Dear agents of the United States, Referring to last **full text** version of the **A-130 "notice"** published at *61 FR 6432-6433* and *6446-6448* on **Tuesday-February 20, 1996**, it's made clear to me that the Federal Depository Library Program is alive and well. Nonetheless, in defiant contempt for *Section 8(a)(6)*, the **OMB** is **not** even making available to me for my free use in the **Federal Regional Depository Library in Logan, UT** either the paper and electronic version of the **full text** of the **A-130!!!** Please explain.

Dear agents of the United States, Referring to the last **full text** version of the **OMB's Circular A-130** titled "**Management of Federal Information Resources**" published irresponsibly and illegally at *61 FR 6430-6453* on **Tuesday-February 20, 1996** as an **un-codified, un-preserved and non-CFR "notice"** by the **OMB's former Administrator of the Office of Information and Regulatory Affairs** named **Sally Katzen** and former **Director** named **Alice Rivlin** and by the former **Director of the Federal Register** named **Richard Claypoole** when the **Administrative Committee of the Federal Register** was composed of **Archivist-John Carlin**, **Public Printer-Michael Dimario** and **Office of Legal Counsel-Senior Counsel-Rosemary Hart**, it's made clear to me that the **Federal Depository Library Program** is alive and well. Nonetheless, in defiant contempt for *Section 8(a)(6)*, the **OMB** is **not** even making available for my free use in the **Federal Regional Depository Library in Logan, UT** either the **paper** or **electronic version** of such **full text A-130**. Take note that the **OMB's un-codified, un-preserved and non-CFR "notice"** of the website address "<http://www.whitehouse.gov/OMB/circulars/index.html>" published at *65 FR 77678* of *December 12, 2000* as being a source of the "recompiled version of Circular A-130" is "**NOT FOUND**". Please consider this as my petition to the **ACUS** to study the inefficiency, inadequacy and unfairness expressed in this message and make recommendations in connection therewith. Thank you, Brady Eames
