Marking of Electronic Records Archive (ERA) Deliverable Information. Unless otherwise specified or waived by the Contracting Officer, this ERA contract information is considered Source Selection Information - See FAR 2.101 and 3.104. Use, reproduction, distribution, disclosure or marking of information contained herein including technical data is not authorized except by the Contracting Officer in accordance with FAR (Subparts 3.104-4, 27.404(h), Contract Clause D2 (Marking of Contractor Reports), and Section I Contract Clause 52.227-14 (Rights in Data).  
Contract Number: NAMA-04-C-0007

## Introduction and Preface

This report is prepared to meet the requirements of Special Contract Requirement H.12, Notice to Offerors Regarding Deliverable Technical Data and Computer Software, Obligations Associated Therewith and Rights Therein.

The items identified in this report reflect the prospective components of the system architecture and design presented at the System Design Review. There have been no changes to the set of prospective software items since the last delivery of this report. This set of prospective software items will evolve through the Increment 1 Release 1 Preliminary Design Review.

Technical Data and Computer Software Documentation to be Delivered						
Manufacturer Name	Product Name	Version #	General Description of Purpose	Architectural State	Media	Exemptions Notes
Adobe	Acrobat	6.0	Dissemination-Redaction Workstation	Prospective	TBS	Note 1
Altova	XML Spy	2005	XML development tool for developer's desktops	Prospective	TBS	Note 1
Appligent	Redax	3.5	Dissemination-Redaction Workstation	Prospective	TBS	Note 1
BEA	WebLogic Platform	8.1	Records Management / Preservation / Dissemination/ LSC- Portal, Application, and Integration Servers	Prospective	TBS	Note 1
Business Objects	BusinessObjects	11	Reporting	Prospective	TBS	Note 1
BMC	Remedy Action Request System	6.x	Help Desk	Prospective	TBS	Note 1
Brocade	Advance Performance Monitoring (PM)		SAN management	Prospective	TBS	Note 1
Cisco	Cisco Works	2.5	Network management	Prospective	TBS	Note 1
Computer Associates	Unicenter Network and Systems Management (NSM) 3.x	3.x	Network and Systems Management	Prospective	TBS	Note 1

Source Selection Information -See FAR 2.101 and 3.104

CDRL Number: 28 - Deliverable Technical Data and Computer Software

07/21/2005

LOCKHEED MARTIN

Technical Data and Computer Software Documentation to be Delivered						
Manufacturer Name	Product Name	Version #	General Description of Purpose	Architectural State	Media	Escrow Notes
Computer Associates	Unicenter Management for Web Servers	3.x	Systems Management for Web Servers	Prospective	TBS	Note 1
Computer Associates	Unicenter Management for WebLogic, 3.x	3.x	Systems Management for BEA WebLogic Servers	Prospective	TBS	Note 1
Computer Associates	Unicenter NSM agents for UNIX	3.x	Systems Management for UNIX Servers	Prospective	TBS	Note 1
Computer Associates	Unicenter NSM Cisco Works integration module	3.x	Integration with Cisco Works	Prospective	TBS	Note 1
Computer Associates	Unicenter NSM Database Performance Monitor Option	3.x	Systems Management for Database Servers	Prospective	TBS	Note 1
Computer Associates	Unicenter NSM Systems Performance Option	3.x	Server resource management and capacity planning	Prospective	TBS	Note 1
Computer Associates	Unicenter NSM Desktop Management	3.x	Manage user desktop support	Prospective	TBS	Note 1
FairIsaac	Enterprise Decision Manager	2.x	Business Rules Management	Prospective	TBS	Note 1

Source Selection Information - See FAR 2.101 and 3.104
