	<p>FINANCIAL INFORMATION SYSTEMS</p> <p>The systems track, store and report on all Financial Activity for the Risk Management Agency and the Federal Crop Insurance Corporation The systems maintain the agency's official financial records, as well as the book of business of record for our Approved Insurance Providers (AIPs) The system performs financial activities in accordance with Generally Accepted Accounting Principles (GAAP) and provide detail (producer level) and aggregate (company level) data used to determine monies owed or due RMA/FCIC The systems also track program eligibility and the gain/loss ratio which assesses the relative health of and risk to the program</p> <p>See attached</p>		

FINANCIAL INFORMATION SYSTEM

The Risk Management Agency is the operations arm of the Federal Crop Insurance Corporation (FCIC) Federal crop insurance is available to agricultural producers through private insurance companies that market and service policies FCIC reinsures the policies and provides a subsidy for the administrative and operating expenses of delivering the insurance products and/or programs FCIC also provides a subsidy for the producer's premium

The FMS investment is RMAs single integrated financial management system (as required by OMB Circular A-127) FMS is a set of financial processes used by RMA/FCIC to carry out financial management functions, manage financial operations of the agency and report on the agency's financial status to central agencies, Congress and the public The FCIC maintains two separate funds, one for administrative and operating purposes (A&O fund), and one for the crop insurance program (Insurance Fund). FMS manages the Insurance Fund.

This system also facilitates the transfer of financial information to and from AIP accounting units, Treasury, and other government agencies

Information in the system comes from upstream program processes that require reinsured companies to electronically transmit, at least monthly, all data required under the reinsurance agreement to receive their contracted reimbursements

1. Inputs

Inputs include pre-DAS (raw) detail data files, post-DAS databases, Government-wide Debt Management Program data and a small number of manual entries by accountants and debt collection personnel

Inputs also include ineligible and Plan of Operations data from the AIP File Server. Policy data to support Escrow and Accounting Reports comes from DAS Actuarial Data Master (ADM) information from RMA ADM database.

Disposition: TEMPORARY, delete when data have been entered into the master file or database and verified, or when no longer needed to support reconstruction of, or serve as backup to, the master file or database, whichever is later

GRS 20 Item 2.c

2. Master File (System itself i.e. database, systems, etc)

The Financial Information Systems include individual producer accounting records; aggregate company accounting records; summary journal vouchers, accounts payable, accounts receivable; debt records, program eligibility records Includes daily funding of escrow, tracking of accounts receivable and accounts payable, plan of operations, program eligibility, general ledger interface, financial reporting (quarterly and year-end close out).

The systems track, store and report on all Financial Activity for the Risk Management Agency and the Federal Crop Insurance Corporation The systems maintain the agency's official financial records, as well as the book of business of record for our Approved Insurance Providers (AIPs) The system performs financial activities in accordance with Generally Accepted Accounting Principles (GAAP) and provide detail (producer level) and aggregate (company level) data used to determine monies owed or due RMA/FCIC The systems also track program eligibility and the gain/loss ratio which assesses the relative health of and risk to the program.

Disposition: Data will be retained in the system for a minimum of 25 years. Delete when no longer needed for administrative, legal, audit or other operational purposes

~~3. Outputs~~

~~Reports can be created on demand for all applications except Reinsurance Accounting Systems (RAS) which runs monthly and Year End Accounting which processes quarterly~~

~~**Disposition:** Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes. **GRS 20 Item 4**~~

~~4. Systems Documentation~~

~~Data systems specification, file specifications, codebooks, record layouts, user guides, output specifications, and final reports relating to the master file, database or other electronic records.~~

~~**Disposition:** TEMPORARY, destroy when superseded or obsolete **GRS 20 Item 11.a.1**~~
