The Statistical Research Division wishes to blank the following files because they are no longer needed by the Division to carry out its current programs:

1. 71-157 Word Coding. SIC Coding. 5 tapes

This file consists of verbal descriptions of small business establishments that were derived from IRS forms 1040C and 1065 that were used in a feasibility study using such IRS form descriptions to generate SIC codes. The results of the study were published in the Communications of the ACM, Vol. 15, No. 6, June 1972.

2. 75-272 Synthetic Estimates. 21 tapes

These tapes are sets of special extract tabulations of 1970 Census data that were created for research on unemployment estimates for small areas. The results of the research were published in The Journal of the American Statistical Association, Vol. 73, No. 361, March 1978.
