purpose of establishing liaison contact with the Black Panther Party International Section. In application for a United States passport on April 6, 1971, Oliver indicated that in addition to traveling to Africa she intended to visit France, Spain and Sweden.

This Bureau subsequently determined that Oliver held reservations on Trans World Airlines Flight 800 scheduled to depart John F. Kennedy International Airport on April 8, 1971, due to arrive in Paris, France, 8:30 a.m. on April 9, 1971. She also was on a stand-by list for departure from John F. SUBJECT: COMMUNICATIONS INTELLIGENCE - CUBA

CLASSIFIED BY SP2ALM/RL
DECLASSIFY ON: 25X
MOL 16

Review of returns for past year from special Cuban watch list being monitored on our behalf by National Security Agency (NSA) shows program has been productive and warrants continuation.

After combatting many technical problems for over two years, NSA perfected a machine which could automatically handle through mechanical means stops against a maximum of approximately 300 names and addresses of interest to us in Cuban field. Since the machine's capacity was limited, we selected the following categories for coverage: (1) Names on Cuban special section of Security Index; (2) Regular Security Index subjects living in Cuba who had been tabbed pro-Cuban; (3) Mail drops in Cuba of known Cuban intelligence agents operating in U.S. and Puerto Rico. Of course, NSA is not furnished the categories in which the individuals fall and it is known to NSA only as the FBI Cuban watch list.

During the past year positive returns have been received concerning from five to 15 subjects each month. Basically, the products are open messages sent to or from the subjects on the list and nothing significant has been developed concerning intelligence activities on behalf of Cuba. However, we have benefited considerably since the stops enable us to confirm presence of subjects in Cuba who abandoned their U.S. residences and to verify continued residence in Cuba of many other subjects which could not be accomplished by any other means now available to U.S. Government. The program is carried out voluntarily by NSA at no cost to us.

If you approve, Lists delivered 4/8/65 [illegible] NSA advised re destruction old lists [illegible]

(1) Liaison will deliver the two attached copies of the watch list which is current as of 4/1/65 and will either obtain the copies of the old list for destruction or instruct NSA to immediately destroy the old lists.

The purpose of this communication is to advise of general areas of interest to this Bureau in connection with racial extremist matters and to request your assistance in such matters.

There are both white and black racial extremists in the United States advocating and participating in illegal and violent activities for the purpose of destroying our present form of government. The splendid cooperation received from your Agency regarding Cuban matters since Fidel Castro assumed power has been most valuable to us in carrying out our responsibilities in the internal security field. We are aware your intelligence gathering capabilities have increased substantially and at this time wish to outline our current interests and requirements in the Cuban field.

We have a continuing interest in pro-Castro residents of the United States who are Cuban aliens or naturalized United States citizens of Cuban origin and who are likely to have established ties in Cuba. Similarly, we are interested in Americans residing in Cuba who have indicated an affinity for the Cuban Government and who are potential agents of the Castro regime. Of definite interest is information pertaining to persons corresponding with Cuban Intelligence Service accommodation addresses in Cuba and in other parts of the Western Hemisphere.

to assist in the curtailment of militant anti-Castro expeditions, we desire the identities of participants to assure the United States Government is aware of persons whose activities should be monitored in the future. Detailed information regarding the operations of United States-based exiles in Cuba and countermeasures taken by the Cuban Government are also of prime concern from an intelligence standpoint in view of the possibility that some participants are working in collusion with the Cuban Government and have wittingly led exile forces into a Cuban Government trap.

Our most pressing problem in the Cuban field is the identification of individuals in the United States who are clandestinely transmitting intelligence information to their principals in Cuba. We are constantly analyzing information provided by you concerning indicated illegal agent traffic being directed toward the United States from Cuba. Your technical assistance is vitally important in our efforts to pinpoint the areas wherein the recipients of the messages reside.

Our specific requirements in furtherance of the foregoing objectives are being furnished your Agency as they arise. Your further assistance in efforts to curb activities on behalf of the communist Cuban Government, as they relate to the United States, will certainly be appreciated.

NOTE:

Classified "Secret" since reference is made to National Security Agency's (NSA) efforts in the foreign intelligence field, which information is so classified by NSA. Unauthorized disclosure of this could seriously affect national defense interests.

