NAS FORT WORTH. THEY CAN SUSTAIN 4 F-16 ON 15M FOR UP TO 2 WEEKS. WE WOULD
LIKE TO KEEP VFA-201 ON RPI FOR A F-18. ADDITIONALLY, BUCKLEY HAS REQUESTED
THAT THEIR LINE REFLECT 8 AIRCRAFT. THAT'S WHAT IT REQUIRES TO MAN BOTH OF
THEIR CAPS - DENVER AND COLORADO SPRINGS. rmh

01 09 13 10:24:00 <CONR_CCO> WADS, can you elaborate on reason why VFA 201 is having difficulty keeping 4 jets on status?*
01 09 13 10:28:29 <CONR_CCO> WADS - Will call you for more info about Carswell (VFA 201) Regarding the second issue - Buckley is to keep 4 on status. Only one cap required, at Denver.
01 09 13 10:29:15 <CONR_CCO> Cap at CO Springs is not required, CONR DO sends. Highly unlikely that Cheyenne mtn could be threatened by an airborne threat.

01 09 13 10:31:20 <WADSFO2> COPY BUCKLEY REQUIREMENT OF ONLY DENVER CAP - WILL PASS.
01 09 13 10:32:18 <CONR_CCO> - Ops that If VF 201 is unable to meet ATO tasking then CONR DO will direct an ATO change and task the 301 FW.
Understand that airborne CAPs will almost certainly be eliminated today, and only ground alert will remain.

.WADSFO2: ATO CHANGE REQUEST: REPLACE VFA-201 WITH 301st FW AT NAS FORT
WORTH
THEY CAN SUSTAIN 4 F-16 ON 15M FOR UP TO 2 WEEKS. WE WOULD LIKE TO KEEP
VFA-201 ON RPI FOR A F-18. ADDITIONALLY, BUCKLEY HAS REQUESTED THAT THEIR
LINN REFRACT 8 AIRCRAFT. THAT'S WHAT IT REQUIRES TO MAN BOTH OF THEIR CAPS -
DENVER AND COLORADO SPRINGS. rmh
'Connor_CCO': copy your message. I'll have some people look at it and get back to
you - like
'Connor_CCO': WADS. can you elaborate on reason why VFA 201 is having difficulty
keeping 4 jets on status?
'Connor_CCO': WADS. Will call you for more info about Carswell (VFA 201).
Regarding the second issue - Buckley is to keep 4 on status. Only one cap
required at Denver.
'Connor_CCO': Cap at CO Springs is not required. CONR DO sends. Highly unlikely
that Cheyenne mtn could be threatened by an airborne threat.

'Connor_CCO': Copy that. If VF 201 is unable to meet ATO tasking, then CONR DO
will direct an ATO change and task the 301 FW. Understand that airborne
CAPS will almost certainly be eliminated today, and only ground alert will
