Senior Agency Official for Records Management
2020 Annual Report

The National Archives and Records Administration (NARA) requires Senior Agency Officials for Records Management (SAORM) to provide an annual report demonstrating how agencies are handling important records management initiatives as identified by NARA.

NARA uses the reports to determine the overall progress of the Federal Government in managing its records and the transition away from paper to digital formats, and to identify best practices and model solutions within Federal agencies.

On June 28, 2019, the Office of Management and Budget and the National Archives issued a memorandum: Transition to Electronic Records (M-19-21) to ensure that all Federal records are created, retained, and managed in electronic formats by December 31, 2022. This year's SAORM report provides an opportunity for agencies to report on plans and progress towards the milestones and target goals in this memorandum, as well as other important records management initiatives. The reporting period begins on January 19, 2021, and reports are due back to NARA no later than March 19, 2021.

NARA plans to post your 2020 SAORM report on the NARA website upon receipt. Please ensure that your agency’s report is a publicly releasable version. This action is in the interest of transparency in Government and to promote collaboration and communication among agencies. NARA intends to list any non-responding agencies in a summary report and on the website.

Instructions for Reporting:

This template covers both records management program developments towards the transition to electronic recordkeeping outlined in M-19-21 through December 31, 2022, and other aspects of agency records management programs. Please be brief and precise in your answers. Limit answers to each question to no more than 500 words.
