

During Obama administration GAO neglects its duty under 5 USC 552(i) to audit Executive agency compliance with 5 USC 552(a)(1)

Dear agents of the United States and Representatives on the FOIAAC, Upon reviewing certain reports detailing the results of FOIA audits conducted by the GAO under 5 USC 552(i) (see GAO-10-537T, GAO-12-754, GAO-12-828), it appears that the GAO has neglected during the regimes of President Obama and Attorney General Holder to conduct audits with respect to Executive agencies' compliance with the publication of information in the Federal Register and in the Code of Federal Regulations under 5 USC 552(a)(1). In light of such neglect, must one assume that it's the intention of the U.S. Congress to turn a blind eye to the ubiquitous and egregious malfeasant Executive undermining of such sources of public guidance? Sincerely, Brady Eames
