1.	<p>This agency requests immediate disposal authority for printed copies of all directives and forms issued by Farmers Home Administration (FmHA) field offices which are stored in the Washington Records Center. These records are presently scheduled under Job No. NN166-133, item 2, which provides for permanent retention of a master manual set of National Office and field office procedures. FmHA now has a combined file/disposition schedule for the National Office which was approved April 11, 1975, and assigned Job. No. NC-96-75-1. When this schedule was in process, it was determined by the National Archives and Records Service representatives that field instructions and forms were to be removed from the permanent retention category since they implement policies established in National instructions and forms when such implementation is needed because of state statutes and laws. Therefore, field procedures are no longer sent to the National Office for transfer to the records center and then to archives. Field instructions and forms are destroyed by the State Offices after they have met their administrative needs. Subject codes "021D" and "021E" in the National Office records schedule provide for a 10-year retention of State instructions and forms in the National Office. Code "021A, National FmHA Master Manual Records," in the agency schedule does not include field issuances.</p> <p>The records for which we are requesting immediate disposal are covered by the following accessions:</p>

NC1-96-77-2

Director, NCD

In this job the Farmers Home Administration requests authority to destroy immediately 61 cubic feet of directives and forms issued by field offices from 1946 to 1971. Under job NN-166-133, item 2, these records were scheduled "retain" along with directives and forms issued by FmHA headquarters. The agency is destroying similar records created after 1971 when 10 years old by authority of NC-96-75-1, items 021D and 021E. These *field* ~~filed~~ instructions simply implement policies established at the national level and are now, and always have been, procedural in nature. Since these records have no archival value and are no longer of administrative value to the agency, I recommend approval of this SF 115.

December 10, 1976

Mr. Tom Wadlow, Director
Records Disposition Division
Office of Federal Records Centers
National Archives and Records Service
General Services Administration
Washington, D. C.

Dear Mr. Wadlow:

In accordance with GSA Bulletin FPMR B-49, Archives and Records, dated August 7, 1974, paragraph 4, we are attaching three SF 115's covering Farmers Home Administration (FmHA) records presently housed in the Washington National Records Center.

One SF 115 requests immediate disposal authority for directives and forms issued by FmHA field offices. The other two SF 115's recommend a disposal date for unscheduled land acquisition and mineral interest records.

All FmHA records will be scheduled upon approval of a disposition date for records covered by these SF 115's.

Your early consideration of the attached requests for authority to dispose of records will be appreciated.

Sincerely,

ALBERT J. GEIGER, Director
