Scope and Content

On December 7, 2004, Hamid Karzai was sworn in as the first democratically-elected President of Afghanistan at the Presidential Palace in Kabul. In attendance from the United States were Vice President Cheney, Lynne Cheney, Chief of Staff to the Vice President I. Lewis "Scooter" Libby, Secretary of Defense Donald Rumsfeld, Counselor to the President Karen Hughes, U.S. Ambassador to Afghanistan Zalmay Khalilzad, and others. This body of records consists of photographs taken before, during, and after the inauguration ceremony. The photographs depict the arrival of the American delegation at the Presidential Palace; Vice President Cheney and Hamid Karzai participating in a bilateral meeting in the palace before Karzai's inauguration; the swearing-in ceremony of President Karzai; lunch after the ceremony at the palace; Vice President and Mrs. Cheney talking with President Karzai before departing from the palace; departure photographs of Vice President Cheney with various staff members; the American delegation's departure from the palace en route to Bagram Airfield, Afghanistan; Vice President Cheney and others aboard a helicopter; Vice President and Mrs. Cheney de-boarding the helicopter; and the delegation's departure from Bagram Airfield, Afghanistan en route to Muscat, Oman.

These photographs were taken by David Bohrer.

System of Arrangement

Records responsive to this FOIA request were found in the Vice Presidential images collection from the White House Photo Office. These records are maintained in the Executive Office of the President instance of the Electronic Records Archive (EOP ERA) which contains electronic records created or received by the administration of President George W. Bush.

The White House Photo Office assigned each image a unique number based on its roll and frame numbers. Identifying numbers for the Vice Presidential photographs begin with "V" in order to distinguish them from the Presidential photographs taken by White House photographers.

Images are reviewed and released at the item level in contrast with textual records which are reviewed at the folder level.

The responsive images retrieved from EOP ERA are saved in search results lists (SRLs) within the system. The following is a list of the SRLs saved and processed in response to 2016-0032-S:
