CHAPTER 40 - FILE DESIGNATIONS AND DISPOSITION

40.5 - Definitions. (See also sec. 30.5.)

1. <u>All Offices</u>. The term "Offices" refers to each organizational unit such as the Washington Office, Regional Office, (including Supervisor's Office, Ranger District and similar units), Stations (including Research Work Units), and Area; and subunits such as a Staff in the Washington Office or the Regional Office, or a Research Work Unit within a Station's Headquarters. The disposition instructions apply only to those organizational units and subunits responsible for maintaining documents that are records material for their program area(s), office operations, or require a response. (See section 24.5).

2. <u>All Other Offices</u>. When specific instructions are given to only one organizational unit (for example, the Washington Office), the remaining or "other" organizational units (Regional Office, Experiment Stations, Supervisor's Office, and Ranger District) are collectively given different instructions for disposing of the same documents. The disposition instructions apply only to those organizational units and subunits responsible for maintaining documents that are records material for their program area(s), office operations, or require a response. (See section 24.5).

3. <u>Block</u>. Transfer of a series of records covering a specified period of time, such as a 5-year (1980-85) or 10-year; (1980-90) block.

4. <u>Cut-Off</u>. Termanation of a file at regular intervals to facilitate continuous disposal or transfer (also called "filebreak").

5. <u>Deleted</u>. File designation is removed from the filing system.

6. <u>N/A</u>. Not applicable. Documents on the subject matter are never received or generated at that organizational level.

7. <u>Offer to NARA When 20 Years Old</u>. This term provides direction to the federal records centers when to offer stored records to the National Archives.

8. 1/4. A 3-month (one quarter) retention period.

9. Originating Office. The disposition instructions apply only to the unit or subunit which originates particular studies, reports, audio-visual products or other records materials.

40.5

-FSH 1/88 AMEND 40-

10. P. Stands for permanent records.

11. <u>"See Note</u>." Directs reader to the "Note" under the description of the file designation, giving additional instructions not addressed in the retention columns.

12. U. Unscheduled records, having no approved disposition authority, and cannot be destroyed or shipped to a Federal records center for storage unless special authority is received from the Washington Office.

13. "When Administrative Use Ceases." Time identified by office personnel when particular records are no longer needed and can be destroyed (also termed, "when local need ceases").

41 - FILE PLAN FOR FILE DESIGNATIONS AND RETENTION PERIODS. Organize all Forest Service material according to the file plan in section 41, which provides primary, secondary, and tertiary filing levels by file designation and retention periods for records. Refer to chapters 20 and 30 for more information on filing and disposition of records.
