negotiations to lift the "HMI Freeze" on the destruction approved of 20,000 cubic feet of Field Office Single Family Home 1-4-80. Mortgage Case Binders endorsed between January 1, 1972 and December 31, 1976. During this period, materials that were traditionally fastened on the right side of the official case files were removed from the binders and retired to the records center system for a six year retention period. This "split file" situation came about because of a decision to strip "unnecessary" documents (i.e., those on the right side of the binder) from each binder. Documents such as Waivers of Restriction, Encroachment Letters, Easement Letters, and underwriting reports were mistakenly identified as "unnecessary." We have determined that these "split files" are actually an important part of the official Single Family Home Mortgage Insured Case Binders and should be scheduled accordingly (i.e., under HUD Records Disposition Schedule 20, item 1), so that they will be destroyed "...36 years after the close of the calendar year in which endorsed."
