01/09/12 19:28:35 <CONR\_DCO> WADS FO: Got some feedback from Hill F-16s today, widow 21: when he arrived on station there were already two other two-ship CAPS there, E-3 pilots had trouble authenticating, needed effective backup (DCO comment: Use the words of the day), NAS Fallon did not expect Hill's aircraft to be where they were when they were. Fallon tracked their "suspicious" jets until they were satisfied they weren't actually terrorists bent on more destruction.//scu//  
01/09/12 19:29:18 <CONR\_DCO> WADS FO: Just feedback...I think it's whining...they should come down to see how busy you are!!!!//scu//  
01/09/12 19:29:27 <NBMC\_FIDO> CONR\_DCO: yes, we received the slides. Note: we count 26 bases on COA 2 and 25 on COA 3. Is Eglin part of COA 2 or a mistake?
