Dear agents of the United States, Shall we consider the NLRB-Members' egregious dereliction in performing their collegial duty of publishing, codifying and preserving separate and current statements of their central and field organizations in the Code of Federal Regulations to be ignorance of, or contempt for, and hypocrisy with respect to the ACUS' Recommendation 1 CFR 305.76-2 of Monday-July 19, 1976 that was published, codified and preserved in the 1977-1992 editions of 1 CFR 305.76-2 and to be condoned by the NLRB-Chairman through his/her agent who is titled a Chief of Staff and named Robert Schiff and is designated by the NLRB-Chairman to a member of the ACUS?! Sincerely, Brady Eames
