, railroads, and international boundaries. Loran aeronautical information is overprinted on the charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number and chronologically.

Finding aid: Index

Extent: 45 charts

Digitized: No

342.11: **Pilotage Charts**

Dates: 1944 - 1964

NAID: 649800

This series consists of published aeronautical charts showing all types of hydrographic and cultural features, including railroads and major roads. Relief is indicated by spot elevations and contours with gradient tints. The location of navigational aids and air facilities are overprinted on the charts.

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by agency assigned chart number.

Extent: 3,000 charts

Digitized: Partially

342.12: **Preliminary Base Charts**

Dates: 1944 - 1959

NAID: 6789253

This series consists of published charts of the world showing hydrographic and cultural information. Relief is shown by spot elevations and contours.

Type of archival materials: Maps and Charts

Arrangement: Arranged by scale, 1:250,000 and 1:500,000, thereunder numerically by agency assigned chart number, and thereunder chronologically.

Finding aid: Index

Extent: 1,230 charts

Digitized: No

342.13: **Product Catalogs, Reports and Publications**

Dates: 1942 - 1972

NAID: 6210318

This series consists of aeronautical chart catalogs and related reports and publications. Catalogs typically list types of chart or publication, a graphic index, and their production dates. The catalogs cover such topics as reference materials, loran charts, aeronautical charts, aeronautical information publications, and weather plotting charts. Also included are chart bulletins that provide updates and revisions to the catalogs.

Type of archival materials: Textual Records

Arrangement: Arranged by type of catalog, report, or publication (Loran Chart Catalog, Aeronautical Information Publications, Catalog of Weather Plotting Charts, etc.) and thereunder chronologically.

Finding aid: Box List

Extent: 9 boxes

Digitized: No

342.14: **Radio Facility Charts**

Dates: 1938 - 1960

NAID: 6106810

This series consists of aeronautical charts and tabulations providing radio navigation information to facilitate the planning and execution of military flights. Included is information relating to radio facilities, airways, danger areas, and other aids to navigation and landing, such as Ground Control Approach (GCA) facilities, Very High Frequency (VHF) direction finders, and racons. Some editions include a directory of airfields available for use by military aircraft.

Type of archival materials: Maps and Charts

Arrangement: Arranged by subseries. The first subseries is arranged alphabetically by region and thereunder chronologically. The second subseries is arranged numerically by agency assigned chart number (i.e. Radio Facility (RF) 1) and thereunder chronologically.

Finding aid: Index

Extent: 5,500 charts

342.15: **Records Relating to Facility Drawings**

Dates: This series was compiled or maintained 1947 - 1974. It documents the time period 1942 - 1974.

NAID: 74888437

This series consists of architectural drawings of facility structures under construction and the renovation of the United States Air Force facilities no longer operated or owned by them. Consisting of drawings covering Elemendorf Air force Base and N.E. Cape, Alaska, Trabzon and Samsun, Turkey, and Forbes Air Force Base, Kansas.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged alphabetically by facility and thereunder by building.

Extent: Approximately 4,650 drawings

Digitized: No

342.16: **Weather Plotting Charts**

Dates: 1942 - 1955

NAID: 6899212

This series consists of published non-navigational outline charts depicting locations and identifications of meteorological observing stations. For more recent versions of these charts see the series, "Weather Plotting Charts, 1948-1962 (ARC Identifier 6884046)" and "Weather Plotting Charts, 1960-1986 (ARC Identifier 6899213)."

Type of archival materials: Maps and Charts

Arrangement: Arranged numerically by a three part agency assigned numbering system and thereunder chronologically by publication date.

RG 343: Records of the Naval Air Systems Command, 1932 - 1980

343.1: Records Relating to Naval Weapons Industrial Reserve Plants

Dates: This series was compiled or maintained 1966 - 1986. It documents the time period 1940 - 1986.

NAID: 4713213

This series consists of architectural drawings, photographs, specifications, and a report relating to Naval Weapons Industrial Reserve Plants (NWIRP) built during or shortly after World War II as part of the United States effort to arm the nation through the Ordnance Department's Government-Owned Contractor-Operated (GOCO) Industrial Facilities Program. Records in this series cover the following NWIRP facilities: Bethpage, New York; Bloomfield, Connecticut; Calverton, New York; Dallas, Texas; McGregor, Texas; St. Louis, Missouri; and Toledo, Ohio. Types of drawings include site plans, floor plans, roof and foundation plans, section and elevation drawings, and detail drawings.

Type of archival materials: Architectural and Engineering Drawings; Photographs and other Graphic Materials; Textual Records

Arrangement: Arranged alphabetically by the city name where the plant was located.

RG 357: Records of the Maritime Administration, 1939 - 1990

357.1: Ship Construction and Engineering Drawings

Dates: This series was compiled or maintained ca. 1950 - ca. 1962. It documents the time period ca. 1938 - ca. 1962.

NAID: 563015

This series consists of ship-engineering drawings. The plans were created by the agency, by ship designers such as Gibbs and Cox, and by individual shipbuilding companies.

The documented ships are tankers, troopships, cargo vessels, tugs and passenger ships. Included among these plans are the famous Victory and Liberty ships of World War II.

Type of archival materials: Architectural and Engineering Drawings
Arrangement: Arranged numerically by agency assigned numbers.

