

NARA Competency Model

BC - Financial Resources Division

Financial Analyst (Costing) GS-14

Note: Competencies noted as "Not for selection" were rated as important to the job, but not required on entry and thus not to be used for screening candidates.

Core Competencies

Problem Solving (Thinks Strategically)

Analyzes and integrates trends and patterns based on diverse information and perspectives to determine the root causes of problems, identify the best course of action, and prioritize efforts. Develops new insights and formulates creative solutions, considering the impact and implications of recommendations in the context of overall goals and objectives. Encourages and engages in the development of innovative ideas to enhance organizational efficiency, effectiveness, and productivity.

Interpersonal Skills (Builds Networks and Alliances)

Develops and maintains networks and alliances to share information, promote collaboration, and optimize individual and organizational effectiveness. Values teamwork and encourages and leverages the capabilities and perspectives of all individuals, regardless of background, culture, style, and view. Analyzes own organization to determine key relationships that should be initiated or improved to better meet current or future goals.

Execution and Results (Drives Performance and Results)

Prioritizes, organizes, and manages time, actions, resources, and initiatives to ensure the successful completion of responsibilities and requirements. Anticipates and leverages the interrelationship among functions, departments, and agencies to determine agency needs. Continues to pursue excellence until goals and objectives are met, focusing efforts on removing challenging obstacles and adapting to changing priorities and increasing complexity.

Customer Service (Fosters a Customer-Focused Environment)

Builds and maintains an environment that is creatively challenged by and responsive to customer experiences and needs. Creates clarity within the organization of what successfully meeting customer needs looks like. Makes adjustments in work processes and priorities based on continuously reevaluating how well customer needs are being met. Builds own and others' capabilities in meeting customer needs and resolving customer issues.

Communication (Communicates with Impact)

Engages and excites others by communicating in a compelling manner with words and actions. Openly listens to issues, problems, or unpopular points of view and states opinions in a manner that encourages dialogue. Is confident, poised, and articulate when presenting information and targets communications to the level of the audience. Prepares, reviews, and finalizes documents and presentations to ensure they are cogent, accurate, well organized, considering organizational and audience needs and expectations.

Organizational Awareness (Leverages Organizational Awareness) (Not for selection)

Identifies and communicates the interrelationship between the agency's mission and function and best practices related to implementing agency programs, policies, procedures, rules, and regulations. Assesses organizational issues and develops a clear understanding of internal and external environments in order to identify emerging trends that impact the achievement of NARA's mission and goals. Identifies and analyzes internal and external developments, considers their impact on and implications for the agency's business, customers, and work products, and applies this information to accomplish objectives.

General Competencies**Influences/Negotiates with Others**

Promotes ideas and proposals persuasively. Shapes others' opinions, convinces or persuades others, and gains support through own actions/examples or persuasion in an ethical manner. Achieves mutually satisfying agreements in negotiations with others by listening to different objectives, effectively communicating own objectives, and seeking common ground and collaborative situations.

Leads Teams

Leads teams of diverse individuals that can work collaboratively to achieve business objectives, openly communicates, discusses, and works through team objectives, and promotes shared accountability for individual and team performance. Promotes coordination and teamwork, leverages team members' strengths and weaknesses, and takes steps to optimize team performance. Celebrates team successes, evaluates setbacks, and implements processes and approaches to continually improve performance and results.

Embraces Continual Learning

Seeks opportunities to expand knowledge and skills through formal and informal education, training, and feedback. Identifies and leverages own strengths and developmental needs and strives to improve own skills. Acquires new knowledge related to business, professional, and technological changes and developments. Demonstrates and supports continual learning, and shares knowledge and expertise with others.

Utilizes Computer Technology

Utilizes computer technology and software applications (e.g., word processing, spreadsheets, databases, web-based tools) to perform work activities. Applies technologies and/or tools to improve work, productivity, or customer service.

Demonstrates Business Savvy

Uses workload, performance, statutory requirement, and customer satisfaction data to evaluate the costs, benefits, risks and impact when making decisions. Drives program results by planning and prioritizing activities consistent with organizational goals. Promotes ideas that improve performance.

Technical Competencies**Legal, Government, and Jurisprudence**

Knowledge of laws, legal codes, precedents, government regulations, executive orders, agency rules, government organization and functions, and the Federal budget process.

Compliance

Knowledge of procedures for assessing, evaluating, and monitoring programs or projects for compliance with Federal laws, regulations, and guidance.

Internal Controls

Knowledge of the principles, methods, and techniques for establishing internal control activities (for example, authorizations, verifications, reconciliations), monitoring their use, and evaluating their performance (for example, identification of material weaknesses or significant deficiencies).

Control of Funds

Knowledge of the principles, procedures, and requirements for maintaining control and accountability of obligations and expenditures for all appropriations and fund accounts (for example, revolving, non-appropriated, multiyear, and single-year appropriations).

Financial Systems

Knowledge of the standards, architecture, and specifications of automated financial systems, including source documents, system flows, system interfaces, and related internal controls.

Financial Analysis

Knowledge of the principles, methods, and techniques of financial analysis, forecasting, and modeling to interpret quantitative and qualitative data; includes data modeling, earned value management, and evaluating key financial indicators, trends, and historical data. Providing recommendations to stakeholders on financial or accounting issues.

Budget Administration

Knowledge of the principles and practices of budget administration and analysis. This includes preparing, formulating, justifying, reporting on, managing, and executing the budget. Also includes understanding the relationships among program, budget, accounting, and reporting systems.

Auditing & Audit Reporting (Not for selection)

Knowledge of generally accepted auditing standards and procedures for conducting financial and compliance, economy and efficiency, and program audits.

Financial Reporting

Designing and creating quarterly, annual, and ad-hoc reports or other financial statements for OMB, upper management, or other stakeholders.

Budgetary Accounting and Control

Knowledge of the basic principles, practices, and methods of budgetary accounting to include linkages among appropriations, warrants, apportionments, commitments, allotments, obligations, expenditures, and accruals.

Cost Estimation and Analysis

Knowledge of the principles, practices, and methods used to determine, estimate, and analyze costs, including determining life cycle costs, cost benefit analysis, and application of cost models.

Principles of Accounting

Knowledge of generally accepted accounting principles, standards, and practices, including the full accounting cycle and the preparation of work sheets, financial statements, ledgers, and journals.

Cost Accounting

Knowledge of the principles, procedures, and methods of cost accounting, including the use of historical cost, market value, or present value to measure cost; methods for assigning cost to accounting periods; and cost allocation, cost accrual, depreciation, and unit cost.

Accounting Operations

Knowledge of general ledger accounting and the control/subsidiary account relationships and reconciliation techniques, including accounts receivable, accounts payable, and disbursing officer's accountability.

Principles of Finance

Knowledge of the basic principles, practices, and methods of financial management to include investments, cash management, and activity reporting.
