

Lisa Reidy

Vice President of Security, GDIT

Biography

Lisa Reidy serves as vice president of security at General Dynamics Information Technology (GDIT), a business unit of General Dynamics and a leading provider of technology and mission solutions to the U.S. government. In this role, she directs the enterprise security strategy that protects GDIT's employees and facilities across the globe, safeguarding the people and infrastructure behind some of the nation's most critical defense and intelligence missions.

With more than 30 years of security experience, Lisa brings a distinguished record of industry leadership. She chairs the WashingtonExec Chief Security Officer (CSO) Council and serves as an industry member of the National Industrial Security Program Policy Advisory Committee (NISPPAC), having previously served as the NISPPAC coordinator.

Lisa is the former chair of the Aerospace Industries Association (AIA) Industrial Security Committee and remains an active member of NCMS – the Society of Industrial Security Professionals. Lisa holds a Bachelor's degree in Business Management from the State University of New York at Binghamton and a Master's degree in Business Administration from Webster University.
