

10-24-1883

My Dear Sister Agness

I was much disappointed at not meeting thee at Kansas Y- Meeting. I met Jonathan Osburn & Wife they thought thee would come. I felt I was greatly blessed in attending that yearly meeting. I felt Heavenly Father wanted me to go there that I might learn some lessons in his school that would be helpful in the work he has called me to do -

He wonderfully made the way so that when I was again seated at home I had not been out one cent in money - and was well and the children were well and well cared for - I hired Uncle Will Miles to board Bertie. Laddie worked his board out at Jas. Cooks and Mary Ellen Pinkham kept May and Ellen Steer with me and all together my heart is so full

at the goodness of my Heavenly Father's
care for unworthy one that I cannot
Praise him enough - The children
are getting along nicely at school
the Diphtheria has broke out among
us again severall children are out
of school. Will Hamralls little boy
is not expected to live - I always
shudder at the thoughts of this
dreadful disease - but we have
to leave it all with God he knows
best - I was glad to hear from Ida
Shaw through thy letter I loved
her and was very much interested
in her - I have so much to do all
the time considering I just keep
my self ready first for service for
my master - then to work at
what ever I can to earn a little to
add to our living and then the
care of my little ones every day
is full and some times the
nights - I have been to the
W. C. T. U. this afternoon we had

a very interesting meeting about 20
present - we had the reports from
the delegates who attended the
State Convention. They were
Mary G. Townsend & Polly Edmondson
their account was very interesting
after the union we had a woman's
suffrage meeting - and two delegates
were appointed to attend the
State meeting to be held at
Attunawa next week this is the
next great question that aggitates
the public mind of our State
and I need only to say let a
woman be left a widow and have
any thing to do with business
and she will emphatically be
on the side of equal suffrage -

I have tried often to get
Bertie to write but he always
says he cant write good enough

I had a letter from Ann yesterday
she said Mother had to wait on
Perris & Annie and Phebe so much
she could not get much time

to spend with the rest - Ellen
is to be confined sometime in
this month, so I think Mother
will always find hard work as
long as she remains there -

I always hoped she would find
a time to spend with me but
I guess that is not for me
well I am got the tooth aches and
its getting pretty hard to bear
so I must quit for this time
write soon and often -

in love sister

My Dear Sister Agness,

I was much disappointed at not meeting thee at Kansas Y-Meeting. I met Johnathan Osburn & wife. They thought thee would come. I feel I was greatly blessed in attending that yearly meeting. I felt Heavenly Father wanted me to go there that I might learn some lessons in his school that would be helpful in the work he has called me to do. He wonderfully made the way so that when I was again seated at home I had not been out one cent in money - and was well and the children were well and well cared for - I hired Uncle Will Miles to board Berttie. Taddie worked his board out at Jas. Cooks and Mary Ellen Pinkham kept May and Ellen Steer went with me and altogether my heart is so full at the goodness of my Heavenly Father's care for unworthy me that I cannot praise Him enough.

The children are getting along nicely at school. The diphtheria has broken out among us again, several children are out of school. Will Hammel's (?) little boy is not expected to live. I always shudder at the thought of this dreadful disease - but we have to leave it all with God, he knows best. I was glad to hear from Ida Shaw through thy letter. I loved her and was very much interested in her - I have so much to do all the time considering I just keep myself ready first for service for my master - then to work at whatever I can to earn a little to add to our living and then the care of my little ones. Every day is full and sometimes the nights.

I have been to the W.C.T.U.(?) this afternoon. We had a very interesting meeting about 20 present - we had the reports from the delegates who attended the State Convention. They were Mary G. Townsend & Polly Edmondson. Their account was very interesting. After the union we had a woman's suffrage meeting and two delegates were appointed to attend the State meeting to be held at Attumuwa (?) next week. This is the next great question that agitates the public mind of our State, and I need only to say, let a woman be left a widow and have anything to do with business and she will emphatically be on the side of equal suffrage.

I have tried often to get Berttie to write, but he always says he can't write good enough. I had a letter from Ann yesterday; she said Mother had to wait on Penn & Annie and Phebe so much she could not get much time to spend with the rest. Ellen is to be confined sometime in this month, so I think Mother will always find hard work as long as she remains there. I always hoped she would find a time to spend with me but I guess that is not for me - well, I ~~was~~ am got the toothache and it's getting pretty hard to bear so I must quit for this time. Write soon and oftener.

In love sister