NSA has capability of monitoring messages to and from individuals on Cuban Special Section of Security Index, Security Index subjects residing in Cuba, mail drop addresses in Cuba, and other areas of Western Hemisphere, and Cuban military traffic pertaining to exile raids against Cuba, including the eventual fate of the participants. While NSA cannot decipher Cuban intelligence messages, it does have capability of pin-pointing general areas to which intelligence messages are being beamed from Cuba and in past years we have been able to identify Cuban agents through this capability.

NOTE CONTINUED:

Purpose of this letter is to assure that NSA is aware we desire to continue receiving its traffic and that we plan to continue use of its facilities to monitor specific subversives of interest in the Cuban field.

It indicated list could be disseminated for official purposes providing that Agency is not named as the source. In addition to being of interest to the RCMP, these individuals are also of interest to us in view of existing close relationship between black extremist activity in this country and Canada. For example, Roosevelt Douglas, included in this list, has reportedly endeavored to establish contacts in the United States to assist him in organizing revolutionary forces in the Caribbean. Anne Cools, also included in the list, reportedly has contacts with black brothers in the United States who have received training in aircraft, chemicals and weaponry during their service in the armed forces.

Eldridge Cleaver, Black Panther Party (BPP) Minister of Information, has been a fugitive in Algiers, Algeria, since 1969. He established liaison with Russia, Red China, North Korea and North Vietnam for the BPP and used Algeria as a base for organizing BPP support in Europe.

In early 1971 Cleaver split with Huey P. Newton and BPP national headquarters; and about 100 New York and New Jersey Panthers aligned with Cleaver, forming the BPP Cleaver Faction. Cleaver, still in Algiers as of August 13, 1971, advised his New York followers that he now has a Telex Machine with Number 91905, and he suggested the New York group acquire a similar machine to facilitate communication.

In connection with our investigation of individuals engaged in subversive activities, we will appreciate receiving any information that might come to your attention concerning channels of communication utilized by the BPP Cleaver Faction and contacts between Cleaver and his followers.

SUBJECT: NATIONAL SECURITY AGENCY - CUBA
INTERNAL SECURITY - CUBA

Since 1962, National Security Agency (NSA) has been providing valuable services to the Bureau in the Cuban field. Coverage afforded by NSA is virtually the only source of information relating to many areas of FBI responsibility concerning pro-Castro Cubans and the Cuban Intelligence Service (CUIS) radio traffic to Cuban agents in the U.S. This coverage is particularly of interest to us at the present time because of irrefutable evidence from a defector that an illegal Cuban agent in the U.S. is developing information concerning President Nixon's Key Biscayne, Florida, residence, staff and associates.

NSA provides a broad picture of Cuban activity which enables the Bureau to stay tuned to developments which could have a positive effect on pro-Castro activity and CUIS operations in the U.S. Of particular value is information furnished regularly concerning clandestine conferences held in Cuba which are attended by U.S. citizens, some of whom are radicals and other rabble-rousers.

It is well known that NSA is having to make drastic reduction in personnel due to the President's drive to reduce Government spending. This will almost certainly result in reduction in or curtailment of various programs which NSA has had in effect. Because of the value to the Bureau of NSA monitoring of Cuban activity, it is believed the Bureau should make this known to NSA for their use in evaluating the effectiveness of their various programs. Thus, before making any arbitrary decision to cut back in an area of definite interest to the Bureau, NSA will be fully apprised of our interest. Accordingly, a letter to NSA is attached for consideration and approval.

MAY 26, 1973
EXTREMIST MATTERS

African Liberation Day demonstrations are scheduled to be held on May 26, 1973, in approximately 26 cities in the United States as well as in Montreal, Canada; Toronto, Canada; Halifax, Nova Scotia; London, England; Accra, Ghana; and on the islands of Antigua, Dominica, and Grenada. These demonstrations are being organized by the African Liberation Support Committee (ALSC) under the leadership of Howard Lamar Fuller of Greensboro, North Carolina, where the ALSC is headquartered. In September, 1972, Fuller told a Howard University audience in Washington, D. C., that overthrow of the United States Government by any means, including terrorism in the manner of the Olympic massacre, is necessary. Fuller has announced that the demonstrations are to have three primary aims: (1) To cement common bonds among oppressed African people throughout the world; (2) To point to "concrete relationships that exist in the pattern of exploitation plaguing African people all over the world"; and (3) To attempt to raise $40,000 or more to aid the "freedom fighters" in Africa and promote a continuous program on behalf of African liberation to include boycotts of firms exploiting the African people. The address of the national headquarters of the ALSC is Post Office Box 21304, Greensboro, North Carolina 27420.(U)

SUBJECT: NSA Watch List System

This is in further reference to former Attorney General Elliot L. Richardson's memorandum to you, dated October 1, 1973, concerning the practice by the National Security Agency (NSA) of conducting electronic surveillance and disseminating the information thereby obtained through the use of a so-called watch list system. Because that practice raised a number of serious legal questions, which have yet to be resolved, he requested you to immediately cease the practice of requesting such information from NSA until he was able to assess more carefully the effect of certain Supreme Court decisions concerning that practice.

