

## GENERAL RECORDS SCHEDULE 27

### Records of the Chief Information Officer

This schedule provides disposal authorization for certain records created and maintained by Federal Chief Information Officers (CIO) and their program offices. This schedule applies to the records of CIOs at agency or departmental headquarters as well as those of deputy and subordinate CIOs at the bureau or field office level. This schedule does not apply to officials with Government-wide responsibilities for information resources management (IRM) and information technology (IT) governance.

In accordance with the Clinger-Cohen Act (originally the Information Technology Management Reform Act), CIOs of 24 major departments and agencies have IRM as their primary duty. They are responsible for advising and assisting the agency's executive with IT acquisition and management; developing and maintaining the agency's IT architecture; promoting the efficient design and operation of the agency's major information resources management processes; monitoring the performance of IT programs of the agency; and developing the knowledge and skill of IT staff. CIOs may also lead, coordinate, or participate in programs to support the mandates of the Paperwork Reduction Act, Government Paperwork Elimination Act, Federal Records Act, E-Government Act of 2002, Privacy Act, Government Performance and Results Act, and other Federal laws and regulations relating to IRM.

This schedule does not cover all records relating to the work of CIOs. CIOs are often responsible for programs and activities whose records are already covered by an approved GRS. Records not described in this or any other GRS must be scheduled by submission to NARA of an SF 115, Request for Records Disposition Authority. If records are part of a larger case file or recordkeeping system that contains records not covered in this schedule, agencies must separately schedule those records or systems by submitting an SF 115 to NARA. If records covered by more than one item in this schedule are maintained together in one file or recordkeeping system, agencies must retain the records for the longest retention period authorized for those items.

The disposition instructions apply to records regardless of physical form or characteristics. Records may be maintained in any format on any medium.

Note that GRS 20, Electronic Records, remains in effect. GRS 20 covers certain temporary files associated with database management. This schedule supplements GRS 20 by providing disposal authority for records relating to the administration of a CIO's office, as opposed to the operation and use of specific systems. This schedule does not apply to the data or information content of IT systems. Records relating to specific systems that support or document the agency's mission must be scheduled individually by submission of an SF 115 to NARA.
