

# Finding Aid for the Records of the Financial Crisis Inquiry Commission

(RG 148)

**February 2017:** The electronic records portion of this finding aid was updated to reflect files accessioned by NARA. The electronic records listed here were archived in 2011 via the Commission's document management contractor. Please note: some of the folder/files have a 0 byte count indicating the folder/file has no content; this reflects the data as received from the FCIC.

If you are interested in viewing any of the records in this finding aid, please contact the Center for Legislative Archives at [Legislative.Archives@nara.gov](mailto:Legislative.Archives@nara.gov) or (202) 357-5350.

## **About the Financial Crisis Inquiry Commission**

The Financial Crisis Inquiry Commission (FCIC) was established in 2009 by Section 5 of the Fraud Enforcement and Recovery Act (PL 111-21). The 10 Commissioners, appointed by congressional leadership, hired a staff of more than 80 tasked with investigating 22 specific aspects of the financial crisis. The Commission held 19 days of public hearings across the country. Staff interviewed more than 700 people and collected millions of pages of records in paper and electronic form from government entities, financial institutions, and businesses. The 22 topics included in the FCIC’s investigatory mandate are:

- fraud and abuse in the financial sector, including fraud and abuse toward consumers in the mortgage sector;
- Federal and State financial regulators, including the extent to which they enforced, or failed to enforce statutory, regulatory, or supervisory requirements;
- the global imbalance of savings, international capital flows, and fiscal imbalances of various governments;
- monetary policy and the availability and terms of credit;

- accounting practices, including, mark-to-market and fair value rules, and treatment of off-balance sheet vehicles;
- tax treatment of financial products and investments;
- capital requirements and regulations on leverage and liquidity, including the capital structures of regulated and non-regulated financial entities;
- credit rating agencies in the financial system, including, reliance on credit ratings by financial institutions and Federal financial regulators, the use of credit ratings in financial regulation, and the use of credit ratings in the securitization markets;
- lending practices and securitization, including the originate-to-distribute model for extending credit and transferring risk;
- affiliations between insured depository institutions and securities, insurance, and other types of nonbanking companies;
- the concept that certain institutions are 'too-big-to-fail' and its impact on market expectations;
- corporate governance, including the impact of company conversions from partnerships to corporations;
- compensation structures;
- changes in compensation for employees of financial companies, as compared to compensation for others with similar skill sets in the labor market;
- the legal and regulatory structure of the United States housing market;
- derivatives and unregulated financial products and practices, including credit default swaps;
- short-selling;
- financial institution reliance on numerical models, including risk models and credit ratings;
- the legal and regulatory structure governing financial institutions, including the extent to which the structure creates the opportunity for financial institutions to engage in regulatory arbitrage;
- the legal and regulatory structure governing investor and mortgagor protection;
- financial institutions and government-sponsored enterprises; and
- the quality of due diligence undertaken by financial institutions

The FCIC selected several entities to study in depth to illustrate aspects of the crisis. These entities include American International Group (AIG), Bear Stearns, Citigroup, Countrywide Financial, Fannie Mae, Goldman Sachs, Lehman Brothers, Merrill Lynch, Moody's, and Wachovia.

The Commission's website

([www.cybercemetery.unt.edu/archive/fcic/20110310172443/http://fcic.gov](http://www.cybercemetery.unt.edu/archive/fcic/20110310172443/http://fcic.gov)) contains transcripts

and video of the public hearings, the text of the final report, staff data projects, reports and fact sheets, and audio or written transcripts or summaries of hundreds of staff interviews. The website also contains lists of Commissioners and staff; press releases; FCIC policies on financial disclosure, gifts, and other issues; and other information relating to its work.

The Commission issued its final report on Jan. 27, 2011. When it closed its doors on Feb. 13, 2011, it archived its records in the Center for Legislative Archives. The collection totals 551 archival boxes of paper records and more than 13 terabytes of electronic records. **All of the records require screening before they can be served to preclude the release of sensitive information that may be closed by statute or regulation. This screening can take several weeks. Please contact the Center for Legislative Archives well before your visit to allow enough time for screening.** This finding aid is also available in the form of entries in the National Archives Catalog where selected records may be uploaded to facilitate remote access.

## FCIC Paper Records

The paper records of the Financial Crisis Inquiry Commission are comprised of **551 archives boxes arranged into 72 series** primarily created by individual staff. This section of the finding aid provides a brief description of each series, including the volume, followed by a folder title list.

There can be significant duplication in the records since several staff addressed similar topics. It is not unusual to find published materials that were used for reference and background.

As noted in the “About the Commission” section, each folder must be screened before it can be served to researchers. The commission gathered records from government agencies that contain highly sensitive information about *the regulation and supervision of financial institutions*. It also received records that include *sensitive commercial or financial information*. Some records contain information the release of which would violate *personal privacy*. All information fitting into these categories may be withheld from release under NARA General Restrictions (36 CFR 1256). Any records containing redactions of withheld information will reference the specific restriction applied.

### Key to Abbreviations in the Description Section (below):

**LTA-S** = letter size archives box

**LGA-S** = legal size archives box

An archives box holds 800 – 1000 pages.

**NAID** = National Archives (Catalog) Identifier

**HMS** = internal NARA code indicating location within NARA’s stacks

## **Executive Director Wendy Edelberg's Files**

Box count: 5 LTA-S

Arranged by subject

NAID: 24331230      HMS: HS1-93415443

This series contains background materials and briefing books for hearings; responses to document requests from Fannie Mae and others; drafts with comments of Final Report and Preliminary Investigative Reports; news articles, speech texts, and reference reading materials; agendas; email printouts; lessons learned from complex financial derivatives research; FCIC administrative records such as budgets, Commissioner hours worked, staff activities table, contracting for the publication of the Final Report, review of audio for release online; handwritten notes; financial crisis timeline; interview transcripts; and other records. Topics include mortgage fraud, derivatives, housing and credit bubbles, FCIC administration, Goldman Sachs, rating agencies, and lobbying expenditures.

