

ScanSnap

Install Guide

Step 1: Open a web browser and navigate to <http://scansnap.fujitsu.com/g-support/en/>

Step 2: Choose Software downloads

The screenshot shows a web browser window with the URL scansnap.fujitsu.com/g-support/en/. The page features the Fujitsu logo and a navigation menu. The 'Software Downloads' button is highlighted with a red circle. Below the navigation menu, there are five columns of links: Services, Products, Solutions, Support, and Corporate Information. The footer contains links for Terms of Use, Privacy Policy, Contact, and Site Map, along with the copyright notice 'Copyright 1995 - 2018 FUJITSU'.

Step 3: Choose ScanSnap SV600

The screenshot shows a web browser window with the URL `scansnap.fujitsu.com/global/dl/`. The page features the Fujitsu logo and a search bar. A breadcrumb trail reads: `Home > Support > Products > Computing Products > Peripheral Devices > Scanners > ScanSnap > Software Downloads`. The main heading is **ScanSnap Software Downloads**, followed by the instruction: "Select a scanner and an OS, and you will be directed to the appropriate Software Downloads page."

The page is divided into three steps:

- Step 1. Select a scanner.** A list of scanner models is shown, each with a radio button and a product image:
 - ScanSnap iX1500
 - ScanSnap iX500
 - ScanSnap iX100
 - ScanSnap S1300i
 - ScanSnap S1400i
 - ScanSnap SV600** (highlighted with a red circle)
- Step 2. Select Target OS.** A large empty rectangular box is provided for selection.
- Step 3. Click the button.** A button labeled "Display software list" is visible.

Below the scanner list, there are two links: [Supported Operating Systems](#) and [Supported Versions of Linked Software/Server](#). At the bottom of the page, a section for "Discontinued scanners" is partially visible.

The Windows taskbar at the bottom shows the time as 3:54 PM on 10/17/2018, with icons for various applications including Internet Explorer, File Explorer, and Microsoft Word.

Step 4: Choose Your Operating System then click display software list

The screenshot shows the Fujitsu website's 'ScanSnap Software Downloads' page. The page is titled 'ScanSnap Software Downloads' and includes a navigation menu with links for Services, Products, Solutions, Fujitsu Cloud, Support, and About Fujitsu. A breadcrumb trail reads: Home > Support > Products > Computing Products > Peripheral Devices > Scanners > ScanSnap > Software Downloads. The main content area is titled 'ScanSnap Software Downloads' and contains the following text: 'Select a scanner and an OS, and you will be directed to the appropriate Software Downloads page.' Below this, there are three steps: 'Step 1. Select a scanner.' with a list of scanner models (ScanSnap iX1500, iX500, iX100, S1300i, S1100i, SV600) and their corresponding images; 'Step 2. Select Target OS.' with a dropdown menu showing various operating systems (Windows 10, 8.1, 8, 7, Vista, XP, macOS Mojave v10.14, High Sierra v10.13, Sierra v10.12, OS X El Capitan v10.11, Yosemite v10.10, Mavericks v10.9, Mountain Lion v10.8, Mac OS X Lion v10.7); and 'Step 3. Click the button.' with a 'Display software list' button. Annotations include a red circle around the OS dropdown menu with a red arrow pointing to it and the text 'Choose this First' below; a blue circle around the 'Display software list' button with a blue arrow pointing to it and the text 'Choose this Second' below; and a red arrow pointing from the OS dropdown menu to the 'Display software list' button. At the bottom of the page, there is a section for 'Discontinued scanners' with two links: 'Supported Operating Systems' and 'Supported Versions of Linked Software/Server'. The browser's address bar shows 'scansnap.fujitsu.com/global/dl/' and the system tray at the bottom right shows the date and time as '3:54 PM 10/17/2018'.

Setup Programs

The following tables shows which ScanSnap software are available for download as complete versions.

Those using ScanSnap Manager

Attention
If you already use ScanSnap Home, the following softwares are not available. There is no need to download the software.

Software	Download	Release Date
ScanSnap Installer [*1]	Download	April 19, 2016
ScanSnap Online Update	Download	April 19, 2017
ScanSnap Receipt V1.5L41	Download	April 13, 2017
CardMinder V5.3L40	Download	April 13, 2017
ABBYY FineReader for ScanSnap™ 5.5	Download	April 13, 2017
Scan to Microsoft SharePoint V5.0.1	Download	November 27, 2014
Scan to Microsoft SharePoint V3.4.2	Download	September 9, 2014
Adobe® Acrobat® [*2]	Unavailable	

When the setup has completed, check for the latest updates and apply them all prior to using the scanner.

[*1]
ScanSnap Installer allows you to install ScanSnap Manager, ScanSnap Online Update, and ScanSnap Manuals.

[*2]
Third party software is not available for download because PFU is not authorized to distribute the software.

Those using ScanSnap Home

3:58 PM 10/17/2018

Step 6: Download ScanSnap Installer Setup Program

The screenshot shows a web browser window displaying the Fujitsu ScanSnap website. The browser's address bar shows the URL: `scansnap.fujitsu.com/global/dl/setup/w-sv600-inst.html?MODEL=5013`. The page title is "ScanSnap Installer Setup Program". The navigation menu includes "Services", "Products", "Solutions", "Fujitsu Cloud", "Support", and "About Fujitsu". The breadcrumb trail is: Home > Support > Products > Computing Products > Peripheral Devices > Scanners > ScanSnap > Software Downloads > ScanSnap Installer Setup Program.

The main heading is "ScanSnap Installer Setup Program". Below it, there are two tabs: "Download Programs" (selected) and "Installation Instructions".

The "Download Programs" section contains the following text: "Download the software to your hard disk by clicking the 'Download' link below." Below this text is a table with one row:

[Download] ScanSnap Installer Setup Program WinSSInstSV600WW1.exe (12,030,008 Bytes)

The download link and file name are circled in red.

Attention

The performance of rendering PDF files under the latest recommended system requirements for ScanSnap (CPU: Intel® Core™ i5 2.5 GHz or higher, memory size: 4 GB or more) has been improved. (*1)
Specifically, ScanSnap Organizer's rendering performance has significantly improved up to 200% compared to the previous version (the average time when scanned as color PDF files). (*2)

(*1): When compared to the value obtained using ScanSnap Manager V6.3 or older and ScanSnap Organizer V5.2 or older.
This improvement rate is available when rendering PDF files less than 1 GB (Note: 1 GB of data is roughly equivalent to 813 sheets of color documents scanned using the "Best" image quality setting.)

(*2): Improvement rate varies depending on document type and/or scanning mode settings.

Installation Instructions

For details on how to install, refer to [Installation Instructions](#).

Individual Installers

ScanSnap Installer installs the following software.
The individual installer for each of the software is available at the following webpage:

The Windows taskbar at the bottom shows the time as 3:41 PM on 11/8/2018.

Step 7: Locate the installer (it is usually located in your Downloads folder). Follow the instructions for install on your computer.

Step 8: Once software is installed on your computer, connect ScanSnap via the USB cable connected to ScanSnap and follow instructions on screen to complete setup.

Step 9: Begin Scanning.
