Getting Started in ERA 2.0

Records Schedules Created Pre-ERA 2.0
Records schedules created prior to ERA 2.0 that have not been approved require additional action. Appraisal archivists must return the schedule for revision. Agency users must then reassign the schedule, complete new required fields, and certify the schedule back to NARA.

- **Reassign Record Schedules** - Certifying Officials must reassign pending and draft schedules to a user. This is a one-time clean up that can be done using the following procedures:
  - Check both the “Unassigned Tasks” and “My Team’s Tasks” for Drafts and Pending schedules
  - For each schedule, select the vertical ellipses and then select “reassign”
  - Select a user from the dropdown
  - Select the “Confirm” button. Schedule will be reassigned to that user

- **Complete new required fields for each records schedule item.** See [ERA 2.0 Job Aid: Create and Edit Items](#)
  - General Information section:
    - Is this item a **Big Bucket**?
  - Permanent Items: Additional Information section
    - Are any records by this item subject to a FOIA exemption? If yes, select from dropdown
    - Update Additional Information:
      - Records Format
      - Volume
    - Confirm frequency of transfer is correct
  - Temporary Items: Additional Information section
    - Are any of the records covered by this item national security classified?

- **Make any additional revisions to the schedule as necessary**

- **Certify revised schedule to NARA**
  - Records Schedulers see [ERA 2.0 Job Aid: Submit for Certification](#)
  - Certifying Officials see [ERA 2.0 Job Aid: Certify a Records Schedule](#)