In order to complete that assessment, I would appreciate your providing me, as soon as possible, with the most current list of names you had on NSA's watch list prior to the termination of the watch list practice. The Department has advised that its motion to dismiss the indictment in captioned matter, filed with the court in Detroit on 10/15/73, has been granted by U. S. District Judge Damon Keith.

The indictment, returned 12/7/72 superseding a prior indictment, charged 15 members of the Weatherman with conspiring to violate Federal bombing and gun control statutes. Five of the defendants have been free on bond awaiting trial and we have continued to seek the remaining 10 defendants as fugitives. As a result of the dismissal, only one of those 10 defendants, Ronald Fliegelman, will no longer be an FBI fugitive. The other 9 defendants whose whereabouts remain unknown will still be sought based on violations of other Federal and local statutes. Four of these 9 defendants have Federal antiriot law charges outstanding (Chicago) and the other 5 have other Federal charges or Unlawful Flight to Avoid Prosecution charges outstanding. Whether the same situation will arise when they are located and brought before the court will depend on what motions are made by the defense and what the particular judges' reactions will be to these motions.

REC-51 176-2167-940

The motion for dismissal was based on the fact that a pretrial evidentiary hearing concerning allegations made by the defendants of Government misconduct in conducting the investigation, ordered by the court on 7/10/73, might reveal information vital to the National security. This concerns information obtained by the National Security Agency (NSA) through its functions concerning the gathering of foreign intelligence information. We previously recommended to the Department that the case be dismissed as pursuit of the prosecution would place the NSA information in jeopardy. NSA made the same recommendation to the Department.

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

UNITED STATES OF AMERICA,	:	
Plaintiff,	:	
v.	:	Criminal No. 48104
WILLIAM AYERS, et al.,	:	
Defendants.	:	

Motion And Order For Dismissal

Now comes the United States of America, by and through Ralph B. Guy, Jr., United States Attorney for the Eastern District of Michigan, and moves this Court for an Order dismissing this case and in support thereof, states the following:

Pursuant to the Orders of this Court dated June 5, 1973, and July 10, 1973, the Government caused investigations to be conducted by the White House, Central Intelligence Agency, Federal Bureau of Investigation, National Security Agency, Department of Treasury, Department of Defense, Secret Service and the former Intelligence Evaluation Committee of the Department of Justice into the defendants' claims of illegal and improper conduct on the part of these agencies. The results of these investigations have been furnished the Department of Justice and the Department of Justice has received sworn denials of these agencies that any such illegal or improper conduct as described in the defendants' motion and affidavits has been engaged in by any of these agencies.

However, the Court has previously been advised that an agency of the Federal Government, for the lawful purpose of obtaining foreign intelligence information deemed essential to the security of the United States, has legally intercepted communications of individuals who are not defendants presently before this Court. The Government has determined that the security of the United States requires that there be no disclosure of this information and further, that the broad scope of the evidentiary hearing previously ordered by this Court on July 10, 1973, permits inquiries which may lead to disclosure of this vital national security information.

Wherefore, notwithstanding the Government's determination, after extensive inquiry, that there has been no illegal sabotage, mail searches, electronic surveillance, provacateurism, breaking and entering or other illegal and improper activities by United States Government agencies as alleged by defendants herein, the Government moves to dismiss this case in order to protect vital national security interests from disclosure at the evidentiary hearing ordered by this Court.

Respectfully submitted,

SUBJECT: MONITORING OF COMMUNIST-CONTROLLED ESTABLISHMENTS IN THE U.S.
IS - R

On 10/1/73 John D. Butler, Chief, Soviet Intelligence Activities, NSA, furnished the following information by secure telephone:

During the previous week, a meeting was held of the Program Management Resources Review Group, a US Intelligence Board committee whose function is to review and coordinate acquisition of intelligence and assign priorities as a means of precluding duplication of effort. FBI does not normally participate in meetings of this Group. It was indicated that the Director of Central Intelligence (DCI) had recommended that acquisition and analytical work by Butler's group be terminated. Butler indicated he had to prepare rebuttal material for the Director of NSA by 10/3/73 and that he was inquiring informally as to the FBI's position in the event recommendations of the DCI were approved. Butler further indicated he did not feel that an official position would be necessary from the FBI at this time.