Finding aid: Master Ship List Database

Extent: 436 reels of microfilm

RG 370: Records of the National Oceanic and Atmospheric Administration, 1928 - 2008

370.1: Engineering Drawings for the Survey Ship “Explorer”

Dates: 1938 - 1970

NAID: 637752

This series consists of ship engineering drawings that include profiles, deck plans and general arrangements of systems and equipment.

Type of archival materials: Architectural and Engineering Drawings

Arrangement: Arranged by drawing subject.

Finding aid: Folder List

Extent: 103 drawings

Digitized: No

RG 373: Records of the Defense Intelligence Agency, 1920 - 2006

373.1: Aerial Photographs

Dates: 1935 - 1970

NAID: 305982

This series of aerial photography consists of vertical and oblique sequential photographic negatives in roll format. Both urban and rural areas of the United States are represented with emphasis on coastal and navigable inland harbors and waterways, military installations, and

airfields throughout the country. The coverage for areas of the world outside the United States is concentrated on areas of World War II and immediate post war U.S. military activities and facilities.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged sequentially by assigned Original Negative (ON) number or by assigned copy number.

Finding aid: Overlay Indexes (NAID 306062)

Extent: 24,146,100 aerial photographs

Digitized: Partially

373.2: Cut Negatives of Aerial Photography Utilized by the Institute Geographique Nationale (IGN)

Dates: This series was compiled or maintained 1950 - 1958. It documents the time period 1939 - 1958.

NAID: 306066

This series, comprised of negatives, consists of a section of the larger series of Defense Intelligence Agency (DIA) aerial photography. This material covers only areas in France, Belgium, Germany (French Zone), Tunisia, Sumatra, Algeria, Austria, and Morocco.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged by country and thereunder by mission number and index negative number.

Finding aid: None

Extent: 178,584 aerial photographs

373.3: German Flown Aerial Photography

Dates: 1939 - 1945

NAID: 306065

This series consists of captured German 12 x 12 inch aerial photographic contact prints covering England, Norway, Poland, Russia, the Middle East and North Africa during World War II. Many of the photographs were taken of battles in progress. Included are both vertical mapping photography and oblique reconnaissance photography. Scales vary greatly from 1:15,000 to 1:40,000.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged numerically by mission number and thereunder by exposure number.

Finding aid: Index, Overlay Indexes (NAID 306062)

373.4: Mosaics of Military Sites in the United States and the World

Dates: 1941 - 1945

NAID: 306067

This collection of photo mosaics provide an uncontrolled small scale view of some of the aerial photographs on the original film rolls. Each photomosaic is a composite of related aerial photography. There are references to spot numbers or mission numbers needed for locating the related photography. The photomosaics provide coverage of military installations, airfields, and coastal and navigable inland waterways.

Type of archival materials: Photographs and other Graphic Materials

Arrangement: Arranged numerically by decimal number.

Finding aid: Overlay Indexes (NAID 306062), Database

Extent: 5000 aerial indexes

Digitized: No

373.5: Overlay Indexes for Aerial Photography of the Defense Intelligence Agency

Dates: 1935 - 1971

NAID: 306062

These indexes consist of transparent acetate overlays designed to be used with a 1:250,000 scale map. Each overlay provides precise locations of individual film exposures. Legends indicate mission dates and project codes used to locate specific film exposures. Legends also contain some or all of the following information regarding indexed aerial photographic imagery: camera focal length, flight altitude, scale of imagery, number of film exposures, time of photography, country covered, quality of imagery, percentage of snow or cloud cover, and original security classification. Mission accountability reports are included for some degree squares.

407.7: World War II Records

Dates: This series was compiled or maintained ca. 1941 - ca. 1947. It documents the time period 1918 - ca. 1947

NAID: 3054040

This series consists of maps and charts, overlays, city plans, aerial photographs, photomaps, pencil sketches, and architectural drawings relating to the European, Mediterranean, and Pacific theaters of war during World War II. The records were prepared by Allied armies, corps, divisions, and subordinate engineer components and collected by the Adjutant General's Office. Typical records found in this series include terrain studies, maps showing defenses, maps relating to military operations, maps showing engineer activities, maps showing roads and bridges, and maps showing administrative boundaries.

Among the records pertaining to the European theater are a number relating to the invasion of Normandy, including maps showing terrain near Utah Beach; city plans; defense overprints; a map showing defenses near Point de Doc; and "Bogus" maps of the Normandy area featuring false place names. Additional records relate to the Maginot Line fortifications and defenses along the Rhine River. Also included are a number of records relating to the Battle of the Bulge in December 1944.

Although most of the records of the Mediterranean theater relate to Italy, some pertain to North Africa, Sicily, and southern France. Among these are maps of Tunisia annotated to show military operations at Kasserine Pass. Maps relating to the Anvil landings in southern France include operation maps; order of battle maps; and a map showing convoy and aircraft lanes between Corsica and the French Coast. Records of military operations in Italy include maps relating to the Anzio landings (Operation Shingle), maps showing troop movements and objectives during the battles to break through the Gustav Line before Monte Cassino, and maps and overlays showing enemy defenses along the Arno and Gothic Lines.

The records relating to the war in the Pacific include operation maps of invasions at Saipan; Angaur Island of the Palau Islands; and Lingayen Gulf on Luzon in the Philippine Islands. Also included is a map showing the locations and strengths of guerrilla forces in southeastern Luzon and a map showing the greatest extent of the Japanese Empire in the Pacific.

This series also includes a record set of printed file copies relating to the Third Army's occupation duty in Germany following the Armistice in World War I.
