Washington, D.C. 20530

Dear Ed:

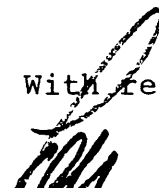

We are going to print with CITIZENS FOR AMERICA's three year review -- a report to our members and supporters nationwide. This document will include quotes about CFA from Cabinet members and senior White House officials. The President has already sent us a letter for publication in the report.

As you know, CFA has been behind you and the President, fighting for the Reagan agenda. We hope you will be able to provide a comment about our work for our three year review.

To save time, I have asked my Communications staff to produce a suggested draft which is enclosed.

Thank you for your help. Hope to see you soon.

With respect,

Lewis E. Lehrman

CITIZENS FOR AMERICA has helped to launch and sustain the peaceful Reagan Revolution. The President's success was made possible by a united America working to achieve his vision of freedom, prosperity, and a strong defense. CFA activists have played a significant role in the national public policy debate as advocates of President Reagan's legislative agenda.

THE WHITE HOUSE

WASHINGTON

May 8, 1986

I am delighted to send warm greetings to the officers and members of Citizens for America.

Three years after its founding, Citizens for America has become a powerful and effective grassroots voice for conservative reform. Jack Hume's vision of a citizens lobby waging a campaign of ideas across the country has been transformed into a vibrant national movement by Lew Lehrman.

During the past several years the American people, working together, have put this country back on track. And you, the members of CFA, have been at the forefront of this achievement. CFA has been with the Administration in the national debate on policies of economic growth and a strong national defense. Your work to create the climate for needed change will help America complete her great mission. I am very grateful for CFA's efforts to protect our nation by supporting the construction of the MX Missile and your work to inform our citizens and representatives in Congress about the very real threat of communism we face in Central America. On the domestic side, your work to help pass our FY 1987 Budget will go a long way toward making the Federal government live within its means -- and not burden American workers and families with any more unfair taxes.

As exemplars of that special American spirit of voluntarism, CFA will continue moving forward. You have recognized America's great unrealized potential, and with your support we will move ahead toward the fulfillment of America's destiny: to embody the dream of our Founding Fathers, a shining city on a hill, a model and a beacon to all who prize freedom and human dignity.

God bless you all.

Ronald Reagan
