ROLL OF HONOR

PARTICIPANTS IN YELLOW FEVER INVESTIGATIONS IN CUBA

The Secretary of War, Hon. Elihu Root, in his annual report, 1902, said with reference to the conquest of yellow fever in Cuba in 1900-1901:

"The brilliant character of this scientific achievement, its inestimable value to mankind, the saving of thousands of lives, and the deliverance of the Atlantic seacoast from constant apprehension, demand special recognition from the Government of the United States."

The Congress has, in concurrence with his opinion, by an act approved February 28, 1929, authorized and directed the Secretary of War to publish annually in the Army Register a Roll of Honor on which shall be carried the following names, and to define in appropriate language the part taken by each of these persons in the yellow fever investigation in Cuba. The same act provided that a gold medal be presented to each person named in the roll, or to the representatives of those who have died.

Reed, Walter. B—Va. 13 Sept. 51. A—Va. M. D. Univ., Va., 69 and Bellevue Med. Coll. N. Y. 72. Asst. surg. 26 June 75; accepted 3 July 75; capt. Asst. Surg. 26 June 80; maj. surg. 4 Dec. 93.

When sent to Cuba in June, 1900, at the head of the Yellow Fever Board of medical officers Major *Walter Reed* was already a distinguished man. In the Spanish-American War he had been at the head of another famous medical board which studied the camp epidemics of typhoid fever in the Army during that war, and made a great advance in our knowledge of the spread of that formidable disease in armies. He was professor of pathology and bacteriology at the Army Medical School, and also at the Columbian University in Washington, and stood high in his profession. In the work of the Yellow Fever Board he shared their labors and dangers, but his was always the originating, directing, and controlling mind. He died in Washington, D. C., November 23, 1902, following an operation for appendicitis.

Carroll, James. B—Eng. 5 June, 54. A—D. C. M. D. Univ. Md. 91. Pvt. corp. and sgt. Co. E 1 Inf. 9 Jan. 74 to 9 Jan. 79; pvt. sgt. and 1 sgt. Co. C 7 Inf. 22 Jan. to 14 Sept. 83; hosp. steward. 15 Sept. 83 to 21 May 98; cont. surg. 22 May 98 to 29 Oct. 02; asst. surg. 27 Oct. 02; accepted 30 Oct. 02; maj. surg. 6 Mar. 07; accepted 9 Mar. 07; died 16 Sept. 07.

Following his appointment as an acting assistant surgeon in 1898, Major *Carroll* was assigned to duty as assistant to Major *Walter Reed*. Early in the study of the agency of the mosquito as the transmitter of yellow fever, Major *Carroll* volunteered to be bitten by an infested mosquito. On August 31, 1900, he became ill and suffered a very severe attack of that disease. His was the first experimental case. He returned to Cuba a year later to make special studies of the blood of yellow-fever patients. He died in Washington, D. C., September 16, 1907, having been promoted to the grade of Major, Medical Corps, by special authority of Congress in recognition of his services as a member of the Yellow Fever Board.

Agramonte, Aristides. B—Cuba 3 June 68. M. D. Columbia Univ. 92. Cont. surg. 2 May 98 to 31 Aug. 00; and 11 Feb. to 15 June 03

Dr. *Agramonte* was born in Cuba, the son of a Cuban officer who fell in battle against the Spaniards. He was raised and educated in New York where his mother had taken refuge. He was serving with the Army in Cuba, in charge of the Army Medical Laboratory in Habana, when he was appointed a member of the Yellow Fever Board. His special qualifications as a pathologist, and his energy and ability contributed greatly to the success of the board. Of special value were his contributions to the demonstrations by the board disproving the then generally accepted theory that the bacillus *icteroides* was the causative agent of yellow fever. He died August 18, 1931, in New Orleans, La., where he was professor of tropical medicine in the Louisiana State University.

Lazear, Jesse W. B—Md. 20 May 66. M. D. Columbia Univ. 92. Cont. surg. 5 Feb. to 25 Sept. 00.

Following graduation from the University of Maryland in 1892, Dr. *Lazear* did post-graduate work at the Pasteur Institute in Paris, and at Johns Hopkins University, specializing in mosquitoes and their relation to malarial infections. When the Yellow Fever Board was organized he was already in Cuba on duty with troops, and was studying yellow fever. He had charge of the mosquito work of the board when he contracted yellow fever while visiting yellow fever patients in order to infect mosquitoes for experimental purposes. He died, September 25, 1900, of this disease, a martyr to science. By his special knowledge and brilliant scientific attainments, as well as by the invaluable notes of his observations made in the last weeks of his life which he left, he contributed in the highest degree to the successful outcome of the investigation.

Andrus, John H. B—Pa. 7 Oct. 79. Pvt. Co. L 5 N. Y. Vol. Inf. 1 May to 10 Dec. 93.—Pvt. Btry. F 2d Arty. and pvt. Hosp. C. 25 Apr. 99 to 24 Apr. 02; died 1 May 42.

