Dear agents of the United States and Representatives on the FOIAAC, Upon my performance of an audit by researching the 2013 and 2014 online editions of the CFR at <http://www.gpo.gov/fdsys/>, I discovered that the Council for Inspector Generals on Integrity and Efficiency, the Office of Government Information Services and the Internal Revenue Service Oversight Board are all non-compliant with 5 USC 552(a)(1)(A)-(E) pursuant to not publishing and codifying any separate and current statement of their respective organization in the FR and the CFR. With respect to the Privacy and Civil Liberties Oversight Board, a separate statement of its organization has been published in the FR and codified in the CFR but is obviously not current considering its central organization does not include an Inspector General, chief information officer (see 44 USC 3506(a)(2)(A)), chief FOIA officer (see 5 USC 552(j)), chief operating officer (see 31 USC 1123(a)) or performance improvement officer (see 31 USC 1124(a)(1)). Sincerely, Brady Eames
