

ISOO Notice 2017-03: National Security Council (NSC) Partial Waiver for the Declassification Review of Certain White House and NSC Records

July 12, 2017

The Senior Director for Records Access and Information Security Management at the National Security Council (NSC) has directed declassification reviewers across the Federal Government not to refer selected classified information originated by the NSC and the White House to the NSC for declassification review.

Except for the categories listed below, agencies do not need to refer to the NSC staff for declassification review White House, NSC, and NSC-interest materials within their records created prior to January 20, 2001, that either were transferred to the National Archives and Records Administration (NARA) or are intended for transfer to NARA following declassification review. This notification extends the previously authorized period of the partial waiver through the second term of the William J. Clinton Administration. It includes all such records that are the subject of Executive Order (E.O.) 13526 Automatic Declassification, Systematic Declassification, or Mandatory Declassification Reviews, or Freedom of Information Act (FOIA) requests.

Any and all records that fall within the following categories of White House and NSC records (or third party agency records with a primary NSC equity), including preliminary drafts, that were created prior to January 20, 2001, must be referred to the NSC staff for declassification review:

- NSC numbered policy records: Presidential Decision Directives (PDD) and Presidential Review Directives (PRD), and their equivalents from earlier administrations, unless they were previously declassified (See Attachment A for a list of NSC Presidential policy directives on national security matters. See Attachment C, published as a separate link to this ISOO Notice, for a comprehensive list of declassified Presidential directives.);
- Minutes or summaries of NSC meetings, including all meetings of NSC sub-groups. (See Attachment B for a list of NSC sub-groups);
- Records filed with or pertaining to NSC numbered policy records or minutes or summaries of NSC meetings, as described above;
- Records relating to weapons of mass destruction that address:
 - Authorization to use weapons of mass destruction, or
 - The policy issue of “first use” of nuclear weapons;
- Any and all White House and NSC records relating to covert operations or activity, including all records pertaining to:

- Presidential Findings or “Findings”;
 - Memoranda of Notification (MON); and
 - White House or NSC meetings regarding covert activity;
- Any and all White House or NSC records identified by the NSC Records Access and Information Security Management Office as “System 3/INT,” (a series identified with log numbers 893001-9330005 in the George H. W. Bush Administration, or 9330001-0130012 in the Clinton Administration) or other records labeled “Limited Access”;
 - Any and all White House or NSC records identified by the NSC Records Access and Information Security Management Office as “System V” or Continuity of Government, including “COG”, “ECG,” or “COOP” labeled records; and
 - Any and all records containing White House or NSC equity that have been appealed under the FOIA or Mandatory Declassification Review procedures.

The remaining White House, NSC, or NSC-interest documents originating prior to January 20, 2001, that do not fall into one of the above categories, should be referred to all other equity agencies for their review, when appropriate, and in accordance with requirements in section 3.3(d)(3) of E.O. 13526. For White House and NSC documents that do not fall within one of the above categories but do contain another agency’s equity, your declassification reviewers are authorized to take final declassification action, provided a recommendation has been received from the agency holding the equity.

For White House and NSC documents (including drafts) that do not fall within one of the above categories and do not contain another agency’s equity, your declassification reviewers are authorized to declassify them, consistent with applicable standards.

This ISOO Notice cancels ISOO Notice 2013-04, “The National Security Staff (NSS) Partial Waiver for the Declassification Review of Select National Security Council and White House Classified Records.”

Please direct any questions regarding this ISOO Notice to: isoo@nara.gov.

**PRESIDENTIAL DIRECTIVES
List of Documents
Declassified in Full**

Overview

These Presidential Directives have been declassified in full. This list only refers to the actual directive (through the page with the signature of the President or the National Security Advisor). It does not include appendices or attachments.

There is one exception: Early policy documents - Truman the first year of the Eisenhower administration - often included a financial appendix and/or enclosures with the pagination continuing from the policy document. In these instances, the appendix and/or enclosures ARE considered part of the Presidential directive and do not need to be referred to the NSC if they are listed on this document. The Page count from these documents is included on the list below.

The attached lists include the following series of numbered Presidential Directives that have been declassified in full by the National Security Council staff.