REC-11 105-254790-10

Butler was reminded that by letter dated 5/8/72 (copy attached), FBI had officially levied collection requirements on NSA to provide information to assist in our counterintelligence mission. Since that time Butler's group has given us detailed analyses and breakdowns of numerous one-way coded radio broadcasts emanating from the Soviet Union and Cuba which are believed directed to illegals and illegal agents in the US. They have also provided us with prior interceptions of coded radio traffic directed to subjects of our "Palmetto" investigation which have permitted us to capitalize on a cryptographic penetration of those broadcasts by FBI Laboratory. In addition, information from Butler's group is the only material currently being received which permits even a rough estimate of the illegal capability being directed by the Soviets against this country.

SUBJECT: REQUESTS BY FBI TO NSA FOR DISSEMINATION OF ELECTRONIC SURVEILLANCE INFORMATION

I have reviewed your memorandum of September 10, 1973, to the Assistant Attorney General, Criminal Division, captioned, "U.S. v. William Ayers, et al., Eastern District of Michigan."

I have concluded that until I am able more carefully to assess the effects of Supreme Court decisions concerning electronic surveillance upon your current practice of acquiring from the National Security Agency information obtained by that Agency by means of electronic surveillance, the FBI should immediately cease requesting any further information of this type from the NSA, with the following exception:

In the event you desire to obtain solely foreign intelligence or counterespionage information from the NSA, which was acquired by that Agency through electronic surveillance, it is requested that you obtain my prior approval. In this event you should follow the procedure which is currently utilized in seeking approval of the Attorney General to monitor conversations by electronic devices employed by your Bureau to acquire foreign intelligence information. This procedure, of course, requires the submission of a written justification for such an electronic surveillance and my formal written approval of your request.

RE: NSA WATCH LIST

As you are aware, the NSA Watch List has become an issue in court trial in Detroit being heard by Judge Damon Keith (Keith decision). Basically, the issue involves whether the use of the Watch List to gain information on domestic organizations or U. S. citizens is in violation of the Keith decision.

Office of Legal Counsel feels that there is definite reason to believe the use of the Watch List in this respect is illegal. The Department has yet to furnish an opinion in the matter.

The attached is the Watch List as furnished to NSA by the Bureau and is current as of 9/21/73.

Each Section should review the List and indicate thereon those organizations and individuals who should be retained with the above situation in mind. Where a recommendation for retention of a domestic organization or U. S. citizen is made, full justification must accompany the List. Where aliens or foreign organizations are involved, no such justification is necessar

It must be borne in mind that in the event the court rules that the surveillance of domestic organizations or U. S. citizens through the Watch List procedure violates the Keith decision, those organizations and individuals will be deleted from the Watch List.

Please review this material and submit the requested results by c.o.b. 9/28/73 to SA R. H. Horner, 712-C S&D, Extension 2005.

Dear Mr. Kelley:

In the course of acclimating myself to my new assignment I asked my staff to review with yours our Watch List procedures, and they have been pursuing that subject diligently.

Meanwhile, I thought it would be worthwhile for us, as the heads of cooperating agencies, to correspond directly on the Watch List matter. The need for proper handling of the list and related information has intensified, along with ever-increasing pressures for disclosure of sources by the Congress, the courts, and the press, and naturally I am concerned ultimately for the protection of highly vulnerable SIGINT sources. Of paramount importance, however, is to insure that the procedures we have established for compiling the lists, and for changing them as needs dictate, remain adequate and fully appropriate to our authorities and responsibilities.

Certainly, I expect NSA to remain as responsive to your future requirements for information as we have to those of the past. Also, as in the past, we at NSA will lack the wherewithall for verifying the appropriateness of the Watch List entries, and we will continue to rely upon you, as the requesting agency, for that assurance. However, the requirement for us to perform the NSA mission in ways that remain unquestionably within the framework of our existing authorities has never been more clearly evident. I am confident that current procedures are designed to insure that we do so; however, I ask your help in my efforts to make doubly certain that in the process of our providing you Watch List information acquired during the performance of our foreign intelligence mission we do not — even inadvertently — exceed the letter or spirit of any controlling law or directive.
