

## New GRS Items that no Longer Exist

GRS item number format changed with the new GRS, beginning with Transmittal 23 in 2014. You can link the several hundred old-GRS items with their new-GRS supersessions via the [Old-to-New Crosswalk](#). The table below lists 30 items born under the new GRS that have been superseded by other new GRS items or rescinded.

Read this table from left to right. The first three columns show items that no longer appear in the GRS. The last three columns show where these same records can be found in the current GRS.
