

we See any situation worse in -- Bushnell  
to lead off #4

JB - Other part is unlikely to get any closer  
to Son ... inherit protection

They are playing short-term games --  
only looking a period rather serious problem --  
game in UN does better us -

Originally wanted to keep Montanaro from  
using Son - Cuban against them - This has  
developed into cooperation with take-off

In any matter they will have had  
time taking any positive action due to Videla  
retirement -- at least until decision in  
Sept -- see early next year -- we can't  
force major decision -

IAHRC consideration is worse issue - Argentine  
from continuation -- they might do more  
worse things.

Main short-term consideration is pain  
when they build his system  
LH - Is HR better than?

Department of State, A/GIS/IPS/SRP  
Change to  
 Release ( ) Excise ( ) Deny ( ) Declassify  
Exemptions b ( ) ( ) E.O. 13526 25x ( ) ( )  
Declassify after \_\_\_\_\_  
With concurrence of: \_\_\_\_\_  
IPS by A obtained \_\_\_\_\_ not obt. \_\_\_\_\_  
Date 12-14-16

JD - Major improvement - but some skills  
system remains in place

They have talked most they want still  
Pol. prisoners now less -

LH - Team police (MATH) will continue through  
transition to new part.

We have a great com. picture that we  
should maximize

HO - I think best has been done - they will  
follow same policy next year - floor of 4MM, no  
ceiling - and limit

Ques - Open

DA - what is the issue? Overall tone or  
individual issues?

Will what changes be circumvented?

HO - Once they policy is clear (<  
(and follow) other countries

and suggest in -

US - Agree. All important agree if  
for. say is good.

We have to find a way to ensure  
a l.g. policy success

DA Do we want to take some more  
against Chy? Or let it go?

the Former He was given a hard time

GC We have no been. Will make  
situation worse.

DA The Chy don't care about US Chy etc

We Real question is one of tone -  
paper also should go to LG do work  
out implementation of ton.

The Chy want do anything to  
count on ton.

GC Don't blame them. We're facing  
them to Son.

He They are faithful to our cause or  
you - Mitt said he would fear us if  
all else =.

LH OPEC influence would be important  
to discuss a UK forum

SK Not clear what options are - Sus.  
are interested in nuc. coop - but a minimal  
activity to start -

Our role  $\leq$  Arg. -- don't want to expand  
unless they work on that. Pat - FSS (Hox)

Should we continue on marginal activities  
within law? Heavy water is key -

Do we want to supply things that could be  
related to a future NW program

JB No talk of what we are supplying to  
their research program -- do we want to  
break our double? - (perhaps turn them  
to Sons) -- our hope is for progress with  
new Arg. admin. next year -

Issue: Should we head study now +  
look to "minimize" things  
SK depends on items included

Clayton NP policy is bankrupt - do all  
we can under the law

SK "Tritium"? Perhaps about 100 years  
is no problem. Look at specific

we NP hasn't been abandoned

Clayton affects. Some are ready to jump  
in. Do cell we can  
~~the~~ ~~the~~ ~~the~~

IB Very few licenses pending.

we Back to general topic - Lib  
more to middle option  
but useful as trends in the which

is in part) - should try to speed H.K  
bill however - politically unwise

Option B needs fine tuning from LG -  
what can we do in coming months to improve  
relations -

Perhaps in 1991 we could have a  
visit to us during at least -

LA Encouraged by your survey. Trends important.  
Agree on Option B.

DA Program to improve relations needed -

Options are too static. Obj:

1) Maintain a working rel. + bring about

that access

2) Law - we want to get the

contract r. should pass

3) Bill change mil. legis. work

4) Maja Ans work coming -- will be

signal to them. Relate to other policy issues

we Summary -- No steel - the ke

Open

1) Single HR papers to work toward  
improvement

2) Over next 6 months, will be conducted  
by the steel plant

3) Also whether we need to react on gas  
START REACT

4) If HR continues to improve -- feel  
improvement in sales & new signs  
IN TO WORK OUT PAPER

Need to be in BRC (less military) -  
Get up an if no. papers & benchmarks -  
BUI

No need to improve rules drastically,  
immediately due to their actions to us  
Should make clear in our words  
pick up pieces & new administration - can  
get for a while  
Take opportunity of our job

- 1) Stick it to this part but
- 2) Start to work & be very  
If we mean to improve we can use our  
best -

Get John C should be paid (less than) -  
do all we can & milit - certain military  
Reg. - doing them to Gov. - - Cars are our  
greatest problem - - Small things are interfering

Party Support Act - we can have

opportunities to increase contact - would like to  
pursue -- e.g. Galtieri initiative (under  
review by Spill) -- he is prepared to come  
JB - Mixed signals -- he would like  
initiative - get off visit -- Galtieri is one of  
them -- it will be involved in Arg. politics -  
Do we want to reward their specific  
behavior?

We be careful about assuming that they will  
do what possible in favor. Conceivable they may  
have some marginal flexibility still. We  
should take signals as first. Then think they  
around.

JB Announced and still in need. Spends  
also on lawsuit.

DA But we get it hard on them - will we  
let them but it?

We nobody else is cooperating either  
only Galtieri - he was instrumental on Olympics -

SK Should maintain under rd. - but we  
should get to trial of her if it undercuts  
our efforts in NP.
