## Chartering Freedom

The simple truth at the heart of the American Revolution is that people are born with certain natural rights, including “Life, Liberty and the pursuit of Happiness.” These and other rights of the American people are secured by this nation’s founding documents, known collectively as the Charters of Freedom: the Declaration of Independence, Constitution, and the Bill of Rights.

The documents reproduced in this exhibition chronicle the creation of the Charters and their impact on events in this country and around the world. They reveal the story of earlier generations of Americans who had both the vision to see a better world and the audacity to build it.

## Exhibition Details

### Content:

19 original-size framed facsimile documents, text and identification labels

### Curator:

Alice Kamps, National Archives

### Supplemental Materials:

Educational and promotional resources, including an education and resource guide, marketing resources, installation manual, and exhibit-related products through the National Archives Store.

### Rental Fee:

\$1,500 for 7-week display

### Security Requirements:

Limited security and environmental controls

### Shipping:

Exhibitor is responsible for all outgoing shipping costs

### Size:

100 linear feet

### Number of Crates:

2

### Insurance:

Insured by the National Archives

### Tour Dates:

*Chartering Freedom* is available for tour through 2021. Dates are subject to change.

### Project Status:

On the road

## More About this Exhibition

“Chartering Freedom” is an exhibition featuring reproductions of the Charters of Freedom and other milestone documents that chronicle the conception, creation, and implementation of the Founding Fathers’ vision.

### *Chartering Freedom*

The challenge facing Americans was to translate the guiding spirit of the Revolution—beliefs in political self-determination and personal liberty—into a viable, durable scheme of government.

### *The Declaration of Independence*

The Declaration announced to the world in 1776, that 13 British colonies in North America were leaving Great Britain. In justifying revolution, it gave voice to the ancient longing of the human soul—for freedom.

### *The Constitution of the United States*

The Constitution, drafted in 1787 after a hard-won victory in the War for Independence, codified the spirit of the Revolution into an ingenious practical scheme of government to promote the welfare of its citizens.

### *The Bill of Rights*

The Bill of Rights, added to the Constitution in 1791 as the first 10 amendments, explicitly protected freedom of speech, of the press, of religion, and of assembly, among many other freedoms.

These documents represent a monumental achievement of the nation’s Founders, who believed their cause held the promise of liberty for all mankind. The principles established in the Charters have bound the nation together through more than two centuries of growth and turmoil.
