

Management Letter 14-06

NARA Computer Internet Browser Settings

The National Archives and Records Administration (NARA) Office of Inspector General (OIG), Office of Investigations (OI) identified a weakness in how NARA provides internet access on NARA owned computers. This weakness had a direct effect on what evidence could be available in criminal and other investigations. Due to the sensitive nature of the weakness, and the specificity with which it was addressed in the management letter, the contents of the letter will not be posted online.
