Instant installation is one of five tesurs we are operating at specific request of 50X1,6 and coverage is not charged to Domestic Intelligence Division on Bureau's quota of 50. Its continuation does not increase the total number of 46 Bureau technical surveillances approved and operating (three additional approved and awaiting installation).

62-77787-376

Tensions 50X1, 6 continue with no indication of abatement in near future. Coverage can be expected to continue to produce data vital to high-level policy decisions by U.S. Government relative to this critical international arena. Installation should be continued to assist in fulfilling our responsibilities for collection of foreign political intelligence.

RECOMMENDATION:

That tesur 50X1, 6
50X1, 6 be continued for three-month period, effective 12/21/70. If approved, attached memorandum for the AG seeking his authorization for continuance will be sent.