John H. Andrus, private, Hospital Corps, although not immune, voluntarily nursed cases of yellow fever during an epidemic at Guanajay Barracks. Later, at Columbia Barracks, he was detailed for duty in Major *Reed's* laboratory. He became interested in the work of the Board, volunteered for experiment and was infected with yellow fever by an injection of blood from an experimental case. He became ill January 28, 1901, being the twelfth case in the series of cases at Camp Lazear. He left the Army April 24, 1902, with character excellent.

Bullard, John R. B—Mass. 5 July 72.

John R. Bullard, a graduate of Harvard University, at which institution he was a distinguished athlete, came to Cuba and was treated by Dr. *James Carroll* at Columbia Barracks for malarial fever. Becoming interested in the yellow-fever work, he volunteered and received, on October 15, 1901, an injection of the filtered blood of a Spaniard, an experimental case. The blood serum injected was the same as that employed in the cases of Privates *Covington* and *Hamann* and at the same time. Slight fever and discomfort were caused, but no illness. A week later, he received a blood injection from the veins of Private *Hamann*, who had been infected by the injection of filtered blood, and became ill with yellow fever, October 23, 1901. Having thus become immune, he continued to reside in Cuba after his recovery.

Cooke, Robert P. B—Va. 12 Oct. 74. Midshipman U. S. Naval Academy 6 Sept. 92 to 14 Feb. 95; M. D., Univ. of Va., 97; actg. asst. surg. U. S. Robert P. Cooke entered the Medical Service of the Army June 9, 1900, and was on duty at Pinar del Rio during the yellow-fever epidemic in the garrison there. He volunteered for the experiments at Camp Lazear and with two privates, Folk and Jernegan, were the first to undergo the trying ordeal of sleeping 21 successive nights in the soiled bedding used by yellow-fever patients. This was to determine whether the disease could be transmitted by infected bedding, clothing, and other objects. This experiment was of vast importance not only in making clear the method of transmission of the disease, but to the commerce of the world.

Albert W. Covington volunteered for experiment in the third series of cases when it was well understood that yellow fever would be the result. On October 15, 1901, he was given a subcutaneous injection of 3 cubic centimeters of the diluted and filtered blood serum from an experimental case of yellow fever. He became ill October 19 with a typical attack of yellow fever, from which he made a good recovery, and was returned to duty with his battery. He remained in service 25 years thereafter, being retired on August 23, 1926. He died April 20, 1934, in Gorgas General Hospital, Ancon, Canal Zone.

The case of William H. Dean was the second case of experimental yellow fever, being that which convinced the board that the theory of its conveyance by mosquitoes was well grounded, and being mentioned in their preliminary report as the Case X, Y. He volunteered and was bitten August 31, 1900, by the same mosquito which had infected Major Carroll four days before. He was also bitten by two other mosquitoes which had bitten a fatal case of yellow fever 12 days before, and a fourth mosquito which had been fed on three severe cases of yellow fever. He left the military service, August 17, 1902, with an excellent character, and died May 3, 1928.

Thomas M. England enlisted for the Spanish War and came to Cuba with the VII Army Corps. He volunteered for the experiments at Camp Lazear, and underwent the trying ordeal of sleeping 20 nights in the bed formerly occupied by a yellow-fever patient, and in the garment worn by him. His head lay on a towel stained with the blood of a case of yellow fever. He remained in the Army, serving in all the noncommissioned grades of the Medical Department, and won his commission in that department during the World War.

Levi E. Folk volunteered for the experiments at Camp Lazear, and with two others, first underwent the long and trying ordeal of sleeping 21 consecutive nights in the soiled bedding and clothing of yellow-fever patients. This experiment was of vast importance commercially as well as scientifically, as it upset the accepted belief as to how the disease was transmitted, and resulted in the abolition of expensive and useless disinfections. He later was bitten by infected mosquitoes, and on January 23, 1901, suffered an attack of yellow fever of moderate severity, this showing that he was nonimmune at the time of the former experiment. He was retired in 1923 after 25 years of honorable service. He died February 9, 1936, in Columbus, Ohio.

Wallace W. Forbes volunteered for experiment and received January 22, 1901, an injection of half a cubic centimeter of blood from a case of experimental yellow fever. Two days later, he became ill and suffered a severe attack of yellow fever. He was honorably discharged from the Army four years later.

Paul Hamann volunteered for experiment, being one of the third group of volunteers, and was infected by Major Carroll with filtered blood serum at the same time with Private Covington. He became sick on October 19, 1901, and suffered a moderately severe attack of yellow fever. He was discharged from the service, July 19, 1902, with character excellent. He died January 1, 1933, in Moline, Illinois.

James E. Hanberry volunteered for experiment, and was one of the group who slept 21 consecutive nights on bedding which had been used by yellow-fever patients, and was soiled with their bloody discharges. He also wore at night the soiled garments of the sick. Some weeks after this disagreeable, and as it was then thought dangerous, experience, he was bitten by the same two mosquitoes which had a few days before infected a companion, and on February 9, 1901, came down with a severe attack of this painful disease. He left the service in 1902.

