GENERAL RECORDS SCHEDULE 18

Security and Protective Services Records

Security and protective services records include the various files created by agencies to control and protect classified information; to protect Government facilities from unauthorized entry, sabotage, or loss; to ensure the adequacy of protective measures at privately owned plants given security cognizance by the Government; to determine loyalty and fitness of individuals employed by, or seeking employment from the Government; and to develop and implement plans for the protection of life and property under emergency conditions. Included are selected files of offices having Government-wide or agencywide responsibility for security and protective services programs. Also included are files of security units, guard forces, and other organizational elements documenting the control of classified information, access to facilities, and like matters.

This schedule authorizes for disposal records documenting administrative actions relating to the above functions. Records documenting Government-wide or agencywide security and protective services planning and programming, reflecting basic overall policies and determinations are not authorized for disposal by this schedule. Variations among agencies in methods of implementing statutory requirements for security and protective services result in dissimilarities in program documentation. The application of standard techniques of filing and disposition to such records through the medium of a General Records Schedule is therefore impractical. Any records created prior to January 1, 1921, must be offered to the National Archives and Records Administration (NARA) before applying these disposition instructions.
