**Technology Innovation Program (TIP) Funded Project Database** is a collection of data for the Active and Completed Projects funded by TIP. TIP is a cost-shared federal financial assistance program to support, promote and accelerate innovation in the United States through high-risk, high-reward research in areas of critical need. This data is available to the public in the form of a query tool located on the TIP website. Queries can be generated for specific participants or states, or to display all data on active projects. Results appear on a new page in spreadsheet form. Clicking the Project Title will display a Project Brief for that particular project.

*GRS 20, 1b*
