1. 71-196	<p>The Demographic Surveys Division wishes to blank this file because it is no longer needed for current programs.</p> <p>Urban Employment Survey. UES 1969-1970. 65 III-A tapes.</p> <p>Quarterly and annual microdata file resulting from a survey of employment in selected urban areas in 1969/1970. The file contains personal, family relationship, employment, income, educational, work history, job training, and work attitude data on respondents.</p> <p>The file documentation includes a record layout/code book which matches some but not all of the tapes. Some of the final edited microdata tapes were accidentally blanked several years ago so that some of the tapes in this file consist of intermediate data tapes (in lieu of the missing final tapes) whose record layout apparently differs from that in the final documentation.</p>		1 item
