

517/611

ATCSCC (Air Traffic Control System Command Center)

Air Traffic Control System Command Center is located in Herndon, Virginia. It is the only facility of its kind which strategizes, and manages the flow of air traffic, and also oversees the entire monitoring process.

DCC	Herndon Command Center
-----	------------------------

ARTCC (Air Route Traffic Control Center)

Air Route Traffic Control Center. A facility established to provide air traffic control service to aircraft operating on IFR flight plans within controlled airspace and principally during the en route phase of flight. When equipment capabilities and controller workload permit, certain advisory/assistance services may be provided to VFR aircraft. There are 20 ARTCCs in the continental U.S.

ZAB	Albuquerque Air Route Traffic Control Center
ZAU	Chicago Air Route Traffic Control Center
ZBW	Boston Air Route Traffic Control Center
ZDC	Washington (DC) Air Route Traffic Control Center
ZDV	Denver Air Route Traffic Control Center
ZFW	Fort Worth Air Route Traffic Control Center
ZHU	Houston Air Route Traffic Control Center
ZID	Indianapolis Air Route Traffic Control Center
ZJX	Jacksonville Air Route Traffic Control Center
ZKC	Kansas Air Route Traffic Control Center
ZLA	Los Angeles Air Route Traffic Control Center
ZMA	Miami Air Route Traffic Control Center
ZME	Memphis Air Route Traffic Control Center
ZMP	Minneapolis Air Route Traffic Control Center
ZNY	New York Air Route Traffic Control Center
ZOA	Oakland Air Route Traffic Control Center
ZOB	Cleveland Air Route Traffic Control Center
ZTL	Atlanta Air Route Traffic Control Center

ATCT (Air Traffic Control Tower)

Airport Traffic Control Tower. A terminal facility that uses air/ground communications, visual signaling, and other devices to provide ATC services to aircraft operating in the vicinity of an airport or on the movement area. Authorizes aircraft to land or takeoff at the airport controlled by the tower or to transit the Class D airspace area regardless of flight plan or weather conditions (IFR or VFR). A tower may also provide approach control services (radar or nonradar).

CRW	Charleston ATCT/TRACON, West Virginia
CLE	Cleveland ATCT/TRACON
LAN	Lansing, Michigan ATCT
TEH-MMU	Morristown Munciple ATCT

TRACON

A Terminal radar Approach Control facility, usually located within the vicinity of a large airport. Typically, the TRACON controls aircraft within a 30-50 nautical mile radius of the airport between the surface and 10,000 to 15,000 feet. A TRACON is sometimes called Approach Control or Departure Control in radio transmissions. Note: In the US Air Force, it is known as RAPCON (Radar Approach Control) and in the US Navy as RATCF (Radar Air Traffic Control Facility).

A90	Boston TRACON
CLE	Cleveland TRACON/ATCT
CRW	Charleston TRACON/ATCT
K90	Cape TRACON, Falmouth Massachusetts
N90	New York TRACON
PCT	Potomac TRACON
RSW	Fort Myers TRACON/ATCT

Flight Service Station

Flight Service Station. Air traffic facilities which provide pilot briefing, en route communications and VFR search and rescue services, assist lost aircraft and aircraft in emergency situations, relay ATC clearances, originate Notices to Airmen, broadcast aviation weather and NAS information, receive and process IFR flight plans, and monitor NAVAIDs. In addition, at selected locations, FSSs provide En Route Flight Advisory Service (Flight Watch), take weather observations, issue airport advisories, and advise Customs and Immigration of transborder flights.

EKN AFSS	Elkins (WV) Flight Service Station
MIV AFSS	Millville (NJ) Flight Service Station
DCA AFSS	Washington (DC) Flight Service Station
ISP AFSS	New York Flight Service Station
BDR AFSS	Bridgeport Flight Service Station

Miscellaneous Terms and Definitions

A1	Air Force One
ADS-B	Automatic Dependent Surveillance - Broadcast
ANE ROC	New England Region Operations Center
Mode 1	Transponder utilized by the military only
Mode 5	Transponder provides cryptographically secured version of Mode S, used by military and civilian
Mode C	Transponder report aircraft pressure altitude used by military and civilian
Mode S	Transponder provides multiple aircraft information used by military and civilian
SAR Tape	recording medium used at ARTCC
UTC	Universal Time Coordinate

14 Code of Federal Regulations

Aircraft Registration

Legend for Aircraft: N preceding a registration number denotes United States Registry. Listed below are the letters identifying the specific country for each international registration.

B - China F - France JA - Japan XA, XB - Mexico
 C - Canada G - United Kingdom VRH - Hong Kong
 D - Germany HZ - Saudi Arabia VRB - Bermuda

GKILLER	Fleet Area Control and Surveillance Facility Virginia Capes
HUNTRESS	Northeast Air Defense Center, 24th Air Division
N116RH	Model: Beech A45; registered to Spitfire USA Limited
N198FT	Model: Piper PA-28-161; registration, exported to Dominican Republic
N334AA	AAL11 - Model: Boeing 767-223ER
N41PH	Type: Helicopter, Model: Bell 206B, registration USA
N424RK	Model: 560 A Commander, registration: USA
N5132C	Model: Cessna T210N registered to Bernard A. Heckman MD
N555TV	Type: Helicopter, Model: Bell 206L-3, registration USA
N57062	Model: Aero Commander, registration: USA
N591UA	UAL93 - Model: Boeing 757-200
N612UA	UAL175 - Model: Boeing 767-222ER
N644AA	AAL77 - Model: Boeing 757-223
N7030J	Type: Helicopter Model: R44 registration US
N71873	Model C90GT, registration exported to Brazil
N801WB	Model: Hawker 800XP; registration: exported to Mexico

RADAR Terminology

ARSR	Air Route Surveillance Radar
ARTS	Automated Radar Terminal System
beacon	the secondary tracking system using the transponder and radar site
primary	the tracking of position and velocity using radio wave reflection from the surface of the aircraft or object in flight, also referred to as raw radar data.
raptor	playback radar tool
track plot	points on the radar tracking the aircraft' route

RADAR Data