## Files Supplied by Goldman Sachs

Box count: 33.2 LTA-S, 12 LGA-S  
Arranged in numerical batches by Bates number  
NAID: 24823579      HMS: HS1-93381208

This series contains primarily internal Goldman Sachs documents supplied to the commission. The records include email printouts, memoranda, news clippings, briefing materials, weekly estimates, the “Derivative Collateral Dispute Summary of 10/30/2007,” daily trading risk summaries, weekly senior management reports, correspondence, prospectuses, asset purchase agreements, mortgage pass-through certificates, documents supplied to the Senate Permanent Subcommittee on Investigations, records of the Asia Special Situation Group. Subjects include investment risk, plans for future investments, remarketing, residential mortgage-backed securities, collateralized debt obligations, Freddie Mac, the Capital Committee, the Principal Investment Committee, global sales, derivatives, ABACUS, subprime lending, Morgan Stanley’s ABS Capital, Firmwide Capital Committee, GSAA Home Equity Trust, and others.

OCC Produced Documents re: Citi, Vol. 6

## Electronic Records

The electronic records of the Financial Crisis Inquiry Commission are comprised of three subsets of records: those downloaded from the NetDocuments platform; CDs, DVDs and hard drives supplied to the Commission in response to document requests; and Commissioner and staff email. A file list of the archived NetDocuments records, in the form of a directory map, follows these brief descriptions of each of the three subsets.

### I. NetDocuments System

The FCIC used a document management system called NetDocuments (NetDocs) to organize and share its electronic files. There are 11 cabinets in the NetDocs system, each with its own file structure. Please note there are several folders in the directories that contain no files.

#### Commissioner Upload Space

This series contains an article about the lessons of Depression-era banking reform, FCIC ethics guidelines, and a brochure about credit derivative companies.

#### Commissioners Workspace

This series contains final versions of work product FCIC staff shared with the Commissioners. Records include interview lists, administrative files, records relating to field hearings, drafts of the final report, research and investigative materials that resulted in investigative and staff reports, background briefing binders and hearing binders prepared for the Commissioners, hearing documents, (key documents from the investigations), and hearing follow up, (letters sent to witnesses with questions pertaining to their testimony). Topics include too big to fail, macroeconomic factors in the crisis, shadow banking, subprime mortgages, rating agencies, and others.

#### FCIC Staff Documents

This series contains incoming and outgoing correspondence; some smaller-volume document productions from agencies and businesses; administrative files regarding the external document management system, Epiq; witness lists; records supporting hearings; chronologies of the financial crisis; risk model data; press releases, advisories, and other records relating to the FCIC interaction with the media; and other documents created by staff.

#### Homefront

This series contains documents uploaded to the FCIC website.

#### *Series Related to the Preparation of the Final Report:*

##### Latest Versions

This series contains files related to drafting the final report. Many of the files were moved from this cabinet as they were finalized for the final report. The "Timeline," folder does

contain the most current versions of the timeline as it was prepared for the web. The “Tracking,” folder contains all the trackers for various parts of the final report.

### Preliminary Book Material

This series contains a copy of the final hearing material from the Commissioner’s Workspace cabinet as well as early drafts of the final report from the beginning of the process in the summer of 2010.

### Preparing – Current

This series contains the final iteration of report materials. The “Ready to Go,” folder contains all of the chapters as they went to the publisher, along with all of their earlier versions.

### Memoranda for the Record and Interview Lists

This series contains summaries, transcripts, and audio files of interviews with witnesses interviewed by commission staff. The Memoranda for the Record are summaries of interviews conducted by FCIC staff with a variety of outside people. The staff interviewed employees of banks, brokerages, holding companies, state and Federal government agencies, rating agencies, mortgage companies. They also spoke with authors, lawyers, financial advisers, and economics professors. Some of these interviews were transcribed and recorded.

There are multiple drafts of many of these files. Some scans of handwritten notes are also included. Many of these documents were released by the FCIC in the “Resource Library” section of its website.

### Research Library

This series contains primarily public reference materials used by the research team.

### Review

This series contains interview files copied from the MFR and Interviews cabinet. The items in this cabinet were made available by the FCIC to the interviewees’ lawyers to review on behalf of their clients.

### Old FCIC Docs

This series contain two log files and can be considered non-record material.

## II. Loose Media

This series contains 743 CDs and DVDs and 57 hard disk drives supplied to the FCIC in response to documents requests. The producing entities include Bank of America, JP Morgan, Federal Reserve Board, Securities and Exchange Commission, Moody's, Standard and Poor's, Vero, Deutsche Bank, Goldman Sachs, AIG, Wells Fargo, Citi, and others. Please note: most of these records are closed because they contain proprietary business information and highly sensitive information about the regulation and supervision of financial institutions.

## III. Email of Commissioners and Staff

This series contains email of Commissioners and staff. All of this material requires screening before it can be released. As with any email system, there is substantial duplication throughout.

Directory Map Listing Each Archived File from the NetDocuments System  
begins on next page

The electronic records listed here were archived in 2011 via the Commission's document management contractor. Please note: some of the folder/files have a 0 byte count indicating the folder/file has no content; this reflects the data as received from the FCIC.
