For the Record: Memo. by Harry Schwartz (NNM)

Received this date, February 5, 1969, from Mrs. Mildred C. Baruch, EXOS, Records and Mail Unit. Mrs. Baruch, who is planning to retire this year, said that this is a privately maintained finding media she compiled over her years of service. She thought this manual would be useful to me also for locating RG 80 correspondence, ca. 1939-53.

Secretary's Routing Slip:

- A. 1. Prepare reply for SecNav's signature.
- B. 2. For appropriate action.
- C. 3. For comment. or recommendation
- D. 4. For information.

Originally July 1, 1942 usually single numbers were used before the double numbers. Shortly thereafter this was modified so that ship numbers, shore stations numbers were used first in most cases; bureau numbers continued to follow secondly in a combination of symbols. As this was inconsistent beginning July 1, 19~~42~~⁴⁶ all double numbers came first except for the exceptions included in list inserted at the beginning of the Index to the Navy Filing Manual. For that reason many of the file symbols listed in the following pages are reversed now. Not all (See typed pages at beginning of index book.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Schwartz, National Archives
 Military Records *11-52942*

FROM : Mrs. Mildred C. Baruch, Records and Reference Section
 of the Secretary of the Navy's Office

SUBJECT:

DATE: Oct. 25, 1969

During the war Admiral King was the head of the COMINCH Section.

He had his staff keep the records and files of that activity, but later a box of the files was sent to us; these were incorporated in our regular files.

✓ Attached is an informal list showing on one side the COMINCH file symbol; in the center our file symbol (the subject can be largely ascertained from the file symbol), and on the other side a date.

You may desire to add this to the black book of notes or dispose of it in any way you see fit.

Mildred C. Baruch