James Hildebrand served in the Spanish War and came to Cuba with the VII Army Corps. He volunteered for the experiments at Camp Lazear, and with England underwent the trying ordeal of sleeping 20 nights, January 11 to 31, 1901, in the bed and garment used by a yellow-fever patient, and with his pillow covered by a towel stained with yellow-fever blood. Hildebrand then offered to be bitten by infected mosquitoes, but Major Reed refused to permit this as he was much older than the other volunteers, and the mortality in yellow fever is much increased with age. He was discharged August 17, 1914, with character excellent. He died March 4, 1935, at Veterans' Administration Facility, Atlanta, Ga.

Warren G. Jernegan volunteered for the experiments at Camp Lazear, and with two others, first underwent the long and trying ordeal of sleeping 21 consecutive nights in the soiled bedding and clothing of yellow-fever patients. This was to determine whether the disease could be transmitted by infected bedding, clothing, and other objects. This experiment was of vast importance not only in making clear the method of transmission of the disease, but to the commerce of the world. He then, on December 28 and 29, 1900, submitted to the bites of infected mosquitoes, but escaped infection. On January 4, 1901, he received an injection of blood from a case of experimental yellow fever (Martinez) and suffered a sharp attack of that disease, being the first case infected in this manner. He left the military service at the expiration of his enlistment with character excellent, and went to Panama, where he was employed in the Canal service for a number of years. He died February 5, 1919, in Charleston, S. C.

John R. Kissinger and John J. Moran were the first to volunteer of those who underwent the conclusive experiments at Camp Lazear where they occupied the same tent. On November 20, 1900, he was bitten by three infected mosquitoes. On November 23 he was bitten by one of the same three and on December 5 he was again bitten by five mosquitoes, two of which had been infected by fatal cases. On December 9 he became ill and suffered a typical attack of yellow fever. His was the first case of experimental yellow fever in the series at Camp Lazear. Of him, Major Walter Reed said: "In my opinion, this exhibition of moral courage has never been surpassed in the annals of the Army of the United States." He was discharged from the service, November 14, 1901, with character excellent.

John J. Moran was employed as a clerk at the department headquarters at Marianao, Cuba. He there did clerical work for Major Reed and became interested in the work of the Yellow Fever Board. He and Kissinger were the first to volunteer for the conclusive series of experiments at Camp Lazear. He was bitten on November 26 and 29, by infected mosquitoes, but without result. On December 21, 1900, he twice visited the infected mosquito room, and again next day, and was repeatedly bitten. On Christmas Day he became ill, and suffered a well marked and severe attack of yellow fever. Moran refused to accept the bonus which was given by the Governor of Cuba to each volunteer, stating that he was glad to be able to do this service to humanity. He was discharged from the service, July 2, 1900, with character excellent. He served for some years at Panama during the construction of the Canal, and was commissioned a captain in the United States Army (Emergency Forces) during the World War.

William Olsen enlisted for the Spanish War and came to Cuba where he volunteered for the experimental work of the Yellow Fever Board at Camp Lazear. He was one of a group of four who were given injections of blood from a case of experimental yellow fever at the camp (the Spaniard Martinez) in order to decide certain questions of scientific importance. He was taken ill with yellow fever January 11, 1901. He was discharged on expiration of his enlistment November 15, 1901, with character excellent. He died September 10, 1932, in Los Angeles, Calif.

Charles G. Sonntag volunteered for the experiments at Camp Lazear, and was bitten by two infected mosquitoes and came down with yellow fever February 10, 1901, being the last case in the series at Camp Lazear. He took his discharge December 12, 1901, with character very good. He died February 19, 1937, in Sandy Run, S. C.

Edward Weatherwalks enlisted for the Spanish War and came to Cuba with the VII Army Corps. He volunteered for the experiments at Camp Lazear and underwent the trying ordeal of sleeping 21 nights, December 21, 1900, to January 10, 1901, inclusive, on bedding which had been used by yellow-fever patients and was soiled with their bloody discharges. He wore at night the soiled garments of the sick. As this experiment, like the other exposures to infected clothing, had no result, Weatherwalks was bitten on January 25, 1901, by 12 infected mosquitoes, but for some reason not known, escaped infection. He was discharged December 21, 1901, with character good, and died October 21, 1916.

Clyde L. West enlisted at Toledo, Ohio, for the Spanish War, and came to Cuba where, while serving at Columbia Barracks, he volunteered for the experiments at Camp Lazear. He was infected in the mosquito room by the bites of two mosquitoes which had bitten a case of yellow fever 51 days before. These caused a mild attack of yellow fever three days later on February 9, 1901. Six days later these same mosquitoes caused the very severe case of *Hanberry* in which his life for several days hung in the balance. He was discharged July 10, 1902, with character very good. He died July 17, 1943, at North Beach, Md.
