The Forest Service must ensure that solid waste systems on the National Forests are designed, constructed, maintained, and operated in a way to protect the quality of air, water, soil, and land resources. This file contains records that provide Service-wide direction to the field units. Records of a project-type pertaining to the implementation of this direction are maintained under file designation 7460 Solid Waste.

These records have never been scheduled before.

2130 Solid Waste Management (Includes general correspondence on the design, construction, management, operation, and maintenance of the Forest Service solid waste system. These processes ensure public health and safety.)

All Offices: Destroy records when 3 years old.
