7 Item Number	8 Description of Item and Proposed Disposition	9 GRS or Superseded Job Citation	10 Action taken (NARA Use Only)
	<p align="center">Army Strategic Readiness Update (ASRU) AR 220-1</p> <p>Background The Army Strategic Readiness Update (ASRU) application is utilized by the Enlisted Distribution Division of the Army Human Resources Command to receive and manage enlisted and officer data along with unit readiness by the G-3. The aforementioned data is collated and formatted by the application into the monthly ASRU report which is briefed in a series of approval briefings before the final monthly presentation to the Vice Chief of Staff, Army (VCSA). The ASRU report provides Senior Army Leadership with the status of personnel readiness in the Army as it pertains to their ability to perform their wartime and peacetime missions. ASRU facilitates the Senior Army Leadership ability to synchronize operational planning and resource management.</p> <p>The ASRU web-based application replaces ASRU EXCEL, a very large spreadsheet, which required an extraordinary amount of dedicated staff hours for preparation and depended on hard-to-find staff possessing SAS coding skills. With the ASRU web-based application, qualitative and quantitative analysis by the Enlisted Distribution Division has been maximized while data collection, preparation, and management time and issues have been minimized and/or eliminated.</p> <p>NOTE Use record number (RN) 25-1kkk for source input records, RN 25-1lll for automated system administrative outputs and reports, RN 25-1mmm for automated system documentation and specification files, and RN 25-1nnn for backup files.</p>
