REPORT OF THE TECHNOLOGY
COMMITTEE OF THE CHIEF
FOIA OFFICERS (CFO)
COUNCIL – BEST PRACTICES
AND RECOMMENDATIONS (5)

OIP Best Practices Workshop:
FOIA and Technology
Established Eight FOIA
Technology Working Groups
Finalizing Working Group
Charters

The eight Technology Committee Working Groups:

| | | | | | | | |
|---------------------|----------------|---------------|------------|-------------|---------------------------------|-------------------------|------------------|
| Collaborative Tools | 508 Compliance | FOIA Searches | FOIAXpress | FOIA Online | FOIA and Classified Information | Artificial Intelligence | Video Redactions |
|---------------------|----------------|---------------|------------|-------------|---------------------------------|-------------------------|------------------|

Each working group is finalizing a charter with the scope of its responsibilities and target milestones for its work.

Video Redaction Working Group: Five Early Findings

Video record retention schedules can vary.

Tools vary in complexity- Match the tool to the job.

Litigation can drive video redaction schedules and agency resource allocation.

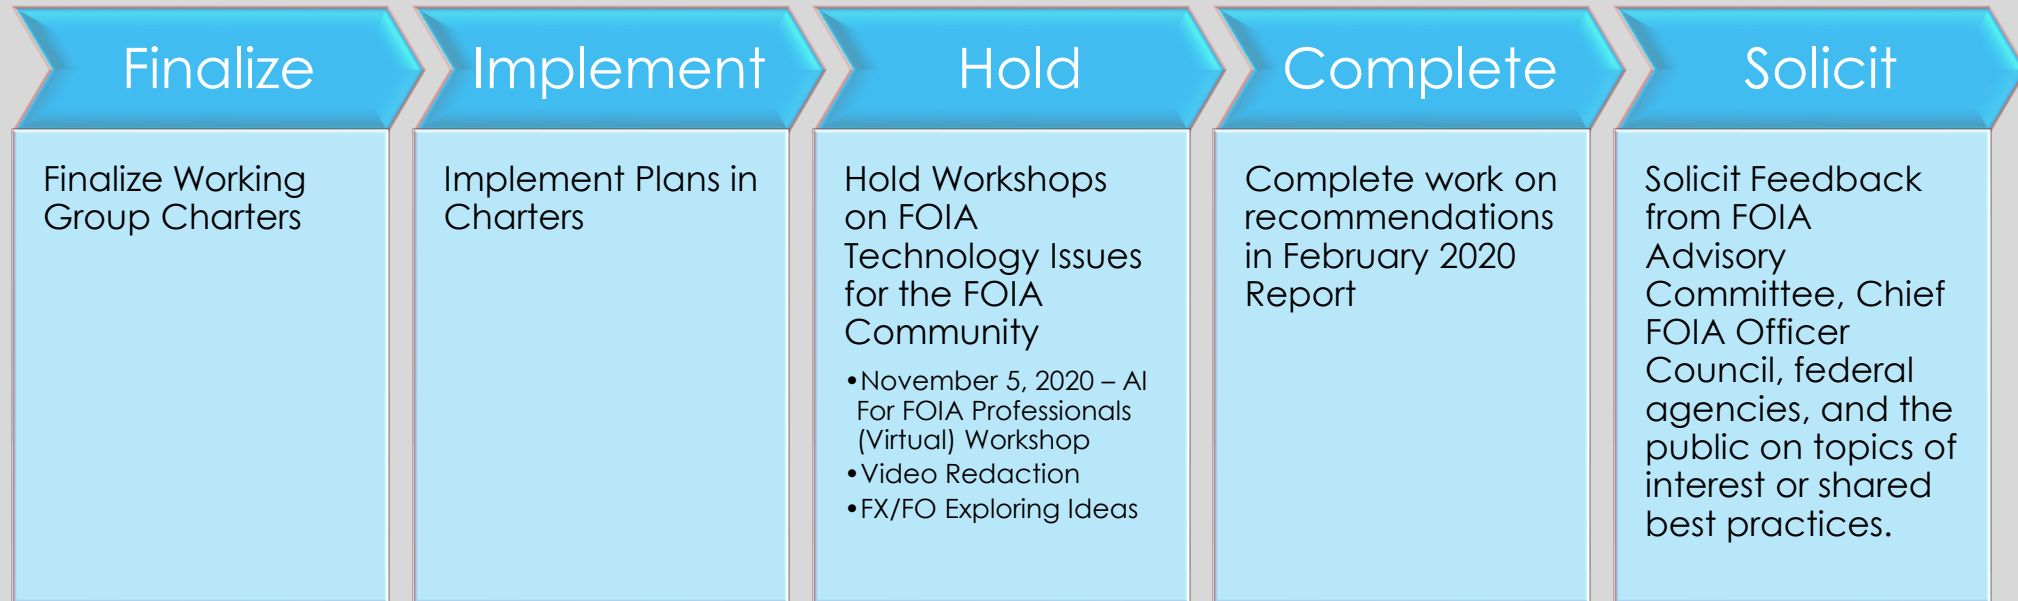

Earmarking funds for FOIA contractors with specialized skills can be efficient.

-

As you build your FOIA programs out- consider adding video redaction skills to PD's and performance plans.
