1	4000	Research and Development	Statistical Reports	<p>Records include statistical reports for each State, following coverage by an initial inventory and by each subsequent reinventory. Statistical reports for Regions, Survey units, and counties are optional. Reports compare principal statistics with similar data from previous surveys or estimates, and indicate the extent to which differences are attributable to such factors as changes in forest conditions, or differing accuracy standards, definitions, and techniques.</p> <p>Statistical reports should also include an appraisal of the outlook for timber supplies in terms of available cut, study, and technical opportunities for improving the future supply situation. Statistical reports for counties or Survey units may be issued at the option of Forest Service Research Stations. The release of county statistics should be accompanied by a statement on reliability and a word of caution regarding the use of statistics with high sampling errors.</p> <p>Final reports may be included in other reports included elsewhere in this schedule, though an official copy of the report should be retained under this filecode.</p> <p><u>Note</u> Close file when report issued and apply retention period.</p>	Temporary, 30 years (see notes)	New, not previously scheduled	New, not previously scheduled
