These ledgers are mathematically compared against budget authority/allocation data to produce a Status of Funds. A customized reporting system, built upon the Cognos reporting platform, provides the capability to generate various reports in order to validate the data residing in the system; thus generating a Status of Funds report. Initial data on employees is entered by budget analysts based on known data points such as: Employee's name, employee vendor number (not the SSN), Pay Plan, Series, Grade, Step, Title, benefits Plan, work schedule, Duty station, etc. Obligated ledgers hold the data that is received in the payroll transaction files received from FMMI</p> <p>Final Disposition Temporary</p> <p>Item Status Active</p> <p>Is this item media neutral? This module provides the ability to electronically index cooperative agreement, grants, interagency transactions, cooperative service agreements, material transfer agreements, memorandum of understanding, and indemnities. The official files are not maintained in the ACMS system, but are rather maintained in paper copy in the originating office. All data is manually entered by Agreements Specialist based upon the forms that are created by either APHIS personnel, other federal or non-federal partners. Data points are specific based upon agreement type, but include general data such as: Decision Form Date, Agreement Number, Start Date, Project Title, Project Description, Cooperator Name, Cooperator Address (Street, City, State, Zip Code, County), DUNS Number, Performance Address (Street, City, State, Zip Code, County), Program Contact (ADODR) and Admin Contact.
