Appraisal and Disposition Division (NIR), National Archives and Records Administration, Washington, DC 20408. Requestors must cite the control number assigned to each schedule when requesting a copy.

The control number appears in parentheses immediately after the title of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. government agencies create billions of records in the form of paper, film, magnetic tape, and other media. In order to control the accumulation of records, Federal agencies prepare records schedules which specify when the agency no longer needs them for current business and what happens to the records after the expiration of this period. Destruction of the records requires the approval of the Archivist of the United States, which is based on a thorough study of their potential value for future use. A few schedules are comprehensive; they list all the records of an agency or one of its major subdivisions. Most schedules cover only one office, or one program, or a few series of records, and many are updates of previously approved schedules.

This public notice identifies the Federal agencies and their appropriate subdivisions requesting disposition authority, includes a control number assigned to each schedule, and briefly identifies the records scheduled for disposal. The complete records schedule contains additional information about the records and their disposition. Additional information about the disposition process will be furnished with each copy of a records schedule requested.

Schedules Pending Approval

1. Departments of the Army and the Air Force, Army and Air Force Exchange Service (N1-334-86-2). Records relating to exchange operating procedures.

2. Department of the Navy, Naval Data Automation Command, Naval Records and Information Management Department (N1-143-86-1). Housekeeping records of the Bureau of Supplies and Accounts. Also included in this schedule are records appraised as permanent.

3. Department of Agriculture, Office of International Cooperation and Development (NC1-166-84-1). Comprehensive schedule covering records relating to the administration of programs designed to share knowledge of agriculture through development assistance and cooperation with other countries.

* 4. Department of Commerce, Office of the Secretary (N1-40-86-2). Phonographic recording of a speech made on January 20, 1942, by Robert H. Hinkley, Assistant Secretary of Commerce.

5. Defense Logistics Agency, Staff Director of Administration, Resources Management Division (N1-351-86-1). Contracts and purchase orders.

6. United States Information Agency, Attestation Staff (N1-308-86-3). Textual records relating to duty-free designation of audio visual material judged to have an appropriate educational nature under the United Nations Beirut Agreement.

7. Department of Justice, Federal Bureau of Investigation, Records Management Division (N1-65-86-17, -18, -20, -22, and -24). Documentation containing personal information of insufficient historical or other value to warrant archival retention. Exemption of the information has been requested by the individual to whom it relates.

8. Department of the Treasury, Comptroller of the Currency (N1-101-86-2). Microfilm copy of bank charter certificates. The paper originals have been designated for eventual transfer to the National Archives.

Dated June 12, 1986.

Frank G. Burke,

Acting Archivist of the United States

BILLING CODE 7515-10-M

NUCLEAR REGULATORY COMMISSION

[Docket 50-433]

Public Service Company of New Hampshire, et al., Seabrook Station, Unit 1; Environmental Assessment and Finding of no Significant Impact

The Nuclear Regulatory Commission (the Commission) is considering issuance of an extension to the latest construction completion date specified in Construction Permit CPPR-135. Construction Permit CPPR-135 for the Seabrook Station, Unit 1 was issued to Public Service Company of New Hampshire, et al. on July 7, 1976, with the latest construction completion date as June 30, 1983. By Order, dated May

¹ Public Service Company of New Hampshire is authorized to act as agent and representative for the Bangor Hydro Electric Company, Canal Electric Company, Central Maine Power Company, Central Vermont Public Service Corporation, Connecticut Light & Power Company, Fitchburg Gas & Electric Light Company, Hudson Light & Power Department, Maine Public Service Company, Massachusetts Municipal Wholesale Electric Company, Montaup Electric Company, New England Power Company, New Hampshire Electric Cooperative, Inc., Public

Service Company of New Hampshire Municipal Lighting Plant, United Illuminating Company, Vermont Electric Generation Transmission Cooperative, Inc., and Electric Cooperative, Inc.

Environmental Assessment

Identification of Proposed Action. The proposed action would amend the construction permit by extending the latest construction completion date from June 30, 1986 to June 30, 1987. The proposed action is in response to applicants' request, dated May 7

The Need for the Proposed Action

The proposed action is needed because the construction of the Unit 1 is not 100% completed. Construction of Seabrook Unit 1 is virtually complete but it is not an absolute certainty that the construction will be fully complete by June 30, 1986, the present expiration date of CPPR-135. In addition, formulation of offsite emergency plans for various State and Local governmental entities which are necessary for NRC approval for issuance of an operating license will be forthcoming prior to June 30, 1986. Essential regulatory approvals for loading and low power operation will not be issued prior to June 30, 1986.

The requested revised completion date extends beyond the date by which the applicant expects to load fuel in Seabrook Station, Unit 1 and is a conservative estimate of actual completion.

Environmental Impacts of the Action

The environmental impacts with construction of the facility have been previously discussed and evaluated in the NRC staff's Final Environmental Statement (FES) issued in December 1974 for the construction permit stage which covered construction of Seabrook Station, Units 1 and 2. The NRC's staff Final Environmental Statement (FES) related to operation of the two units was issued in December 1982.

Since the proposed action is extending the construction permit, radiological impacts are not a concern in this action. The impacts that are involved are all non-radiological impacts associated with continued construction.

Service Company of New Hampshire Municipal Lighting Plant, United Illuminating Company, Vermont Electric Generation Transmission Cooperative, Inc., and Electric Cooperative, Inc.

* At the expiration of the period for comment--August 18, 1986, NIR had not received any comments on, or requests for, Job No. N1-40-86-2.
