| 1 | <p>This schedule covers records in the 7500 series. They were approved (with the exception of some disposal authority) in NC1-95-80-1.</p> <p>The 7500 series is concerned with the planning design, construction, and maintenance of all structures intended to store or transmit water, except excavated ponds, domestic-water-supply pipelines, sewers, and certain sewage-treatment lagoons. They apply to both Forest Service projects and projects designed and owned by others located on land administered by the Forest Service.</p> <p>Secondary designations for reports and project files are being deleted from 7500 thru 7560 and placed under the primary Management System (which will be numbered 7560 because 7550 has been proposed for deletion) so that one complete file will be maintained with all information for each specific site of a dam, channel, or other water storage and transmission method.</p> <p>7510 Administration (Includes correspondence relating to project classification system and project administrative review, approval and supervision. Site specific information is to be filed under 7560.)</p> <p>This reflects a change in title only from Administrative</p> | (Item 124) | 27 items |
