U.S. Coast Guard**

Lifesaving Station Logbooks, 1874-1942

These series consist of logbooks containing daily entries for the lifesaving stations in the Cleveland, Jacksonville, Norfolk, and New Orleans Districts. The logbook pages consist of a form with space for mandatory entries such as weather and surf conditions, number and types of ships and vessels sighted, lookouts and patrols stood, crew absences and substitutions, vessels boarded and reported, shipwrecks and assistance rendered, lives saved, cases of resuscitation, and daily crew drills. Routine and mundane activities such as housekeeping tasks, mail runs, surf-boat repairs, raising and lowering the flag, acquiring fuel for the lights, and testing the Lyle gun were recorded on a separate page. Major rescues or significant events that needed additional space to record information often had pages inserted for a specific date in the logbook.

Cleveland District

Louisville, 1881-1941, 29 Boxes

Jacksonville District

Bethel Creek, 1879-1929
Biscayne, 1888-1927
