

## Request for Records Disposition Authority

Records Schedule Number	DAA-0412-2013-0003
Schedule Status	Approved
Agency or Establishment	Environmental Protection Agency
Record Group / Scheduling Group	Records of the Environmental Protection Agency
Records Schedule applies to	Major Subdivision
Major Subdivision	Water
Minor Subdivision	Office of Ground Water and Drinking Water, Drinking Water Protection Division, Infrastructure Branch
Schedule Subject	Underground Injection Control National Database (UIC DB)
Internal agency concurrences will be provided	No
Background Information	<p>The UIC National Database (UIC DB) supports the EPA oversight and management of the Underground Injection Control (UIC) programs directly implemented by the EPA Regions, State and tribal governments to regulate the owners and operators of underground injection wells (UIC) in order to prevent endangerment of underground sources of drinking water. EPA has awarded selected States with primary enforcement authority (primacy) to implement federal requirements and has assumed direct implementation authority (DI) for all State and Tribal programs without primacy.</p> <p>The UIC DB, initially deployed in 2007, is a relational database management system composed of UIC facility and well inventory permit, inspection, violation and enforcement data. The UIC DB flows data from the 69 UIC programs (57 states, 2 Tribal and 10 Regional DI). The source data received from the primacy states and Regional DI programs are submitted through the Central Data Exchange (CDX), validated and then parsed and loaded into the preproduction version of the UIC DB. Once reviewed and accepted by EPA, the preproduction version is imported into the production version of the UIC DB. Submitted data replace the previous data files on a quarterly basis. The UIC data in the production version of the UIC DB will be used to support the Agency's response to any queries, including from the public. Both versions of the UIC DB are on an Oracle application server at the National Computer Center (NCC). This database is maintained by the headquarters Office of Water.</p>
