	<p>This schedule covers textual records of the Nuclear Regulatory Commission (NRC) that pertain to the decommissioning of Independent Spent Fuel Storage Installations licensed under 10 CFR 72. These records require permanent retention to comply with the General Accounting Office recommendations that the NRC revise its recordkeeping system to provide for prompt identification of licensees who have stopped operations, effective monitoring of license control over contaminated facilities, assurance that facilities are cleaned up when licenses are terminated, and the development and permanent retention in a central repository of records documenting decommissioning activities.</p> <p>1. <u>Decommissioning Records for Independent Spent Fuel Storage Installations (ISFSI)</u></p> <p>Decommissioning records for ISFSI's licensed under 10 CFR Part 72 located at the NRC File Center consisting of decommissioning plans, records of onsite disposals of radioactive material, requests to terminate license, radiological surveys and related decontamination/release criteria, NRC inspection reports, including confirmatory surveys and related criteria, NRC correspondence terminating licenses or amendments deleting authorized locations of use and supporting safety and environmental reviews, and related correspondence and reports. The official record copy for each decommissioning document is filed in this collection in addition to a copy being filed in the</p>		<i>Withdrawn, 1 item</i>

licensing case file.

Authorized Disposition:

Permanent. Cut off upon license termination following completion of decommissioning procedure. Retire closed case files to NRC Archival Facility/WNRC at end of fiscal year. Offer to NARA 20 years after termination.
