**Inventory for FOIA 2024-0086-F**

**Vice President Biden Speaks at Sexual Assault Kit Backlog Event**

**Extent**

1 .mp3 audio recording on Blu-ray format approximately 22 minutes and 02 seconds in length.

**Access**

Collection is open to all researchers. Access to Biden Vice Presidential records is governed by the Presidential Records Act, as amended (PRA) (44 USC 2201-2209) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore may be restricted in whole or in part in accordance with legal restrictions and exemptions.

**Copyright**

Audiovisual files in this collection that were prepared by officials of the United States Government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

**Provenance**

Official records of the Joseph R. Biden vice presidency are in the custody of the Archival Operations Division in Washington, DC and are administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act, as amended (PRA).

**Processed By**

Staff Archivists, September 2025. Previously restricted materials are added as they are released.

**Scope and Content**

The materials in this series are a selective, not necessarily all inclusive, body of records responsive to the topic of FOIA case 2024-0086-F.

This series consists of one .mp3 file of Vice President Biden's remarks at a sexual assault backlog event on September 10, 2015 at the Hirsch building in New York, New York.

**System of Arrangement**

The materials in FOIA 2024-0086-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA request were found in the Biden Vice Presidential Audiovisual Records collection. These records are maintained by the White House Communications Agency (WHCA). WHCA records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area. These Audiovisual records are born-digital files and are primarily .mp3 and .wav files.
