Record Group Explorer Missions for Citizen Archivists

In our last newsletter, we announced a new pathway to view and explore the records of the National Archives: the Record Group Explorer. You can use this tool to see an overview of the scans of records currently available in our Catalog, organized by Record Group and format.
To celebrate the launch of the Record Group Explorer, we've created special missions for each Record Group. Give the Explorer a try while contributing as a citizen archivist! Jump in and help tag and transcribe Records from the U.S. Secret Service and the Records of the Government of the District of Columbia. We'll feature additional Record Groups for future missions.

Each of your contributions to these records will help unlock history and make them easier to find in our Catalog for other users.
