

Senior Agency Official for Records Management 2023 Annual Report

The National Archives and Records Administration (NARA) requires Senior Agency Officials for Records Management (SAORM) to provide an annual report demonstrating how agencies are handling important records management initiatives as identified by NARA.

NARA uses the reports to determine the overall progress of the federal government in managing its records and the transition away from paper to digital formats, and to identify best practices and model solutions within federal agencies.

On June 28, 2019, the Office of Management and Budget (OMB) and NARA issued a memorandum, *Transition to Electronic Records* ([M-19-21](#)), to ensure that all federal records are created, retained, and managed in electronic formats. M-19-21 gave agencies until the end of December 2022 to comply with several specific deadlines.

On December 23, 2022, OMB and NARA issued a new memorandum, *Update to Transition to Electronic Records* ([M-23-07](#)) reinforcing the goals in M-19-21 and extending the 2022 deadlines to June 30, 2024.

Additionally, on January 1, 2021, Congress enacted the Preservation of Electronic Messages and Other Records Act, amending 44 U.S.C. Chapter 29, that requires the electronic capture, management, and preservation of such electronic records in accordance with the records disposition requirements of 44 U.S.C. Chapter 33.

This year's SAORM report provides an opportunity for agencies to report on plans and progress towards electronic recordkeeping and preservation under these requirements, as well as other important records management initiatives.

The reporting period begins on January 8, 2024, and reports are due back to NARA no later than March 8, 2024.

NARA plans to post your 2023 SAORM report on the NARA website upon receipt. Please ensure that your agency's report is a publicly releasable version. This action is in the interest of transparency in government and to promote collaboration and communication among agencies. NARA intends to list any non-responding agencies in a summary report on our website.

FERC Data Governance Division, under the direction of the Chief Data Officer, has established a Data Stewardship Framework that provides for accountability for data management, including capturing retention details for each of the agency's cataloged data assets and data sets consistent with established record schedules.

7. In your role as SAORM, do you meet with your Agency Records Officer(s) to discuss the agency records management program's goals?

Yes

No

Not applicable, my agency does not currently have a designated Agency Records Officer

Please explain your response. (If 'Yes,' please include how often, a description of topics, and outcomes of these meetings. If 'No,' please explain why not.)

As SOARM, I am apprised of the status of our records management program as part of a monthly review of our Documents Operations program. I also meet with the Records Officer on an ad hoc basis to address specific matters that arise concerning records management.

8. Has your agency incorporated NARA's digitization standards into your Information Resource Management (IRM) Strategic Plan? (44 U.S.C. 3506(b)(2) and OMB Circular A-130)

No

Not applicable, my agency is not currently digitizing records

Please explain your response. (If 'Yes,' what steps have been taken? If 'No,' why not?)

While the FERC Information Resource Management Strategic Plan for FY 2022-2024 is designed to comply with all federal mandates and directives concerning information technology and is written to broadly ensure and prioritize compliance, it does not specifically address NARA's digitization standards. The Records Management team is working with FERC CIO/IT staff to incorporate NARA's digitization standards, including the standards for permanent records that became effective in June 2023, into the upcoming version of the IRM.

9. Does your agency have a social media strategy that includes capturing and maintaining records in accordance with records management statutes and regulations?

Yes

No

Please explain your response.

We submitted a Request for Records Disposition Authority to NARA during the fourth quarter of 2023. Once the authority to schedule for Web Content and Social Media Records has been approved, our Social Media Strategy will include additional records management statutes and regulations, such as, dispositioning and retention processes. Because the records are currently unscheduled, we are capturing and maintaining them according to the records management statutes and regulations for unscheduled records.

10. Is there specific policy or guidance you need from NARA to support the strategic direction of your records management program?

Yes

No

Please explain your response and include any comments on existing, pending, and future topics.
